Literature as Communication and Cognition in Bakhtin and Lotman Allan Reid, 2016-08-19 This title first published in 1990 argues for the existence of a significant connection between the theories of literature and culture of Mikhail Mikhailovich Bakhtin 1895 1975 and Iurii Mikhailovich Lotman 1922 1993 There is general agreement in the academic or scholarly community that there is such a connection however it is generally held to refer to Bakhtin s influence on Lotman which he expressed late in his life The major aim of this study meanwhile is to demonstrate that the critical theories of Lotman and Bakhtin are highly compatible independent of and prior to any direct influence This title will be of interest to students of literature and literary theory

Introducing Semiotic John Deely, 2020-06-23 This comprehensive survey of semiotics examines its development from pre Socratic philosophy to Peirce s Sign Theory and beyond In *Introducing Semiotics* renowned philosopher and semiotician John Deely provides a conceptual overview of the field covering its development across centuries of Western philosophical thought It delineates the foundations of contemporary semiotics and concretely reveals just how integral and fundamental the semiotic point of view really is to Western culture In particular the book bridges the gap from St Augustine in the fifth century to John Locke in the seventeenth The appeal of semiotics lies in its apparent ability to establish a common framework for all disciplines a framework rooted in the understanding of the sign as the universal means of communication With its clarity of exposition and careful use of primary sources *Introducing Semiotics* is an essential text for newcomers to the subject and an ideal textbook for semiotics courses Russian Modernism Stephen C. Hutchings, 1997-12-11 This book explores the unique way in which Russian culture constructs the notion of everyday life or byt and offers the first unified

reading of Silver age narrative which it repositions at the centre of Russian modernism Drawing on semiotics and theology Stephen C Hutchings argues that byt emerged from a dialogue between two traditions one reflected in western representational aesthetics for which daily existence figures as neutral and normative the other encapsulated in the Orthodox emphasis on iconic embodiment Hutchings identifies early Decadent formulations of byt as a milestone after which writers from Chekhov to Rozanov sought to affirm the iconic potential hidden in Russian realism s critique of representationalism Provocative yet careful textual analyses reveal a consistent urge to redefine art s function as one not of representing life but of transfiguring the everyday

Ecosemiotics Timo Maran,2020-12-10 This Element provides an accessible introduction to ecosemiotics and demonstrates its pertinence for the study of today s unstable culture nature relations Ecosemiotics can be defined as the study of sign processes responsible for ecological phenomena The arguments in this Element are developed in three steps that take inspiration from both humanities and biological sciences 1 Showing the diversity reach and effects of sign mediated relations in the natural environment from the level of a single individual up the functioning of the ecosystem 2 Demonstrating numerous ways in which prelinguistic semiotic relations are part of culture and identifying detrimental environmental effects that self contained and purely symbol based sign systems texts and discourses bring along 3 Demonstrating how ecosemiotic analysis centred on models and modelling can effectively map relations between texts and the natural environment or the lack thereof and how this methodology can be used artistically to initiate environmentally friendly cultural forms and practices

On Translating Signs Dinda L. Gorfée, 2004

Translation produces meaningful versions of textual information But what is a text What is translation What is meaning And what is a translational version This book *On Translating Signs Exploring Text and Semio Translation* responds to those and other eternal translation theoretical questions from a semiotic point of view Dinda L Gorfée notes that in this world of interpretation and translation surrounded by our semio translational universe perfused with signs we can intuit whether or not an object in front of us disqualifies as a text This spontaneous understanding requires no formalized definition in order to happen in the receivers of text signs The author further observes that translated signs are not only intelligible for target audiences but also work together as a theatre of consciousness or a theatre of controversy which the author views as powered by Charles S Peirce's three categories of Firstness Secondness and Thirdness This book presents the virtual community of translators as emotional dynamical intellectual but not infallible semioticians They translate text signs from one language and culture into another thus creating an innovative sign milieu packed with intuitive dynamic and changeable signs Translators produce fleeting and fallible text translations with obvious errors caused by ignorance or misguided knowledge Text signs are translatable yet there is no such thing as a perfect or final translation And without the ongoing creating of translated signs of all kinds there would be no novelty no vagueness no manipulation of texts and for that matter no semiosis

The Semiotic Sphere Thomas A. Sebeok, Jean Umiker-Sebeok, 2012-12-06 Although semiotics has in one guise or another flourished uninterruptedly since pre Socratic times in the West and important semiotic themes have emerged and developed independently in both the Brahmanic and Buddhist traditions semiotics as an organized undertaking began to

100m only in the 1960s Workshops materialized with a perhaps surprising spontaneity over much of Europe Eastern and Western and in North America Thereafter others quickly surfaced almost everywhere over the literate globe Different places strategically allied themselves with different legacies but all had a common thrust to aim at a general theory of signs by way of a description of different sign systems their comparative analysis and their classification More or less permanent confederations were forged with the most diverse academic disciplines and amazingly varied frameworks were devised suited to the needs of the times and the sites to carry the work of consolidation forward Bit by bit mutually supportive international networks were put together Today it can truly be asserted that semiotics has become a global enterprise This of course is far from saying that the map is uniform or even that world wide homogeneity is in the least desirable While our conjoint ultimate goal remains steadily in focus the multiplicity of avenues available for its realization is inherent in the adventure of the search itself

Semiotics 1981 John N. Deely, 2012-12-06 This volume differs from the volume *Semiotics 1980* in that it is no longer an experimental product but the result of a permanent commitment of the Semiotic Society of America to publish each year henceforward those papers presented at its Annual Meeting which are submitted to the Secretariat in timely and proper form Thus *Semiotics 1981* marks the beginning following upon the experimental *Semiotics 1980* volume of an indefinite series of volumes presenting the cross fertilization of styles topics methodologies and traditions in which new ideas vie for survival and experiment is at a premium It is this cross fertilization which is at the heart of the vitality and integration and redistribution of the world of knowledge The historical value of such a record is obvious But the more immediate objective of these volumes of annual proceedings is to promote participation in the work of semiotizing traditional perspectives and disciplines by providing a forum in which young scholars can meet regularly and find an outlet for their efforts at interdisciplinary thinking which are not always welcome in the journals and proceedings devoted to the promotion only of traditionally specialized perspectives
