## **Space Carnival:**

**Thinking Space** Mike Crang, Nigel Thrift, 2002-09-11 As theorists have begun using geographical concepts and metaphors to think about the complex and differentiated world it is important to reflect on their work and its impact on our thoughts on space This revealing book explores the work of a wide range of prolific social theorists Included contributions from an impressive range of renowned geographical writers each examine the work of one writer ranging from early this century to contemporary writers Among the writers discussed are Georg Simmel Mikhail Bakhtin Gilles Deleuze Helene Cixous Henri Lefebvre Jacques Lacan Pierre Bourdieu Michel Foucault and Franz Fanon Ideal for those interested in the spatial turn in social and cultural theory this fascinating book asks what role space plays in the work of such theorists what difference if any it makes to their concepts and what difference such an appreciation makes to the way we might think about space

**The Evolution of Space in Russian Literature** Katharina Hansen Löve, 2023-07-31 This book is concerned with the literary development of the narrative category of space in Russian literature from Romanticism until Modernism It consists of two parts The theoretical introduction renders a survey of some major 20th century theories on literary development in the tradition of Russian Formalism and Czech Structuralism A critical discussion is given of the cultural and stylistic typologies of the soviet scholar D Lichacev and the semiotician I Smirnov Furthermore the ideas on literary space as they were developed by two important representatives of the Moscow Tartu School of Semiotics Ju Lotman and V Toporov are described together with the method of literary analysis they offer The contents of the second part of the book are analyses of the structure of space in the following narrative works *Mcyri* by M Ju Lermontov *Nevskij prospekt* by N V Gogol *Oblomov* by I A Goncarov *V tolpe* by F Sologub and *Kotlovan* by A Platonov The analyses are accompanied by an interpretation of the story based on the spatial details in the text It appears that both continuity and change characterize the development of literary space This two fold nature of the evolutionary process comes to the fore through recurrence of spatial archetypes in all the periods under discussion and through ambivalence of meaning as a result of the semiotization of literary space in each literary work

**Public Space In Urban Asia** William Siew Wai Lim,2013-12-16 Over the past few decades rapid urbanisation has threatened to erode public space especially in emerging economies Market forces that prioritise profit generation are allowed to construct venues of consumption in its place Though their physical appearance may resemble traditional public space in reality they are greatly restrictive and diminished in affordability accessibility and social meaning It is in this context that William SW Lim chairman of Asian Urban Lab has brought together architects designers historians sociologists and urbanists from the region to discuss public space in selected Asian cities Part One contains essays from participants from Chongqing Hong Kong Jakarta Kuala Lumpur Singapore and Taipei and observations from commentators Several essays by William SW Lim on the subject round off the discussion in Part Two The thoughtful essays in Public Space in Urban Asia emphasise how engaging with the present actuality of cities and public awareness of
