## **Spain World In View:**

*The Spanish Missionary Heritage of the United States* United States. National Park Service, 1993

**Territories of the Visual in Spain and Spanish America** Jo Evans, Julia Biggane, Nuria Triana-Toribio, 2017-10-02 While studying the theory and contemporary impact of embodied viewing this book celebrates the emergence and development of Visual Studies as a major subject of research and teaching in the field of Hispanic Studies within the UK over the last thirty years By exploring current routes of investigation as well as analysing future pathways for study in the field seven highly distinguished Spanish and Latin American scholars examine their own entry into Visual Studies and discuss the major trends and changes which occurred in the field as matters of the visual gradually became embedded in higher education curricula and research trajectories Each scholar also lays out a current research project or interest concerning Spain or Latin America within the visual field The projects variously explore different media including film sculpture photography dance and performance art spread across a wide array of geographical locales including Mexico Cuba mainland Spain and the Canary Islands Offering a map of current and future research in the field this book provides the first history of visual studies within UK Hispanism It will be of lasting value to a wide range of scholars and advanced students of Spanish and Latin American cultural visual and film studies This book was originally published as a special issue of the Bulletin of Spanish Studies

**Spain is Different?** Dale Knickerbocker, 2021-12-15 Employs a variety of theoretical approaches including critical and genre theories archetypal criticism and biblical studies Analyses an important literary trend apocalyptic fiction around the end of the second millennium Contextualises and explains the Spanish novels historically and compares and contrasts them with other global apocalyptic fictions Supports its observations with close reading of the texts

**The Other's War** Tarik Kochi, 2009-05-07 The Other's War is an intervention into a set of contemporary moral political and legal debates over the legitimacy of war and terrorism within the context of the so called global War on Terror Tarik Kochi considers how despite the variety of its approaches just war theory classical realist post Kantian poststructuralist contemporary ethical political and legal philosophy still struggles to produce a convincing account of war Focusing on the philosophical problem of the rightness of war The Other's War responds to this lack Through a discussion of a number of key Western intellectual traditions Kochi demonstrates how often conflicting and contradictory conceptions of war's rightness have developed in modernity He shows how a process of ordering violence around different notions of right has constantly redrawn the boundaries of what constitutes legitimate violence Such a process has consequences for anyone who claims to be fighting a just war Building upon this account and drawing upon the philosophical heritage of G W F Hegel and Ernst Bloch The Other's War proposes a new understanding of war not just as a social condition characterised by violent conflict and struggles for power but as the attempt of individuals and groups to realise their normative claims through violence Kochi argues that both of these aspects of war are an expression of the metaphysics of human subjectivity War begins with and is the radical exaggeration of a

fundamental activity of human subjectivity in which the subject constitutes its normative and material identity realising and positing itself through acts that involve negation and violence By drawing consideration of the problem of war back to the level of a philosophical examination of the metaphysics of human subjectivity *The Other's War* develops a novel theory of war that helps us to better understand the nature of contemporary conflict as a process of recognition From this perspective

judgment it is concluded needs to be constantly guided by the effort to recognise the ethics of the other's war **Foreign**

**Policy Motivation** Richard W. Cottam, 1977-01-15 Foreign policy motivation is a complex mix reflecting the fears and aspirations of public interest groups bureaucratic sets and important individuals International conflict cannot be resolved without resolving how foreign policy is motivated This book presents a conceptual framework for identifying and weighing foreign policy motives that shape direct and alter foreign policy Contemporary U.S. Latinx Literature in Spanish Amrita

Das, Kathryn Quinn-Sánchez, Michele Shaul, 2018-11-19 U S Latinx Literature in Spanish remains an understudied field despite its large and vibrant corpus This is partly due to the erroneous impression that this literature is only written in English and partly due to traditional educational programs focusing on English texts to include non Spanish speakers and non Latinx students This has created a vacuum in research about Latinx literary production in Spanish leaving the contemporary field wide open for exploration This volume fills this space by bringing contemporary U S Latinx literature in Spanish to the forefront of the field The essays focus on literary production post 1960 and examine texts by authors from different backgrounds writing from the U S providing readers with an opportunity to explore new texts in Spanish within U S Latinx literature and a departure point for starting a meaningful critical discourse about what it means to write and publish in Spanish in the U S Through exploring literary production in a language that is both emotionally and politically charged for authors the academia and the U S this book challenges and enhances our understanding of the term Americas **Raising**

