Scientific and Technical Aerospace Reports ,1973 **Air & Space** ,1980 **A Tribble's Guide to Space** Alan C. Tribble,2002 Space the final frontier It s as little as fifty miles away and yet it is considered one of the most dangerous and remote of places Popular television shows such as Star Trek and movies such as Apollo 13 and October Sky have fired the imaginations of would be explorers Alan Tribble has worked on the design and development of dozens of spacecraft including the Space Shuttle and the International Space Station A Tribble s Guide to Space is a how to book that is firmly grounded in the realities of current state of the art space engineering while tapping into the power of imagination that drives us to explore Alan Tribble offers a delightful guide to the nuts and bolts of space exploration from how to get there to how to phone home and how to survive the harsh environment of space Using examples from famous space missions both factual and fictional Tribble tackles fascinating real world problems encountered in space exploration Why do submarine hatches open inward and spacecraft hatches open outward What do curveballs and satellites have in common Why did Scotty the chief engineer of the fictional USS Enterprise always need more power Why did the fire that destroyed Apollo I on the launch pad

burn so furiously that no one could react fast enough to save the lives of the crew In answering these questions Tribble examines getting to space from the physics of motion to the practical implications of Einstein's theory of relativity He explores the basics of spaceships and starships from power usage to navigation all from the viewpoint of a spacecraft designer This book describes rocket science and more in a manner that captures the common excitement shared by anyone with an interest in space exploration Armchair astronauts engineers who work in a space company and anyone who has looked up at the sky and wondered how we will get there will find reading this book a wonderful and enlightening experience

STAR, 1973 **Space Politics and Policy** E. Sadeh, 2006-04-11 Space Politics and Policy An Evolutionary Perspective provides a comprehensive survey of Space Policy This book is organized around two themes Space Policy is evolutionary in that it has responded to dramatic political events such as the launching of Sputnik and the Cold War and has undergone dynamic and evolutionary policy changes over the course of the space age Space Policy is an integral part of and interacts with public policy processes in the United States and abroad The book analyzes Space Policy at several levels including historical context political actors and institutions political processes and policy outcomes It examines the symbiotic relationships between policy technology and science provides a review and synthesis of the existing body of knowledge in Space Policy and identifies Space Policy trends and developments from the beginnings of the space age through the current era of the twenty first century **Space Craze** Margaret A. Kevin Cook, 2021-06-08 Winner of the American Astronautical Society's 2021 Eugene M. Emme Award The untold story of a national trauma NASA's Challenger explosion and what really happened to America's Teacher in Space illuminating the tragic cost of humanity setting its sight on the stars You've seen the pictures You know what happened Or do you On January 28 1986 NASA's space shuttle Challenger exploded after blasting off from Cape Canaveral Christa McAuliffe America's Teacher in Space was instantly killed along with the other six members of the mission At least that's what most of us remember Kevin Cook tells us what really happened on that ill-fated unforgettable day He traces the pressures leading from NASA to the White House that triggered the fatal order to launch on an ice-cold Florida morning Cook takes readers inside the shuttle for the agonizing minutes after the explosion which the astronauts did indeed survive He uncovers the errors and corner-cutting that led an overconfident space agency to launch a crew that had no chance to escape But this is more than a corrective to a now dimming memory Centering on McAuliffe a charmingly down-to-earth civilian on the cusp of history *The Burning Blue* animates a colorful cast of characters a pair of red-hot flyers at the shuttle's controls the second female and first Jewish astronaut the second Black astronaut and the first Asian American and Buddhist in space Drawing vivid portraits of Christa and the astronauts Cook makes readers forget the fate they're hurtling toward With drama immediacy and shocking surprises he reveals the human price the Challenger crew and America paid for politics capital P Progress and the national dream of reaching for the stars

The Time It Takes to Fall Margaret Lazarus Dean, 2007-02-06 It is the early 1980s and America is in love with space Growing up in the shadow of Cape Canaveral young Dolores Gray has it particularly bad she dreams of becoming an astronaut At school Dolores finds herself caught between her desire for popularity and her secret friendship with the smartest and most unpopular boy in her class whose father is NASA's Director of Launch Safety At home discord begins to grow between her parents when her father's job as a NASA technician is threatened Looking for escape Dolores loses herself in her scrapbook where she files away newspaper articles about the astronauts and the shuttles weather reports on launch scrubs and stories about her idol Judith Resnik Then on the morning of January 28 1986 seventy-three seconds after liftoff the space shuttle Challenger explodes killing all seven astronauts on board including Judith Resnik It is a moment that shakes America to its core and nowhere is it more deeply felt than in central Florida Dolores becomes determined to reconstruct what went wrong both in her parent's marriage and at NASA in the hope that she can save her father's job and keep her family together *The Time It Takes to Fall* is

a coming of age novel that deftly weaves the story of one family's drama into the larger picture of a touchstone event in American history. It is at once an intimate look at a young girl's loss of innocence and a portrait of America's loss of innocence, the end of an era that romanticized manned space flight and would never be the same again.
