up on the missions covered in this author's earlier title *In the Footsteps of Columbus* 2016 this book highlights European missions from the 2013 Volare mission of Luca Parmitano to his 2019 Beyond mission and includes first flights for Alexander Gerst Samantha Cristoforetti Andreas Mogensen Tim Peake and Thomas Pesquet The International Space Station John E. Catchpole, 2008-09-03 A comprehensive highly readable account of complex technical political and human endeavor and a worthy successor to *Creating the International Space Station* Springer Praxis January 2002 by David Harland and John Catchpole This volume details for the first time the construction and occupation of the International Space Station from 2002 through to 2008 when it should reach American Core Complete **The Continuing Story of The International Space Station** Peter Bond, 2002-05 In this fascinating and well written text Peter Bond describes the development and evolution of space stations Particular emphasis is placed on the International Space Station beginning with the revolution that began in 1970 when Salyut 1 the world's first space station was sent into orbit by the Soviet Union Defeated in the race to the Moon the Soviets redirected their efforts towards the conquest of near Earth space In the next three decades their increasingly large and sophisticated structures rewrote the history books as cosmonauts continued to push back all space endurance records In clear and concise language the book explains how the human exploitation of low Earth orbit is about to change

The Greatest Adventure Colin Burgess, 2021-08-12 *The Greatest Adventure* explores the past present and future of the space race The space race was perhaps the greatest technological contest of the twentieth century It was a thrilling era of innovation discovery and exploration as astronauts and cosmonauts were launched on space missions of increasing length complexity and danger *The Greatest Adventure* traces the events of this extraordinary period describing the initial string of Soviet achievements the first satellite in orbit the first animal man and woman in space the first spacewalk as well as the ultimate US victory in the race to land on the moon The book then takes the reader on a journey through the following decades of space exploration to the present time detailing the many successes tragedies risks and rewards of space exploration

NASA Activities , 1982 *The International Space Station* Robert C. Dempsey, 2017 Looks at the operations of the International Space Station from the perspective of the Houston flight control team under the leadership of NASA's flight directors who authored the book The book provides insight into the vast amount of time and energy that these teams devote to the development planning and integration of a mission before it is executed The passion and attention to detail of the flight control team members who are always ready to step up when things do not go well is a hallmark of NASA human spaceflight operations With tremendous support from the ISS program office and engineering community the flight control team has made the International Space Station and the programs before it a success **Departments of Veterans Affairs**
