**Thomas Eakins and the Cultures of Modernity** Alan C. Braddock, 2009-03-31 Thomas Eakins and the Cultures of Modernity is the first book to situate Philadelphia's greatest realist painter in relation to the historical discourse of cultural difference. In this study, Alan C. Braddock reveals that modern anthropological perceptions of culture, which many art historians attribute to Eakins, did not become current until after the artist's death in 1916. Braddock finds in the work of Thomas Eakins a lifelong engagement with aesthetic and social currents that extended well beyond his native city of Philadelphia, indicating the persistence of a worldly sensibility long after he had concluded his formative studies in Europe during the 1860s. Braddock shows how Eakins developed a localized cosmopolitanism all his own, based in Philadelphia but tapped into a global field of visual production. Jacket

Archer M. Huntington Patricia Fernández Lorenzo, 2024-12-20 At the turn of the twentieth century, New York City philanthropist, arts patron, and scholar Archer M. Huntington became the foremost collector and face of Spanish art in the United States with the founding of the Hispanic Society of America. This organization, which served as a bridge between artists in Spain and wealthy patrons in the States, was the culmination of a lifetime of scholarship and passion for Spanish culture. For Huntington, one he would grapple with throughout his public and intellectual life. In Archer M. Huntington: Founder of the Hispanic Society of America, Patricia Fernández Lorenzo offers, for the first time in English, a complete biography of Huntington, tracing his enthusiasm for Spain and the arts from his childhood to his marriage to sculptor Anna Hyatt and his crisis of conscience in the wake of the violence of the Spanish Civil War. Drawing heavily from Archer's correspondence and from Anna Hyatt Huntington's papers housed at Syracuse University, Fernández Lorenzo offers a full, deeply human portrait of one of the great patrons of Spanish art, giving a comprehensive look at Huntington's role in defining Hispanicism in the United States.

**Whose Spain?** Samuel Llano, 2013 In this book, Llano analyzes the socio-political discourses underpinning critical and musicological descriptions of Spanish music at the beginning of the nineteenth century and the discourse's connection with French politics and culture of the era. Llano studies operas and other musical works for the stage as privileged sites for the production of Spanish musical identities and ultimately demonstrates that definitions of French and Spanish music during this period were to some extent interdependent.

**The Deaths of Henri Regnault** Marc Gotlieb, 2016-06-09 This is the first book in many years about the nineteenth-century French artist Henri Regnault. Controversial and celebrated in his day, Regnault did not live long. He died at the age of 28 in the Franco-Prussian War, becoming a hero of the French nation. What sets him apart from the more conventional members of the French academy is his great skill in painting Oriental exotic subjects and doing so in a highly materialistic vein, designed to produce through elements like gold paint, garish colors, and odd details, blatant amusement for the eye. In a word, his images are both delightful and awful. Gotlieb's book combines biography, history, and

comparative readings of works by Regnault with those by other French artists such as Delacroix Fromentin and Renoir It also importantly explores the afterlives of Regnault as a cultural and artistic figure as well as his diminishment during the rise of modernism and his eventual demise in the history of art **Spain, Espagne, Spanien.
