### All about Spain

Spain is a very geographic diverse country, ranging from deserts, beaches, and mountains. Spain is deeply rooted in tradition due to the many outside influences throughout time. Spain is the third largest country in Europe. Spain became part of NATO, and then joined the European Union in 1986. After this the economy of Spain increased significantly, placing Spain firmly on the Western economy map and gained major trading partners. The country is a highly developed and stable democracy.

**Spanish Family Values.** The family is the basis of the social structure and includes both the nuclear and the extended family, which sometimes provides both a social and a financial support network. Today, it is less common than previously for family members to work in a family business, as personal preferences are important and university education is general. The structure and the size of the family vary, but generally, people live until longer lives, have fewer children than before, and fewer people live in their homes with extended family. Familial networks have become less tight. The greatest changes have occurred inside families, between men and woman, and the parents and children because the values that inspire these relations have changed. Religion in Spain The majority of Spaniards are formally Roman Catholic, although different religious beliefs are accepted.

During the history of Spain, there have been long periods of where different religious groups have coexisted, including Muslims, Jews and Christians. Still some traditions manifest more like a cultural event than a religious one. During Holy Week, many participants of the processions wear peaked, black hats as the sign of a penitent and walk barefoot, carrying a burden of some kind. Religious history is apparent in every small town, where the most grandiose building is typically the church. In the large cities the Cathedrals are almost museums. Business - Key concepts and values Face - Spanish culture places a large emphasis on personal pride. Therefore, causing loss of face through criticism or embarrassment should be avoided at all costs.

In addition, when dealing with your Spanish counterparts you may also find that competence and control are important elements of their work ethos and crucial for saving face. This may result in your Spanish colleagues insisting that everything is in order, even if it is not. Individualism - In terms of personal attributes, individualism is highly valued in Spain, along with an emphasis on character and social status. Spanish culture highlights the importance of self and one's family. However, influenced by its collectivist past, family values, a sense of identity and belonging to a group, are also integral
