Taylor, 2009-06-01 Chiang Ching-kuo son and political heir of Generalissimo Chiang Kai-shek was born in 1910 when Chinese women nearly all illiterate hobbled about on bound feet and men wore pigtails as symbols of subservience to the Manchu Dynasty. In his youth Ching-kuo was a Communist and a Trotskyite and he lived twelve years in Russia. He died in 1988 as the leader of Taiwan, a Chinese society with a flourishing consumer economy and a budding but already wild, woolly and open democracy. He was an actor in many of the events of the last century that shaped the history of China's struggles and achievements in the modern era: the surge of nationalism among Chinese youth, the grand appeal of Marxism-Leninism, the terrible battle against fascist Japan and the long destructive civil war between the Nationalists and the Communists. In 1949 he fled to Taiwan with his father and two million Nationalists. He led the brutal suppression of dissent on the island and was a major player in the cold, sometimes hot war between Communist China and America. By reacting to changing economic, social and political dynamics on Taiwan, Sino-American rapprochement, Deng Xiaoping's sweeping reforms on the mainland and other international events, he led Taiwan on a zigzag but ultimately successful transition from dictatorship to democracy. Jay Taylor underscores the interaction of political developments on the mainland and in Taiwan and concludes that if China ever makes a similar transition, it will owe much to the Taiwan example and the Generalissimo's son. **Stalin** Stephen

Kotkin, 2017-10-31 Monumental The New York Times Book Review Pulitzer Prize finalist Stephen Kotkin has written the definitive biography of Joseph Stalin from collectivization and the Great Terror to the conflict with Hitler's Germany, that is the signal event of modern world history. In 1929 Joseph Stalin, having already achieved dictatorial power over the vast Soviet Empire, formally ordered the systematic conversion of the world's largest peasant economy into socialist modernity, otherwise known as collectivization, regardless of the cost. What it cost and what Stalin ruthlessly enacted transformed the country and its ruler in profound and enduring ways. Building and running a dictatorship with life and death power over hundreds of millions made Stalin into the uncanny figure he became. Stephen Kotkin's *Stalin: Waiting for Hitler, 1929-1941* is the story of how a political system forged an unparalleled personality and vice versa. The wholesale collectivization of some 120 million peasants necessitated levels of coercion that were extreme even for Russia, and the resulting mass starvation elicited criticism inside the party even from those Communists committed to the eradication of capitalism. But Stalin did not flinch. By 1934 when the Soviet Union had stabilized and socialism had been implanted in the countryside, praise for his stunning anti-capitalist success came from all quarters. Stalin, however, never forgave and never forgot, with shocking consequences as he strove to consolidate the state with a brand new elite of young strivers like himself. Stalin's obsessions drove him to execute nearly a million people, including the military leadership, diplomatic and intelligence officials, and innumerable leading lights in culture. While Stalin revived a great power, building a formidable industrialized military, the Soviet Union was effectively alone and surrounded by perceived enemies. The quest for security would bring Soviet Communism to a shocking and improbable pact with Nazi Germany. But that bargain would not unfold as envisioned. The lives of Stalin and Hitler and the

fates of their respective dictatorships drew ever closer to collision as the world hung in the balance Stalin Waiting for Hitler 1929 1941 is a history of the world during the build up to its most fateful hour from the vantage point of Stalin's seat of power It is a landmark achievement in the annals of historical scholarship and in the art of biography [Air University Library Index to Military Periodicals](#) ,1958 **Background Information on the People's Republic of China** Kenneth R. Whiting,Paul H. B. Godwin,1976 **China at War 1901-1949** Edward L. Dreyer,2014-05-12 Few phases of history were as heavy with implications for the world at large than the turbulent years through which China moved from the overthrow of the last imperial dynasty in 1911 through anarchy civil war and invasion to the final triumph of the Communists in 1949 yet few periods are as little known by the wider world and so little understood Professor Dreyer's impressive account of China at war is both an important contribution to this new series of studies of modern wars in their full political social and ideological contexts and also a valuable introduction to the birth confused bloody and painful as it was of the future superpower *A History of the Chinese Communist Party* Stephen Uhalley,1988 **China's Unequal Treaties** Dong Wang,2005-10-01 This study based on primary sources deals with the linguistic development and polemical uses of the expression Unequal Treaties which refers to the treaties China signed between 1842 and 1946 Although this expression has occupied a central position in both Chinese collective memory and Chinese and English historiographies this is the first book to offer an in depth examination of China's encounters with the outside world as manifested in the rhetoric surrounding the Unequal Treaties Author Dong Wang argues that competing forces within China have narrated and renarrated the history of the treaties in an effort to consolidate national unity international independence and political legitimacy and authority In the twentieth century she shows China's experience with these treaties helped to determine their use of international law Of great relevance for students of contemporary China and Chinese history as well as Chinese international law and politics this book illuminates how various Chinese political actors have defined and redefined the past using the framework of the Unequal Treaties
