Song on Record: Volume 1, Lieder Alan Blyth, 2006-11-02 A history of the Lied and its interpretation with a guide to available recordings *The Complete Home Learning Sourcebook* Rebecca Rupp, 1998 Lists all the resources needed to create a balanced curriculum for homeschooling from preschool to high school level *Voicing the Ineffable* Siglind Bruhn, 2002 The relationship between music and religion has long been a clearly delineated one Up to the late Middle Ages music employed for ritual expressions of faith in sacred contexts was contrasted with secular music then mostly played in open spaces The former was believed to aid in the communication of divine truths while the latter was suspected of arousing sensuality and thus potentially leading away from the spiritual perspective of life In subsequent centuries music entered first the courtly salons then the concert hall and the home Such music created for virtuoso performance or for the enjoyment in private chambers occasionally made room for an expression of religious experiences outside the dedicated spaces of worship This aspect is particularly intriguing in instrumental music where allusions to extra musical messages are at best hinted at in titles or explanatory notes and in those cases of vocal music where it can be shown that the musical language adds significant nuances to the verbal text On the basis of various case studies that transcend a music analytical approach in the direction of the hermeneutic perspective this volume explores in which ways the musical language in itself independently of an explicitly sacred context communicates the ineffable The discussion focuses on the musical means and devices employed to this effect and on the question what the presence of religious messages in certain works of secular music tells us about the spirituality of an era **Library of Congress Subject Headings** Library of Congress, 2013 **American Art Songs of the Turn of the Century** Paul Sperry, 1991-01-01 42 of the best songs of a halcyon period in American music richly varied in mood sentiment and musical character including classics by Edward MacDowell Charles Ives Amy Beach Carrie Jacobs Bond Oley Speaks Ethelbert Nevin John Philip Sousa Charles Wakefield Cadman and 14 other composers Reprinted from rare original song sheets in full piano and vocal arrangements **Historical Dictionary of Romantic Music** John Michael Cooper, 2024-02-12 Library Journal praises the book as an excellent one volume ready reference resource for students researchers and others interested in music history Historical Dictionary of Romantic Music Second Edition covers the persons ideas practices and works that made up the worlds of Western music during the long 19th century ca 1780 1918 It is the first book to recognize that Romantic music was very nearly a global phenomenon It includes more women more Black musicians and other musicians of color and more exponents of musical Romanticism from Central and South America as well as Central and Eastern Europe than any other single volume study of Romantic music thus challenging the conventional hegemony of musical Romanticisms by men and by Western European nations This book includes entries on topics including anti-Semitism sexism and racism that were pervasive and defining to the worlds of musical Romanticism but are rarely addressed in general studies of that subject It includes Romantic musicians who were not primarily composers as well as

[The Spirit of the English Magazines](#) ,1896 *Hugo Wolf* Susan Youens,2024-01-09 A groundbreaking look at one of the great song composers of the late Romantic period In the virtual cottage industry of works on fin de si cle Vienna Hugo Wolf 1860 1903 has been somewhat neglected perhaps because he was the master of a small genre the late Romantic lied and never truly made his mark in the larger forms that command greater public attention But in the realm of song he is among

the greatest inheritors of Schubert and Schumann one who was both a traditionalist and a modernist When the Viennese critic Eduard Hanslick disapprovingly dubbed Wolf the Richard Wagner of the lied he was paying oblique homage to Wolf's genius as a song composer in the most modern manner In this book Susan Youens examines five aspects of Wolf's compositional art each exemplifying a different synthesis of traditionalism and modernity and spanning his entire tragically brief creative life from his first efforts to his lapse into insanity in 1897 She discusses Wolf's youthful imitations of Schumann his genius for comic songs of a kind unlike any of his predecessors his part in the ballad revival of the late nineteenth century Wolf in relation to his contemporaries and his pursuit of operatic fame Youens looks as closely at the poetic texts as she does the music and includes numerous previously unpublished sketches and fragments examples from songs now long out of print and difficult to obtain and citations from Wolf's vivid letters and other sources of the period
