Span Of The Cross Christian Religion And Society In Wales 1914 :

The Span of the Cross D. Densil Morgan, 2011 The Span of the Cross is the first full length study of the history of Christianity in twentieth century Wales a period that saw the trauma of two world wars economic depression political change and increasingly secular attitudes Beginning with a description of religion and its place in society in 1914 the book assesses the effect of the Great War on people s spiritual convictions and practices Further discussions include the state of the disestablished church in Wales the interwar crisis of nonconformity the churches response to economic dislocation and the role of religion in the twenty first century This edition includes a new introduction by the author **The Span of the Cross** Densil D. Morgan, 2016-10-11 This is the first full length history of 20th century Christianity in Wales Beginning with a description of religion and its place in society in 1914 it assesses the effect which the Great War made on people s spiritual convictions and on religious opinion and practise It proceeds to analyse the state of the disestablished church in Wales an increasingly confident Catholicism and the growing inter war crisis of Nonconformity Liberal Theology and the Social Gospel the fundamentalist impulse and the churches response to economic dislocation and political change are discussed as is the much less traumatic effect of the Second World War *A History of Christianity in Wales* David Ceri Jones, Barry J. Lewis, Madeleine Gray, D. Densil Morgan, 2022-02 Balanced coverage of whole history of Christianity in Wales paying as much attention to earlier periods as the better known later ones A contemporary view of the subject incorporating the latest scholarly research in an accessible and readable form Guides to further reading specifically aimed at navigating students and others through what they should read after this book **Religion and Society in Twentieth-Century Britain** Callum G. Brown, 2014-09-11 During the twentieth century Britain turned from one of the most deeply religious nations of the world into one of the most secularised nations This book provides a comprehensive account of religion in British society and culture between 1900 and 2000 It traces how Christian Puritanism and respectability framed the people amidst world wars economic depressions and social protest and how until the 1950s religious revivals fostered mass enthusiasm It then examines the sudden and dramatic changes seen in the 1960 s and the appearance of religious militancy in the 1980s and 1990s With a focus on the themes of faith cultures secularisation religious militancy and the spiritual revolution of the New Age this book uses people s own experiences and the stories of the churches to display the diversity and richness of British religion Suitable for undergraduate students studying modern British history church history and sociology of religion *Secularization in the Long 1960s* Clive D. Field, 2017-03-16 Secularization in the Long 1960s Numerating Religion in Britain provides a major empirical contribution to the literature of secularization It moves beyond the now largely sterile and theoretical debates about the validity of the secularization thesis or paradigm Combining historical and social scientific perspectives Clive D Field uses a wide range of quantitative sources to probe the extent and pace of religious change in Britain during the long 1960s In most cases data is presented for the years 1955 80 with particular attention to the methodological and other

challenges posed by each source type Following an introductory chapter which reviews the historiography introduces the sources and defines the chronological and other parameters Field provides evidence for all major facets of religious belonging behaving and believing as well as for institutional church measures The work engages with and largely refutes Callum G Brown s influential assertion that Britain experienced revolutionary secularization in the 1960s which was highly gendered in nature and with 1963 the major tipping point Instead a more nuanced picture emerges with some religious indicators in crisis others continuing on an existing downward trajectory and yet others remaining stable Building on previous research by the author and other scholars and rejecting recent proponents of counter secularization the long 1960s are ultimately located within the context of a longstanding gradualist and still ongoing process of secularization in Britain

Michael W. Brierley,Georgia A. Byrne,2018-01-01 Much has been written on the centenary of the First World War however no book has yet explored the tragedy of the conflict from a theological perspective This book fills that gap Taking their cue from the famous British army chaplain Geoffrey Studdert Kennedy seven central essays all by authors associated with the cathedral where Studdert Kennedy first preached to troops examine aspects of faith that featured in the war such as the notion of home poetry theological doctrine preaching social reform humanitarianism and remembrance Each essay applies its reflections to the life of faith today The essays thus represent a highly original contribution to the history of the First World War in general and the work of Studdert Kennedy in particular and they provide wider theological insight into how in the contemporary world life and tragedy God and suffering can be integrated The book will accordingly be of considerable interest to historians both of the war and of the church to communities commemorating the war and to all those who wrestle with current challenges to faith A foreword by Studdert Kennedy s grandson and an afterword by the bishop of Magdeburg in Germany render this a volume of remarkable depth and worth **Anglican Confirmation 1945-2000** Phillip

Tovey,2025-06-27 The focus of this book is the theology liturgy and practice of Anglican Confirmation from 1945 to 2000 It is the third book in a series on Anglican Confirmation The first chapters look at confirmation on a global and ecumenical level

How have questions about the place and performance of confirmation changed Then there is a series of case studies from North America Europe and the wider world Two chapters are on the theology and practice of the Church of England Attention is given to liturgical reform theological discussion and practice including statistics In some chapters there are case studies of individual dioceses or bishops to give snapshots of theology in action This book uses innovative visualization techniques to present data and uses textual network analysis to map the interrelationships of provinces at a liturgical level The ecumenical baptismal unity agenda from Vatican 2 and the World Council of Churches underlies the theological critique This will be of great value to those in liturgical studies church history Anglican studies and to all bishops and clergy involved in confirmation

