Dutour, 2022 **Space Truckers** B.C. Dutour, 2019-12-26 It's seven thousand years in the future and a galactic war has made hauling freight across the cosmic highways difficult Space pirates and the cosmic cops are also a constant source of frustration for the many Space Truckers working in the galaxy But for one Captain and his crew of the starfreighter known as the Supernova the difficult time has become a challenge **Science Fiction Double Feature** J. P. Telotte, Gerald Duchovnay, 2015-07-27 Critical discussion of cult cinema has often noted its tendency to

straddle or ignore boundaries to pull together different sets of conventions narrative formulas or character types for the almost surreal pleasure to be found in their sudden juxtapositions or narrative combination With its own boundary blurring nature as both science and fiction reality and fantasy science fiction has played a key role in such cinematic cult formation This volume examines that largely unexplored relationship looking at how the sf film s own double nature neatly matches up with a persistent double vision common to the cult film It does so by bringing together an international array of scholars to address key questions about the intersections of sf and cult cinema how different genre elements directors and stars contribute to cult formation what role fan activities including con participation play in cult development and how the occulted or bad sf cult film works The volume pursues these questions by addressing a variety of such sf cult works including Robot Monster 1953 Zardoz 1974 A Boy and His Dog 1975 Tetsuo The Iron Man 1989 Space Truckers 1996 Ghost in the Shell 2 2004 and Iron Sky 2012 What these essays afford is a revealing vision of both the sf aspects of much cult film activity and the cultish aspects of the whole sf genre

Lulu on the Bridge Paul Auster, 1998-09-19 The insider s guide and perfect companion to the new film starring Harvey Keitel Mira Sorvino and Vanessa Redgrave the romantic story of two lonely mismatched strangers transformed into soul mates by the uncanny power of a phosphorescent stone 40 photos

Science Fiction Film Directors, 1895-1998 Dennis Fischer, 2011-12-14 This enormous and exhaustive reference book has entries on every major and minor director of science fiction films from the inception of cinema circa 1895 through 1998 For each director there is a complete filmography including television work a career summary a critical assessment and behind the scenes production information Seventy nine directors are covered in especially lengthy entries and a short history of the science fiction film genre is also included

The Columbia Companion to American History on Film Peter C. Rollins, 2004-03-24 American history has always been an irresistible source of inspiration for filmmakers and today for good or ill most Americans sense of the past likely comes more from Hollywood than from the works of historians In important films such as The Birth of a Nation 1915 Roots 1977 Apocalypse Now 1979 and Saving Private Ryan 1998 how much is entertainment and how much is rooted in historical fact In The Columbia Companion to American History on Film more than seventy scholars consider the gap between history and Hollywood They examine how filmmakers have presented and interpreted the most important events topics eras and figures in the American past often comparing the film versions of events with the interpretations of the best historians who have explored the topic Divided into eight broad categories Eras Wars and Other Major Events Notable People Groups Institutions and Movements Places Themes and Topics and Myths and Heroes the volume features extensive cross references a filmography of discussed and relevant films notes and a bibliography of selected historical works on each subject The Columbia Companion to American History on Film is also an important resource for teachers with extensive information for research or for course development appropriate for both high school and college students Though each essay reflects the unique body of film and print works covering the subject at hand

every essay addresses several fundamental questions What are the key films on this topic What sources did the filmmaker use and how did the film deviate or remain true to its sources How have film interpretations of a particular historical topic changed and what sorts of factors technological social political historiographical have affected their evolution Have filmmakers altered the historical record with a view to enhancing drama or to enhance the truth of their putative message

Historical Dictionary of Science Fiction Cinema M. Keith Booker, 2020-06-15 In the years since Georges Méliès's *Le voyage dans la lune* *A Trip to the Moon* was released in 1902 more than 1000 science fiction films have been made by filmmakers around the world The versatility of science fiction cinema has allowed it to expand into a variety of different markets appealing to age groups from small children to adults The technical advances in filmmaking technology have enabled a new sophistication in visual effects This second edition of *Historical Dictionary of Science Fiction Cinema* contains a chronology an introduction and an extensive bibliography The dictionary section has over 400 cross referenced entries on important personalities films companies techniques themes and subgenres This book is an excellent resource for students researchers and anyone wanting to know more about science fiction cinema

