Oosterling, Ewa Plonowska Ziarek, 2012-07-10 Bringing together an international and interdisciplinary group of scholars *Intermedialities* Philosophy Arts Politics is a comprehensive collection devoted to the new field of research called intermedialities The concept of intermedialities stresses the necessity of situating philosophical and political debates on social relations in the divergent contexts of media theories avant garde artistic practices continental philosophy feminism and political theory The intermedial approach to social relations does not focus on the shared identity but instead on the epistemological ethical and political status of inter being in between At stake here are the political analyses of new modes of being in common that transcend national boundaries the critique of the new forms of domination that accompany them and the search for new emancipatory possibilities Opening a new approach to social relations intermedialities investigates not only engagements between already constituted positions but even more the interval antagonism and differences that form and decenter these positions Consequently in opposition to the resurgence of cultural and ethnic particularisms and to the leveling of difference produced by globalization the political and ethical analysis of the in between enables a conception of community based on difference exposure and interaction with others rather than on an identification with a shared identity Investigations of in betweenness both as medium specific and between heterogeneous sites of inquiry range here from philosophical conceptuality to artistic practices from the political circulation of money and power to the operation of new technologies They inevitably invoke the crucial role of embodiment in creative thought and collective acting As a mediating instance between the psyche and society matter and spirit nature and culture and biology and technology the body is another interval forming and informed by socio linguistic relations As these com Federal Trade Commission Decisions United States.