Interfaces Baptists and Others David Bebbington, 2014-07-08 The book is a collection of twenty one essays discussing how Baptists throughout the world have related to other Christians and to other institutions and movements over the centuries The theme of this collection of twenty one essays Baptists and Others includes relations with other Christians and with other institutions and movements What the authors ask has been the Baptist experience of

engaging with different groups and developments The theme has been explored by means of case studies some of which are very specific in time and place while others cover long periods and more than one country In the first half the contents are arranged by period The first section examines early Baptists the second nineteenth century Baptists in Britain and America and the third Baptists in the twentieth century The second half turns to various parts of the world There is a section on Australia another on New Zealand and a third on Asia and Africa The overall picture is one of a complicated series of relationships as Baptists defined themselves as different from other bodies and yet especially in the twentieth century tried to co operate in mission and ecumenical endeavour Baptists are often regarded as enthusiastic separatists and unenthusiastic ecumenists These essays based on hard evidence rather than passing impressions are a necessary correction to superficial prejudices and show the reality to be much more complex and nuanced as well as varied over time and place The book is a smorgasbord of delights Yet readers should avoid the temptation to pick and choose from the menu ensuring rather that each offering is digested so they enjoy a balance and nutritious meal Derek Tidball

Nationhood, Providence, and Witness Carys Moseley, 2013-05-10 This book argues that problems with recognizing the State of Israel lie at the heart of approaches to nationhood and unease over nationalism in modern Protestant theology as well as modern social theory Three interrelated themes are explored The first is the connection between a theologian's attitude to recognizing Israel and their approach to the providential place of nations in the divine economy Following from this the argument is made that theologians' handling of both modern and ancient Israel is mirrored profoundly in the question of recognition and ethical treatment of the nations to which they belong along with neighboring nations The third theme is how social theory represented by certain key figures has handled the same issues Four major theologians are discussed Reinhold Niebuhr Rowan Williams John Milbank and Karl Barth Alongside them are placed social theorists and scholars of religion and nationalism including Mark Juergensmeyer Philip Jenkins Anthony Smith and Adrian Hastings In the process debates over the relationship between theology and social theory are reconfigured in concrete terms around the challenge of recognition of the State of Israel as well as stateless nations

The Emergence of Pentecostalism in Wales Chris Palmer, 2019-02-15 British Pentecostalism is linked to the

Azusa Street Revival in Los Angeles through T B Barratt and Anglican vicar Alexander A Boddy at Sunderland Boddy's experience and subsequent ministry set the foundation in Britain for the rise of the Apostolic Church the Elim Church and the Assemblies of God Each of these Pentecostal denominations had their roots in Wales Following the Welsh Revival of 1904-05 some enthused by their experience sought a deeper relationship with God and this search ultimately led them to Pentecostalism A group of eager believers emerged around the town of Crosskeys in South East Wales By 1912 they had established the Crosskeys Full Gospel Mission which soon became a centre for Pentecostal activity The central role of the Crosskeys group is seen in the development of the Assemblies of God in Wales and Monmouthshire denomination which was in existence by 1921 The Crosskeys based group had been in correspondence with the American Assemblies of God AG regarding joining that denomination as an official presbytery It was this action that caused a group of like minded English Pentecostals to pursue the establishment of the Assemblies of God in Great Britain and Ireland in 1924 This British denomination incorporated some thirty eight Welsh Pentecostal assemblies This book considers some of the important theological political and social influences which shaped the brand of Pentecostalism that emerged in South East Wales in the early twentieth century a movement which was to have a wide ranging influence on subsequent Pentecostal history far beyond the borders of Wales

A People's Church Jeremy Morris, 2022-04-07 A masterly vivid and original sketch not just of the history but of the culture or cultures of the Church of England across nearly five centuries Rowan Williams poet and former Archbishop of Canterbury It is hard to comprehend the last 500 years of England's history without understanding the Church of England From its roots in Catholicism through to the present day this is the extraordinary history of a familiar but much misunderstood institution The Church has frequently been divided between high and low Evangelical and Anglo Catholic For its first 150 years people sacrificed their lives to defend it the Anglican Church is and has always been defined by its complicated relationship to the state and power As Jeremy Morris shows the story of the Church central to British life has never been straightforward Weaving social political and religious context together with the significance of its music and architecture A People's Church skilfully illuminates a complex and pre eminent institution [Calvin and His Influence](#)

[1509-2009](#) Irena Backus, Philip Benedict, 2011-08-31 This volume collects papers initially written as the plenary addresses for the largest international scholarly conference held in connection with the 500th anniversary of Calvin's birth organized in Geneva by the Institute of Reformation History The organizers chose as theme for the conference Calvin and His Influence 1509-2009 hoping to stimulate reflection about what Calvin's ideas and example have meant across the five centuries since his lifetime as well as about how much validity the classic interpretations that have linked his legacy to fundamental features of modernity such as democracy capitalism or science still retain

Evangelicalism and Dissent in Modern England and Wales David Bebbington, David Ceri Jones, 2020-09-07 This book treads new ground by bringing the Evangelical and Dissenting movements within Christianity into close engagement with one another While Evangelicalism and Dissent both

have well established historiographies there are few books that specifically explore the relationship between the two Thus this complex relationship is often overlooked and underemphasised The volume is organised chronologically covering the period from the late seventeenth century to the closing decades of the twentieth century Some chapters deal with specific centuries but others chart developments across the whole period covered by the book Chapters are balanced between those that concentrate on an individual such as George Whitefield or John Stott and those that focus on particular denominational groups like Wesleyan Methodism Congregationalism or the Black Majority Churches The result is a new insight into the cross pollination of these movements that will help the reader to understand modern Christianity in England and Wales more fully Offering a fresh look at the development of Evangelicalism and Dissent this volume will be of keen interest to any scholar of Religious Studies Church History Theology or modern Britain Britain's Last Religious Revival? C. Field, 2015-02-25 This is a major contribution to scholarly debates on the chronology and nature of secularization in modern Britain Combining historical and social scientific insights it analyses a range of statistical evidence for the long 1950s testing and largely rejecting Callum Brown's claims that there was a religious resurgence during this period
