Arthur Morrah, Henry Gilbert, Basil Stewart, Mark Meredith, 1913 **The Novel of a Novel** Ervin Sinkó, 2018-03-20 One of the first critiques of Stalinism from within the communist movement The Novel of a Novel is a memoir in the form of a journal It was first published in Yugoslavia in 1955 based on the journal letters clippings and other materials kept by the Hungarian Jewish novelist Ervin Sink during his two years in Moscow between 1935 and 1937 years in which the Soviet cultural policy of the Popular Front was giving way to the Great Terror Sink and his wife travelled to the home of socialism with great hopes He had just completed his novel Optimists on the Hungarian Revolutions of 1918-1919 but could not find a

publisher for it in Depression era Paris He went to Moscow at the urging of Romain Rolland and at the invitation of VOKS both promoters of the Soviet Union as the center of a new civilization Sink's optimism however soon gave way to grave doubts Fearful publishers kept him in limbo and starving despite the support that Sink had from B la Kun and Alfred Kurella of the Comintern Sink deplored the over centralization of cultural policy attacks against the avant guard the forcing of Socialist Realism the cult of Stalin the reverses on abortion the development of a privileged class of managers and Stakhanovist workers and finally the advent of the show trials He tried to understand these developments through conversations with a great many people of the German and Hungarian communist diasporas the visiting French Left and local Russians among whom he was allowed to live In the second year of his stay the Sink's shared an apartment with the writer Isaac Babel and his wife Pirizhkova The story of the tragic misunderstanding that ensued between the two men reveals much about Babel's difficult situation and about the limits of Sink's understanding of the Terror The Sink's were fortunate to be expelled from the country But even back in France Sink was prevented by his fear of the fascist threat from openly criticizing the Soviet Union It was a miracle that the couple survived both the terror and the Holocaust *A Novel Hope?* Bernard Marcus Woodley, 2025-06-13 Christians today are often struggling with many of the same theological problems that Victorians were especially regarding hell and the God of love One answer to these questions found in nineteenth century Britain was the seemingly surprising reappearance of the early Christian eschatological theory of universalism the belief that all of humanity will be saved Even though this re emergence has already been acknowledged by scholars of Victorianism its extent has been widely underestimated This book then aims to describe why universalism became an increasingly viable option in a time of growing religious doubt and especially how it established itself in and with the help of the century's fiction not only in the more overtly universalist novels of Gaskell and Anne Bronte but also across works ranging from Dickens Gissing Linton and Oliphant all the way to Ward and Wells **Crime Scenes** , 2021-11-01 The essays in this collection are based on papers given at a conference on detective fiction in European culture held at the University of Exeter in September 1997 The range of topics covered is designed to show not only the presence and variety of narratives of detection across different European countries and their different media although there is a predictable emphasis on the novel It also illustrates the fertility of the genre its openness to a spectrum of readings with different emphases formal as well as thematic Approaches to detective fiction have often tended to confine them selves to symptomatic interpretation where details of the fictional world represented are used to diagnose a specific set of social preoccupations and priorities operative at the time of writing Such approaches can yield valuable insights Nonetheless there is a risk of limiting the value of the genre as a whole solely to its role as a mirror held up to society In this perspective issues of structure and style are sidelined or if addressed are praised to the extent that they approach invisibility concision sparseness realism are the qualities singled out for praise The genre also gives much scope for formal innovation and indeed has often attracted already established mainstream

writers and filmmakers for just this reason The eclectic diversity of the detective narratives considered in this volume reveal the malleability of the traditional constraints of the genre The essays bear rich testimony to the value of considering the interplay of thematic and structural issues even in the most apparently unselfconscious and popular or populist forms of narrative The patterns of reassurance the triumph of intellect and the ordered rational world of old are now challenged by the need to foreground the problems ambiguities and uncertainties of the self and of society The plurality of meanings and the antithetical imperatives explored in these detective narratives confirm that the most recent forms of the genre are not mere palimpsests of their golden age precursors The subversion of traditional expectations and the implementation of diverse stylistic devices take the genre beyond mere homage and pastiche The role of the reader spectator and critic in conferring meaning is a crucial one

Contemporary Fiction and the Uses of Theory M. Greaney, 2006-08-25 This topical study examines the novelizations of radical literary theory in the work of A S Byatt Angela Carter Umberto Eco John Fowles Richard Powers and many other leading novelists It offers a comprehensive analysis of the post theoretical novel and traces an alternative history of the theory revolution in recent literary fiction

Fables of the Novel Warren F. Motte, 2003 Readers of the contemporary novel in France are witnessing the most astonishing reinvigoration of narrative prose since the New Novel of the 1950s In the last few years bold innovative and richly compelling novels have been written by a variety of young writers These texts question traditional strategies of character plot theme and message and they demand new strategies of reading too Choosing ten novels published during the 1990s as examples of that trend Warren Motte traces the resurgence of the novel in France He argues that each of the novels under consideration here quite apart from what other stories it tells presents a fable of the novel that deals with the genre's possibilities limitations and future as a cultural form
