Soviet View Of Disarmament:

The Soviet View of Disarmament P.H. Vigor, 1986-06-18 Perceived Images Daniel Frei, 1986 Current thinking on arms control and disarmament has been dominated by the analysis of such objective factors as the number of weapons their characteristics technological developments and nuclear weapons deployment policies Yet arms control negotiations have had little success so far In this volume Daniel Frei asserts that while such objective analysis is indeed indispensable it needs to be supplemented by a careful document based description of Soviet and U S perceptions of one another and of the kind of assumptions that have thus far compelled their leaders to seek security in growing numbers of sophisticated weapons at ever increasing cost

The Soviet View of Disarmament Peter Hast Vigor, 1986 *Lethal Frontiers* Aleksei Georgievich Arbatov, 1988-10-24 *Lethal Frontiers* is one of the first samples of Soviet scholarship on nuclear strategy readily available to Western readers A rising star in the Soviet foreign policy establishment Arbatov offers a remarkable view of the evaluation of U S nuclear policy and strategy This scholarly book is free of the ideological constraints and negative effects of excessive Soviet secrecy so often characterizing Soviet works on this subject The author begins by tracing the buildup of U S nuclear and conventional forces during the Kennedy and Johnson administrations and examines initial U S reactions to the achievement of strategic nuclear parity by the Soviet Union in the late 1960s and early 1970s From notions of flexible response to the Schlesinger doctrine and ideas of fighting a limited nuclear war Arbatov argues that the U S national security establishment has had enormous difficulty in reconciling itself with Soviet strategic parity Consequently U S strategy and arms programs have invariably collided with and contradicted the arms control process and efforts to decrease U S Soviet tensions In light of this and of the new Soviet approach to security Arbatov observes the challenges lying ahead in the new era of Soviet American relations

CIA Cold War Records, Selected Estimates on The Soviet Union, 1950-1959, 2000 **Selected**

Estimates on the Soviet Union, 1950-1959, 1993 Contains estimates of the 1950s which portray the Soviet Union as aggressive but unwilling to take foolish risks The question became to determine what risks the Soviet Union would be willing to take in any given circumstance

Global Problems and Common Security Josef Rotblat, Vitalii I.

Goldanskii, 2012-12-06 After many years of sterile arms control negotiations between the super powers which did not produce a single genuine disarmament measure and sometimes had the opposite effect of stimulating the development of new weapons to serve as bargaining chips an agreement to abolish completely two categories of nuclear weapons the INF Treaty

was signed and is now being implemented This historical event the first actual destruction of deployed nuclear missiles although not of their warheads became possible largely because of the radical changes in the policies of the Soviet Union the new way of thinking advanced by its leader Mikhail Gorbachev The relaxation of tension that resulted from this policy was one of the factors contributing to the successful conclusion of the INF Treaty Another no less important factor was the acceptance by the Soviet Union of on site inspections as a basic element of a verification system essential to ensure compliance with the Treaty This breakthrough led to the mutual acceptance of an elaborate and precise verification regime and thus made possible the signing of the INF Treaty which in turn contributed to the further lessening of tension between East and West But perhaps the most important factor one which carries much promise for the future was the changed approach to security problems International Organization and Conference Series ,1959 Department of State Publication ,1959 *Milton Leitenberg: Pioneering Work on Weapons of Mass Destruction, Wars and Arms Control* Kathleen Margaret Vogel,Nicole Janice Ball,Milton Leitenberg,2025-09-26 This book is a collection of 44 representative publications and papers by Milton Leitenberg It allows publications that appeared in journals and books as well as unpublished work prepared for national and international organizations to appear in one place This makes them accessible to researchers for years and decades to come These studies made substantial contributions to the area of arms control particularly on the subjects of nuclear weapons wars and conflicts Soviet military studies biological weapons and other related international security areas all of which are of continued interest to security studies and political science audiences The primary audience is academics and practitioners in the arms control security studies and peace research fields The book is useful for graduate studies in arms control and peace research There is no similar book to this collection **New World Review** ,1963

International Organization and Conference Series United States. Department of State,1961 **U.S. Participation in the UN** ,1960 *American Foreign Policy, Current Documents* ,1965 *The Department of State Bulletin* ,1960 The official monthly record of United States foreign policy The Soviet Union United States. Air Force,1985 *Can Russia Change?* Walter Clemens,2011 First published in 1990 this ground breaking book sought to determine whether contemporary Russia had the capacity to change and if in so doing it could alter the complex web of East West relations from a zero sum struggle to a state of peaceful competition and mutual security In order to answer this question the author compares advances and setbacks in arms control and security affairs with co operation on less politically salient issues such as environmental degradation He finds that in the nearly seventy years preceding Mikhail Gorbachev's rise to power the Kremlin relied on several basic approaches to foreign relations These policies isolated the Soviet Union from those nations whose co operation it needed to cope with the escalating interdependencies of the time Gorbachev Clemens argues was the first Soviet leader to recognise both the problems and potential benefits of global interdependence and to explore the possibilities for co operation between East and West to advance mutual security *Can Russia Change* is unique in its