**Heirs to the Throne in Nineteenth-Century Spain** Richard Meyer Forsting, 2018-05-31 This book analyses royal education in nineteenth century constitutional Spain Its main subjects are Isabel II 1830 1904 Alfonso XII 1857 1885 and Alfonso XIII 1886 1941 during their time as monarchs in waiting Their upbringing was considered an opportunity to shape the future of Spain reflected the political struggles that emerged during the construction of a liberal state and allowed for the modernisation of the monarchy The education of heirs to the throne was taken seriously by contemporaries and assumed wider political social and cultural significance This volume is structured around three powerful groups which showed an active interest influenced and significantly shaped royal education the court the military and the public It throws new light on the position of the Spanish monarchy in the constitutional state its ability to adapt to social political and cultural change and its varied sources of legitimacy power and attraction Fire & Blood T. R. Fehrenbach, 2014-04-01 Mexican history comes to life in this fascinating work by the author of *Lone Star A History of Texas and the Texans* The *Christian Science Monitor* *Fire of the Olmec Maya Toltec and Aztec dynasties* which exercised their sophisticated powers through bureaucracy and religion

of the Spanish conquistadors whose arrival heralded death disease and a new vision of continental domination Author T R Fehrenbach connects these threads with the story of modern day independent Mexico a proud nation struggling to balance its traditions against opportunities that often seem tantalizingly out of reach From the Mesoamerican empires to the Spanish Conquest and the Mexican Revolution peopled by the legendary personalities of Mexican history Montezuma Cort s Santa Anna Ju rez Maximilian D az Pancho Villa and Zapata Fire Blood is a deftly organized and well researched work of popular history Library Journal

**The Animals of Spain** Abel Alves,2011-07-14 Writings from 1492 to 1826 reveal that the history of animals in the Spanish empire transcended the bullfight The early modern Spanish empire was shaped by its animal actors and authors from Cervantes to the local officials who wrote the relaciones geogr ficas were aware of this Nonhuman animals provided food clothing labor entertainment and companionship Functioning as allegories of human behavior nonhuman animals were perceived by Spanish and Amerindian authors alike as bearing some relationship to humans On occasion they even were appreciated as unique and fascinating beings Through empirical observation and metaphor some in the Spanish empire saw themselves as related in some way to other animals recognizing before Darwin a difference in degree rather than kind

Spanish Attitudes Toward Judaism Adolfo Kuznitzky,2014-09-04 Analyzing the history of the Jews of Spain from the time of the Visigoths to the present this study investigates periods of discrimination against converted Jews that went beyond the merely religious finding similarities to the racial and secular anti Semitism of modernity Some scholars have drawn parallels between the Spanish castizo ethnicism embodied in the cleanliness of blood statutes and the German volkisch anti Semitic beliefs that sustained Nazism Others have found Inquisition like parallels in post inquisitorial Spain including during the Spanish Civil War and the Francoist era a result of the survival of ethno religious prejudices in a country where there were no Jews The singularities of Spanish anti Semitism are revealed in the Spanish Paradox of anti Semitism coexisting with philo Sephardism and also in the Spanish sensitivity to being viewed as a nation of Jews the Black Legend The author examines a historiographical controversy that went beyond scholarship spilling onto the columns of newspaper polemic

**State Identities and the Homogenisation of Peoples** Heather Rae,2002-08-15 Why are forced displacement ethnic cleansing and genocide an enduring feature of state systems In this book Heather Rae locates these practices of pathological homogenisation in the processes of state building Political elites have repeatedly used cultural resources to redefine bounded political communities as exclusive moral communities from which outsiders must be expelled Showing that these practices predate the age of nationalism Rae examines cases from both pre nationalist and nationalist eras the expulsion of the Jews from fifteenth century Spain the persecution of the Huguenots under Louis XIV and in the twentieth century the Armenian genocide and ethnic cleansing in former Yugoslavia She argues that those atrocities prompted the development of international norms of legitimate state behaviour that increasingly define sovereignty as conditional Rae concludes by examining two threshold cases the Czech Republic and Macedonia to identify the factors that may inhibit pathological

