Space Dogs:

Space Dogs Justin Ball, Evan Croker, 2009-02-19 It all begins with Laika the first dog in space Launched into orbit by the Soviet Union Laika's craft is accidentally sucked through a wormhole and onto the Planet Gersbach inhabited by highly intelligent but very tiny people When a mysterious disturbance of gravity D O G threatens to destroy Gersbach Commanders Belka and Strelka are just the men to seek and destroy the source of D O G Their vehicle A highly sophisticated craft that looks exactly like a terrier Blending in with the locals on earth should be no problem And with the help of the Buckleys a lovable Earth family with problems of their own the mission to save their planet may still prevail *Space Dogs* Martin Parr, 2019-06-11 This fascinating book tells the story of the soviet space dogs illustrated with legendary photographer Martin Parr's vintage space dog memorabilia In the 1950s the space race between the USA and the USSR was well and truly on and was for both a matter of pride and propaganda But before man ventured into the cosmos his four legged friends would pave the way for space exploration The first canine cosmonaut was Laika meaning barker The little stray could never have anticipated that she would one day float 200 miles above the Moscow streets She would be canonized as a proletarian hero appearing on stamps postcards and souvenirs Her successors were Belka and Strelka the first dogs to successfully return safely to Earth and with them the cult of the space dog was born In a regime that eschewed celebrating individual achievement the space dogs became Soviet superstars with a vast array of merchandise books and films in their honor A must for read for fans of Soviet Space Dogs by Olesya Turkina and Designed in the USSR 1950 1989 by Moscow Design Museum Space Dogs Chris Dubbs, 2003 Back when scientists knew nothing about space travel back when rockets were new a group of Russian cosmonauts rode rockets to the edge of space and into earth orbit These pioneer space travelers were dogs space dogs of the Soviet space program For 15 years space dogs occupied the world stage blazing trails as the first astronauts Their flights taught scientists how living beings reacted to rocket travel and tested the equipment that would be used for human space flight The age of the space dog extended from the first launch in 1951 until the final record breaking dog flight in 1966 Some dogs won world wide fame Most of them however worked and died in obscurity They were all pioneers of space travel And no one has ever told their story Until now Space Dogs dramatizes the training of the dogs the harrowing early flights the tragic accidents the fame that came to the program after the launch of Laika in Sputnik 2 and the final flights leading up to the first manned flight Space Dogs includes never before published photos from the archives of Novosti the Russian News Agency **Space Dogs on Planet K-9** Joan Holub, 1998 Clark goes to a planet where dogs are in charge of people **Dogs with Careers: Ten Happy-Ending Stories of Purpose and Passion** Anne Hart, 2007-10-18 They're library dogs Charlie They're all dog faces laughed the space station manager as he waved goodnight to his security dogs and locked the gates They're not just dogs with jobs but detective canines with investigative sniffing careers at the space station and in outer space At night the space station's library is eerie dim lighted and in places simply velvet shadow

dark except for the human s dogs They mingle with the shape shifting immortal space dogs that prowl the space station library s corridors and live among the rows of computers Career dogs just want to have fun traveling onboard the space shuttles as working companion dogs never locked behind gates These dogs don t bite They are dogs with purpose and passion This is a team of working dogs that can shape shift from dog to human and human to dog live outside of time And in this century they work for a mother and daughter astronaut team Which dog sprayed wolf graffiti on the space shuttle A ground controller dog a mellow Chocolate Labrador retriever studied the photo But how did it get there Maybe it s a paste on tattoo that the astronauts put on board to celebrate all those years here the pack leader howled in a licorice sweet yelp The omega canine hurried to switch off another computer Retriever formerly a library greeter dog but now the ground controller s pet sniffed with curiosity He stretched and curled up on top of the filing cabinet **Laika's Window** Kurt

Caswell,2018-09-18 Laika began her life as a stray dog on the streets of Moscow and died in 1957 aboard the Soviet satellite Sputnik II Initially the USSR reported that Laika the first animal to orbit the earth had survived in space for seven days providing valuable data that would make future manned space flight possible People believed that Laika died a painless death as her oxygen ran out Only in recent decades has the real story become public Laika died after only a few hours in orbit when her capsule overheated Laika s Window positions Laika as a long overdue hero for leading the way to human space exploration Kurt Caswell examines Laika s life and death and the speculation surrounding both Profiling the scientists behind Sputnik II he studies the political climate driven by the Cold War and the Space Race that expedited the satellite s development Through this intimate portrait of Laika we begin to understand what the dog experienced in the days and hours before the launch what she likely experienced during her last moments and what her flight means to history and to humanity While a few of the other space dog flights rival Laika s in endurance and technological advancements Caswell argues that Laika s flight serves as a tipping point in space exploration beyond which the dream of exploring nearby and distant planets opened into a kind of fever from which humanity has never recovered Examining the depth of human empathy what we are willing to risk and sacrifice in the name of scientific achievement and our exploration of the cosmos and how politics and marketing can influence it Laika s Window is also about our search to overcome loneliness and the role animals play in our drive to look far beyond the earth for answers *Space Dog* Mini Grey,2015-10-27 Meet Space Dog Astrocat and