Stuart Gordon Michael Doyle, 2022-02-04 Animated by a singularly subversive spirit the fiendishly intelligent works of Stuart Gordon 1947-2020 are distinguished by their arrant boldness and scab picking wit Provocative gems such as *Re Animator* *From Beyond* *Dolls* *The Pit* and *the Pendulum* and *Dagon* consolidated his fearsome reputation as one of the masters of the contemporary horror film bringing an unfamiliar archness political complexity and critical respect to a genre so often bereft of these virtues A versatile filmmaker one who resolutely refused to mellow with age Gordon proved equally adept at crafting pointed science fiction *Robot Jox* *Fortress* *Space Truckers* sweet tempered fantasy *The Wonderful Ice Cream Suit* and nihilistic thrillers *King of the Ants* *Edmond Stuck* customarily scrubbing the sharply drawn lines between exploitation and arthouse cinema The first collection of interviews ever to be published on the director *Stuart Gordon Interviews* contains thirty six articles spanning a period of fifty years Bountiful in anecdote and information these candid conversations chronicle the trajectory of a fascinating career one that courted controversy from its very beginning Among the topics Gordon discusses are his youth and early influences his founding of Chicago's legendary *Organic Theatre* where he collaborated with such luminaries as Ray Bradbury Kurt Vonnegut and David Mamet and his transition into filmmaking where he created a body of work that injected fresh blood into several ailing staples of American cinema He also reveals details of his working methods his steadfast relationships with frequent collaborators his great love for the works of Lovecraft and Poe and how horror stories can masquerade as sociopolitical commentaries

Alternate Americas M. Keith Booker, 2006-02-28 For more than 50 years science fiction films have been among the most important and successful products of American cinema and are worthy of study for that reason alone On a deeper level the genre has reflected important themes concerns and developments in American society so that a history of science fiction film also serves as a cultural history of America over the past half century M Keith Booker has

selected fifteen of the most successful and innovative science fiction films of all time and examined each of them at length from cultural technical and cinematic perspectives to see where they came from and what they meant for the future of cinema and for America at large From Invasion of the Body Snatchers to Star Wars from Blade Runner to The Matrix these landmark films have expressed our fears and dreams our abilities and our deficiencies In this deep seeking investigation we can all find something of ourselves that we recognize as well as something that we ve never recognized before The focus on a fairly small number of landmark films allows detailed attention to genuinely original movies including Forbidden Planet Invasion of the Body Snatchers 2001 A Space Odyssey Planet of the Apes Star Wars Close Encounters of the Third Kind Alien E T the Extra Terrestrial Blade Runner The Terminator Robocop The Abyss Independence Day and The Matrix This book is ideal for general readers interested in science fiction and film Indie Science Fiction Cinema Today Kathleen Fernandez-Vander Kaay,Chris Vander Kaay,2018-02-13 Much of 20th century science fiction foretold technological and social developments beyond the year 2000 Since then a key theme has been what happens when the future no one anticipated arrives faster than anyone expected Focusing on 21st century independent science fiction films the author describes a seismic shift in subject matter as society moves into a new technological age Independent films since the millennium are more daring incisive and even plausible in their depiction of possible futures than blockbuster films of the same period Twenty one chapters break down today s subgenres featuring interviews with the filmmakers who created them Ultra 85 Logic,2024-09-17 From 1 New York Times bestselling author Logic comes the highly anticipated second novel set in the far future as two friends uncover if the utopian planet Paradise lives up to its name In the year 2115 when the Earth is no longer inhabitable the remainder of humanity lives in Babel a giant space station Two pilots Quentin and Kai must find the planet Paradise where only the most promising citizens are allowed to live On their journey Quentin and Kai encounter Quentin s estranged father who left Babel for Paradise when Quentin was a child and they discover just how different Paradise is from what they imagined and how they must change it for the better The bestselling author of Supermarket and platinum selling hip hop artist Logic returns to fiction with this gripping and propulsive sci fi novel Make It So Nathan Shedroff,Christopher Noessel,2012-09-17 Many designers enjoy the interfaces seen in science fiction films and television shows Freed from the rigorous constraints of designing for real users sci fi production designers develop blue sky interfaces that are inspiring humorous and even instructive By carefully studying these outsider user interfaces designers can derive lessons that make their real world designs more cutting edge and successful **Orbital 2100** Paul Elliott,2016-09-25 Orbital 2100 is a science fiction setting for Cepheus Engine and other Classic 2D6 SF RPGs It has realistic TL 9 feel that is set within our own solar system The Earth is locked in a Cold War with the people of Luna Both face off 400 000 km apart threatening mutual annihilation whilst they compete to colonise the moons of Jupiter and Saturn Older colonies such as Mars and Mercury are independent and caught up in this struggle for solar system supremacy Spacecraft use nuclear thermal