homogenization as a method of state building      Spanish American Poetry After 1950 Donald Leslie Shaw, 2008 The principal developments in Spanish American poetry in the second half of the twentieth century Providing a basis for understanding the main lines of development of poetry in Spanish America after Vanguardism this volume begins with an overview of the situation at the mid century the later work of Neruda and Borges the emergence of Paz Consideration is then given to the decisive impact of Parra and the rise of colloquial poetry politico social poetry Dalton Cardenal and representative figures such as Orozco Pacheco and Cisneros The aim is to establish a few paths through the largely unmapped jungle of Spanish American poetry in the time period The author emphasises the persistence of a generally negative view of the human condition and the poets exploration of different ways of responding to it These vary from outright scepticism to the ideological the religious or those derived from some degree of confidence in the creative imagination as cognitive At the same time there is analysis of the evolving outlook on poetry of the writers in question both in regard to its possible social role and in regard to diction DONALD SHAW holds the Brown Forman Chair of Spanish American literature in the University of Virginia      **British representations of the Spanish Civil War** Brian Shelmerdine, 2024-07-30 This book looks at the reception of the Spanish Civil War in British popular culture and how supporters of both sides in Britain used the rhetoric and imagery of the conflict to bolster support for their respective causes in the arena of British public opinion Brian Shelmerdine finds that traditional notions of Spain as a country of bullfighting bandits and flamenco were pervasive and were significant in shaping wider UK government policy towards Spain He carefully assesses the different political perceptions of the 1930s Spanish scene the role of the Catholic Church the depiction of the two sides in terms of class race and ethnicity humanitarian appeals and the plight of the Basques The book is fluently written and should make fascinating and entertaining reading for scholars of British society and culture in the twentieth century as well as those investigating international impact of the Spanish Civil War      **Spanish Studies in the Philosophy of Science** Gonzalo Munévar, 2012-12-06 An anthology of contemporary philosophy of science in Spain Essays on 19th Century physics the new cosmology philosophy of biology scientific rationality philosophy of mathematics phenomenology s account of scientific progress science and ethics philosophy of economics methodology and the philosophy of technology      Spanish Carlism and Polish Nationalism Marek Jan Chodakiewicz, John Radzilowski, While both Spain and Poland developed genteel cultures grounded in Catholic religion and experienced periods of growth followed by long decline it is also the case that large differences in political economy and military structures also existed Thus while Spain merely declined in power Poland was partitioned by three powerful and rapacious neighbors The Catholic and conservative elements that have been strong in both Poland and Spain have often been portrayed as obscure nativist and racist and even fascist The purpose of this volume is to move beyond the simplistic vision this created about both countries into a more balanced and careful appraisal of tradition and development Puncturing this stereotype Eugene Genovese wryly notes that as every schoolboy knows Europe s Catholic

Right has consisted of reactionaries who began in the service of residual feudal landowners and ended in support of big capital's exploitation and oppression of the masses. Still the totalitarian horrors of the twentieth century proved prescient the warnings of the Catholic traditionalist Right about the consequences of radical democracy and cultural nihilism. These splendid essays as readable as they are scholarly launch a long overdue assessment of vital political events. Ewa Thompson, professor of Slavic Studies at Rice University, writes: 'The fall of Communism facilitated growth of research in areas previously difficult to access. One such area is Polish interest in Spain, the history of the Catholic Right in Europe. This pioneering volume explores both narratives and succeeds in showing that they are related. The similarities have to do with the symmetrical positions of Poland and Spain as frontiers of Europe against invasions from Islam. The present collection of papers explores recent history developing against this background.' Imperialism and the Wider Atlantic Tania Gentic, Francisco LaRubia-Prado, 2017-10-28. The essays in this volume broaden previous approaches to Atlantic literature and culture by comparatively studying the politics and textualities of Southern Europe, North America and Latin America across languages, cultures and periods. Historically grounded while offering new theoretical approaches, the volume encourages debate on whether the critical lens of imperialism often invoked to explain transatlantic studies may be challenged by the diagonal, translinguistic relationships that comprise what the editors term the wider Atlantic. The essays explore how instances of inverse coloniality, global networks of circulation and linguistic conceptualizations of nation and identity question dominant structures of power from the nineteenth century to today.

