**A History of Spanish Institutions** Thomas Baumert, Carmen Paradinas Márquez, Andrés Sánchez Padilla, 2020-07-03 Institutions and their history matter and not only because they are crucial elements in explaining a country's socio political evolution but also as determinant factors of economic development wealth and prosperity Usually the history of institutions has been taught the point of view of legal science an approach that made the topic little attractive and often difficult to assimilate for students of other fields such as Economics Business Studies Marketing and others And precisely these groups are the ones that this book addresses It presents in a rigorous yet entertaining way the evolution of Spanish institutions the first human settlements in the peninsula to date and does so explaining the main points in a succinct but well contextualised form For this purpose each chapter combines the exposition of a given period's historic facts with the description of its most characteristic institutions Each chapter then complements its content by explaining the history of one notable symbol of Spain its flag the different coat of arms feasts orders etcetera This modular structure together with the presentation of the information according to its degree of relevance allows readers depending on their specific interests and needs to adapt and combine the texts that compose this book as to optimise the results of their study The modern didactic approach followed by the authors their understanding of institutions in a broader sense than usual the extraordinary work of synthesis has produced a basic tool for the study of this subject one that will give students fruitful results even if they have very heterogeneous backgrounds in Spanish history Esther Valbuena

Berosus and Genesis, Manetho and Exodus Russell Gmirkin, 2006-05-15 Berossus and Genesis Manetho and Exodus proposes a provocative new theory regarding the date and circumstances of the composition of the Pentateuch Gmirkin argues that the Hebrew Pentateuch was composed in its entirety about 273-272 BCE by Jewish scholars at Alexandria that later traditions

credited with the Septuagint translation of the Pentateuch into Greek The primary evidence is literary dependence of Gen 11 on Berossus *Babyloniaca* 278 BCE and of the Exodus story on Manetho's *Aegyptiaca* c 285-280 BCE and the geo-political data contained in the Table of Nations A number of indications point to a provenance of Alexandria Egypt for at least some portions of the Pentateuch That the Pentateuch drawing on literary sources found at the Great Library of Alexandria was composed at almost the same date as the Septuagint translation provides compelling evidence for some level of communication and collaboration between the authors of the Pentateuch and the Septuagint scholars at Alexandria's Museum The late date of the Pentateuch as demonstrated by literary dependence on Berossus and Manetho has two important consequences the definitive overthrow of the chronological framework of the Documentary Hypothesis and a late 3rd century BCE date for major portions of the Hebrew Bible which show literary dependence on the Pentateuch
