Space Power And Participation:

Voice, agency, empowerment - handbook on social participation for universal health coverage, 2020-12-21 Social participation is an important means for governments to develop responsive health policies and programmes which are more likely to be implemented by a broad stakeholder group It is at the heart of the inclusive governance needed for countries to stake their individual paths towards Universal Health Coverage while ensuring that no one is left behind As simple as it may seem in theory it is a complex undertaking in practice one which policy makers struggle with The Handbook on Social Participation for UHC is thus designed to provide practical guidance anchored in conceptual clarifications on strengthening meaningful government engagement with the population communities and civil society for national health policy making It draws on best practices and lessons learned to support government institutions in setting up fine tuning improving and institutionalizing new or existing participatory health governance mechanisms The handbook follows through the different tasks which policy makers must reflect on and undertake when bringing in people s voice into health policy making Examples include creating an enabling environment for participation ensuring good representation strengthening capacities increasing policy uptake of participatory process results and sustaining participatory engagement over time A fundamental premise of the handbook rests on the idea that policy makers can leverage format and design elements of a participatory process to address power dynamics amongst participants thereby fostering more meaningful contributions to the process

Participation Samuel Hickey, 2004-10 Participatory techniques have established themselves in both project implementation in developing countries and community interventions in industrial countries Recently participation has been fashionably dismissed as more rhetoric than substance and subject to manipulation by agents pursuing their own agendas under cover of community consent In this important new volume development and other social policy scholars and practitioners seek to rebut this simplistic conclusion They show how participation can help produce genuine transformation for marginalized communities This volume is the first comprehensive attempt to evaluate the state of participatory approaches in the aftermath of the Tyranny critique It captures the recent convergence between participatory development and participatory governance It revisits the question of popular agency as well as spanning the range of institutional actors involved the state civil society and donor agencies The volume embeds participation within contemporary advances in development theory

Toward a Theory of Spacepower Charles D. Lutes, 2011-03-07 This volume is a product of the efforts of the Institute for National Strategic Studies Spacepower Theory Project Team which was tasked by the Department of Defense to create a theoretical framework for examining spacepower and its relationship to the achievement of national objectives The team was charged with considering the space domain in a broad and holistic way incorporating a wide range of perspectives from U S and international space actors engaged in scientific commercial intelligence and military enterprises This collection of papers commissioned by the team serves as a starting point for continued discourse on ways to extend

modify, refine and integrate a broad range of viewpoints about human initiated space activity its relationship to our globalized society and its economic political and security interactions It will equip practitioners scholars students and citizens with the historical background and conceptual framework to navigate through and assess the challenges and opportunities of an increasingly complex space environment *Power, Participation and Political Renewal* Marian Barnes, Janet Newman, Helen Sullivan, 2007-02-14 This book offers a critical examination of both the discourse and practice of participation in order to understand the significance of this explosion in participatory forums and the extent to which such practices represent a fundamental change in governance *M2 Models and Methodologies for Community Engagement* Reena Tiwari, Marina Lommerse, Dianne Smith, 2014-03-10 How can we engage communities What is empowerment To what extent should the project process be participatory How is an outsider insider relationship handled How do researchers negotiate with the hegemony of western cultural interpretations How are organizational and contextual influences handled in a project What leadership demands do such projects place on researchers What is capacity building What are creative leaders and creative communities How does the researcher journey from their studio to the situation *M2 Models and Methodologies for Community Engagement* discusses key theoretical constructs community engagement capacity building and community empowerment in order to demonstrate how theory and practice are relevant to the development of forms of community involvement The book maps the attributes of community based projects by moving beyond simply bringing people together from a variety of disciplines and taking an approach which is transdisciplinary and applicable across cultures and genres Here all people including the community are ongoing contributors and can freely move between their own and others discipline specific arenas *M2* differs from and extends on other works in this field of practice and research in that its transdisciplinary collaborative approach positions the community as a particular kind of discipline to create real change in diverse locations and fields of experience The book is in itself a model of community engagement as the researchers have formed a community of research and practice for change and have developed a transformative model for community engagement that is greater than the sum of its parts hence *M2* *M2* offers a valuable resource for students researchers academics practitioners policy developers and volunteers from the fields of architecture interior architecture health planning anthropology education home economics communication political studies and development studies *Spacepower for the 21st Century* United States. NASA Activities ,1976 Space and Security Peter L. Hays,2011-03-03 This thorough examination of the roots and motivations for U S national security space policy provides an essential foundation for

considering current space security issues During the Cold War era space was an important arena for the clashing superpowers yet the United States government chose not to station weapons there Today new space security dynamics are evolving that reflect the growing global focus upon the broad potential contributions of space capabilities to global prosperity and security Space and Security A Reference Handbook examines how the United States has developed and implemented policies designed to use space capabilities to enhance national security providing a clear and complete evaluation of the origins and motivations for U S national security space policies and activities The author explains the Eisenhower Administration s quest to develop high technology intelligence collection platforms to open up the closed Soviet state and why it focused on developing a legal regime to legitimize satellite overflight for the purposes of gathering intelligence

Space Warfare John J. Klein, 2024-09-18 This book examines military space strategy within the context of the land and naval strategies of the past This second edition has been updated and revised with several new chapters included The book examines competition and conflict in the space domain including the methods used and sound counterstrategies to thwart a competitor s efforts Contrary to many spacepower pundits the book explains that neither is the space domain inherently offense dominant nor is there a first mover advantage when incorporating a sound space strategy Offering new insights into the nature of strategic competition in space this second edition leans heavily on the British maritime experience and the work of Julian Corbett to provide a strategic framework for understanding competition crisis and conflict in the space domain It also includes important concepts from leading theorists and strategists both past and present to amplify concepts and provide additional insights into the functioning of space strategy The book provides a foundational framework by underscoring that space strategy is shaped by the fundamental nature of all warfare along with the universal principles of strategy and the essential unity of all strategic experience Warfare is warfare no matter the domain of operations and consequently policymakers and military leaders can look to historical experience and knowledge of past strategic frameworks to help gain insights into the functioning of space warfare This book will appeal to students of spacepower defense and strategic studies and International Relations

Conventional Versus Non-conventional Political Participation in Turkey Cristiano Bee, Ayhan Kaya, 2018-12-07 This book focuses on the emergence of different forms of civic and political activism in Turkey It has taken into account different components of active citizenship specifically looking at the development of civic and political forms of activism that bridge the realms of conventional and non conventional participation Focusing on the effects of the 2013 Gezi Park protests which originated in Istanbul but spread throughout the country this book reflects on how this experience might re orient current on civic and political participation in Turkey Specifically focusing on the main dynamics of non conventional forms of civic and political activism this volume attempts to understand the impact of non conventional forms of political participation on voting behaviour The internal domestic conditions of the country as well as its role in the international arena have dramatically changed since 2013 and are constantly evolving due to the domestic societal