**Seneca's Medea and Republican Spain** Oliver Baldwin, 2022. Based on extensive archival research and containing rare and previously unpublished photos, this book provides the most detailed reconstruction ever of one of the most important events in Spanish theatrical history. Winner of the 2019/20 AHGBI Spanish Embassy Publication Prize. On 18 June 1933, one of the most important events in Spanish theatrical history took place before an audience of 3,000 spectators in the ruins of the Roman Theatre in Mérida. Translated into Spanish by philosopher Miguel de Unamuno, staged by the renowned Xirgu Borrás Company and funded by the government, the performance of Seneca's *Medea* was a triumph of republican culture and widely hailed for its new dramatic and scenic languages. This book provides the most detailed reconstruction of this pivotal production to date, setting it in context and analysing its origin and legacy. Early twentieth-century intellectuals considered Seneca, the philosopher from Córdoba, the epitome of Spanishness and the first in an illustrious line of playwrights stretching from Spain's Roman Antiquity to its Silver Age. His play was seen as the ideal vehicle to showcase the Second Spanish Republic's cultural, social and educational agenda but provoked a furious backlash from opponents to the government's progressive programme. The book shows how the performance became a cultural ritual which stood at the centre of critical discussions on national identity, politics, secularism, women's rights and new European aesthetics of theatre-making. Based on extensive archival research and containing rare and previously unpublished photos, it will be of interest to theatre historians, scholars of Classical Reception and historians of the Second

Spanish Republic *A Companion to Modern Spanish American Fiction* Donald Leslie Shaw, 2002 With such figures as Jorge Luis Borges Miguel Angel Asturias and Gabriel Garcia Marquez both the latter Nobel Prizewinners Spanish American fiction is now unquestionably an integral part of the mainstream of Western literature This book draws on the most recent research in describing the origins and development of narrative in Spanish America during the nineteenth and twentieth centuries tracing the pattern from Romanticism and Realism through Modernismo Naturalism and Regionalism to the Boom and beyond It shows how while seldom moving completely away from satire social criticism and protest Spanish American fiction has evolved through successive phases in which both the conceptions of the writer's task and presumptions about narrative and reality have undergone radical alterations DONALD SHAW holds the Brown Forman Chair of Spanish American literature in the University of Virginia

**Science in the Age of Baroque** Ofer Gal, Raz Chen-Morris, 2012-11-28 This volume examines the New Science of the 17th century in the context of Baroque culture analysing its emergence as an integral part of the high culture of the period The collected essays explore themes common to the new practices of knowledge production and the rapidly changing culture surrounding them as well as the obsessions anxieties and aspirations they share such as the foundations of order the power and peril of mediation and the conflation of the natural and the artificial The essays also take on the historiographical issues involved the characterization of culture in general and culture of knowledge in particular the use of generalizations like Baroque and the status of such categories and the role of these in untangling the historical complexities of the tumultuous 17th century The canonical protagonists of the Scientific Revolution are considered and so are some obscure and suppressed figures Galileo side by side with Scheiner Torricelli together with Kircher Newton as well as Scilla The coupling of Baroque and Science defies both the still triumphalist historiographies of the Scientific Revolution and the slight embarrassment that the Baroque represents for most cultural national histories of Western Europe It signals a methodological interest in tensions and dilemmas rather than self affirming narratives of success and failure and provides an opportunity for reflective critique of our historical categories which is valuable in its own right

**The Cambridge Companion to the Spanish Novel** Harriet Turner, Adelaida López de Martínez, 2003-09-11 The Cambridge Companion to the Spanish Novel presents the development of the modern Spanish novel from 1600 to the present Drawing on the combined legacies of Don Quijote and the traditions of the picaresque novel these essays focus on the question of invention and experiment on what constitutes the singular features of evolving fictional forms It examines how the novel articulates the relationships between history and fiction high and popular culture art and ideology and gender and society Contributors highlight the role played by historical events and cultural contexts in the elaboration of the Spanish novel which often takes a self conscious stance toward literary tradition Topics covered include the regional novel women writers and film and literature This companionable survey which includes a chronology and guide to further reading conveys a vivid sense of the innovative techniques of the Spanish novel and of the debates surrounding it

This Captivating Realm of E-book Books: A Comprehensive Guide Revealing the Benefits of E-book Books: A Realm of Ease and Versatility Kindle books, with their inherent portability and simplicity of availability, have liberated readers from the constraints of physical books. Gone are the days of carrying cumbersome novels or meticulously searching for specific titles in shops. E-book devices, stylish and portable, effortlessly store an wide library of books, allowing readers to indulge in their favorite reads whenever, everywhere. Whether commuting on a busy train, relaxing on a sunny beach, or simply cozying up in bed, Kindle books provide an exceptional level of ease. A Literary Universe Unfolded: Discovering the Wide Array of Kindle Spain World In View Spain World In View The E-book Shop, a virtual treasure trove of literary gems, boasts an wide collection of books spanning varied genres, catering to every readers preference and choice. From captivating fiction and mind-stimulating non-fiction to classic classics and modern bestsellers, the E-book Store offers an exceptional abundance of titles to explore.
