**The Spanish Church and the Papacy in the Thirteenth Century** Peter Linehan, 2005-11-24 Against the background of the struggle between Christianity and Islam for the control of the Spanish Peninsula this book examines the internal condition of the Spanish Church in the thirteenth century its relations with the Christian kings and with a succession of great popes Concentrating upon Aragon and Castile the author examines the reaction and resistance of the Church to the reforming decrees of the 1215 Fourth Lateran Council and illustrates the attempts made by the papacy to wrest control of the Church from the crown By using hitherto untouched Spanish sources as well as material from the Vatican Dr Linehan is able to throw new light on economic and social problems and to challenge effectively the conception that the Spanish Church was wealthy and influential As well as being important for scholars of medieval Spain this book provides essential comparative material for all historians of the medieval Church [The Spanish Church and the Papacy in the Thirteenth Century](#) ,1999\*

[Robert Grosseteste and the 13th-Century Diocese of Lincoln](#) Philippa Hoskin, 2019-01-07 In this book Philippa Hoskin offers an account of the pastoral theory and practice of Robert Grosseteste bishop of Lincoln 1235-1253 within his diocese Grosseteste has been considered as an eminent medieval philosopher and theologian and as a bishop focused on pastoral care but there has been no attempt to consider how his scholarship influenced his pastoral practice Making use of Grosseteste's own writings philosophical and theological as well as pastoral and administrative Hoskin demonstrates how Grosseteste's famous interventions in his diocese grew from his own theory of personal obligation in pastoral care as well as how his personal involvement in his diocese could threaten well developed clerical and lay networks

from the United States the UK and Europe Notably the Handbook is arranged thematically and focusses on an analytical rather than narrative approach seeking to demonstrate the variety change and complexity of religion throughout this long period and the numerous different ways in which modern scholarship can approach it While providing a very wide ranging view of the subject it also offers an important agenda for further study in the field **Possessing the Land**

Innocent III confirmed this charter and in the following year the right to electoral freedom was restated at the Fourth Lateran Council. In consequence under Henry III and Edward I the English Church enjoyed something of a golden age of electoral freedom during which the king might influence elections but ultimately could not control them. Then during the reigns of Edward II and Edward III papal control over appointments was increasingly asserted and from 1344 onwards all English bishops were provided by the pope. This book considers the theory and practice of free canonical election in its heyday under Henry III and Edward I and the nature of and reasons for the subsequent transition to papal provision. An analysis of the theoretical evidence for this subject including canon law royal pronouncements and Lawrence of Somercote's remarkable 1254 tract on episcopal elections is combined with a consideration of the means by which bishops were created during the reigns of Henry III and the three Edwards. The changing roles of the various participants in the appointment process including but not limited to the cathedral chapter the king the papacy the archbishop and the candidate are given particular emphasis. In addition the English situation is placed within a European context through a comparison of English episcopal appointments with those made in France Scotland and Italy. Bishops were central figures in medieval society and the circumstances of their appointments are of great historical importance. As episcopal appointments were also touchstones of secular ecclesiastical relations this book therefore has significant implications for our understanding of church state interactions during the thirteenth and fourteenth centuries.
