Lindberg, Roy Porter, Ronald L. Numbers, 2003-03-17 The fullest and most complete survey of the development of science in the eighteenth century **The Independence of Spanish America** Jaime E. Rodríguez O., 1998-05-13 This book provides a new interpretation of Spanish American independence emphasising political processes *Science in the Spanish and Portuguese Empires, 1500-1800* Daniela Bleichmar, Paula De Vos, Kristin Huffine, Kevin Sheehan, 2008-12-18 This collection of essays is the first book published in English to provide a thorough survey of the practices of science in the Spanish and Portuguese empires from 1500 to 1800 Authored by an interdisciplinary team of specialists from the United States Latin America and Europe the book consists of fifteen original essays as well as an introduction and an afterword by renowned scholars in the field The topics discussed include navigation exploration cartography natural sciences technology and medicine This volume is aimed at both specialists and non specialists and is designed to be useful for teaching It will be a major resource for anyone interested in colonial Latin America Global Ocean of Knowledge, 1660-1860 Karel Davids, 2020-05-14 This book looks to fill the blue hole in Global History by studying the role of the oceans themselves in the creation development reproduction and adaptation of knowledge across the Atlantic world It shows how globalisation and the growth of maritime knowledge served to reinforce one another and demonstrates how and why maritime history should be put firmly at the heart of global history Exploring the dynamics of globalisation knowledge making and European expansion Global Ocean of Knowledge takes a transnational approach and transgresses the traditional border between the early modern and modern periods It focuses on three main periodisations which correspond with major transformations in the globalisation of the Atlantic World and analyses how and to what extent globalisation forces from above and from below influenced the development and exchange of knowledge Davids distinguishes three forms of globalising forces from above imperial commercial and religious alongside self organisation the globalising force from below Exploring how globalisation advanced and its relationship with knowledge changed over time this book bridges global maritime intellectual and economic history to reflect on the role of the oceans in making the world a more connected place Empire and Science in the Making P. Boomgaard, 2013-10-23 Drawing on extensive new research and bringing much new scholarship before English readers for the first time this wide ranging volume examines how knowledge was created and circulated throughout the Dutch Empire and how these processes compared with those of the Imperial Britain Spain and Russia **Handbook of Hispanic Cultures in the United States** Alfredo Jiménez, Nicolás Kanellos, Claudio Esteva-Fabregat, 1994-01-01 Recovering the U S Hispanic Literary Project is a national project to locate identify preserve and make accessible the literary contributions of U S Hispanics from colonial times through 1960 in what today comprises the fifty states of the United States *Realm*

*Between Empires* Wim Klooster, Gert Oostindie, 2018-05-15 The Dutch Atlantic during an era following the imperial moment of the seventeenth century in which Dutch military power declined and Dutch colonies began to chart a more autonomous path A revisionist history of the eighteenth century Atlantic world a counterpoint to the more widely known British and French Atlantic histories

**Science and Catholicism in Argentina (1750-1960)** Miguel de Asúa, 2022-05-09 Science and Catholicism in Argentina 1750 1960 is the first comprehensive study on the relationship between science and religion in a Spanish speaking country with a Catholic majority and a Latin pattern of secularisation The text takes the reader from Jesuit missionary science in colonial times through the conflict ridden 19th century to the Catholic revival of the 1930s in Argentina The diverse interactions between science and religion revealed in this analysis can be organised in terms of their dynamic of secularisation The indissoluble identification of science and the secular which operated at rhetorical and institutional levels among the liberal elite and the socialists in the 19th century lost part of its force with the emergence of Catholic scientists in the course of the 20th century In agreement with current views that deny science the role as the driving force of secularisation this historical study concludes that it was the process of secularisation that shaped the interplay between religion and science not the other way around

**Western Art, Western History** Ron Tyler, 2019-03-07 For nearly half a century celebrated historian Ron Tyler has researched interpreted and exhibited western American art This splendid volume gleaned from Tyler's extensive career of connoisseurship brings together eight of the author's most notable essays reworked especially for this volume Beautifully illustrated with more than 150 images *Western Art Western History* tells the stories of key artists both famous and obscure whose provocative pictures document the people and places of the nineteenth century American West The artists depicted in these pages represent a variety of personalities and artistic styles According to Tyler each of them responded in unique ways to the compelling and exotic drama that unfolded in the West during the nineteenth century an age of exploration surveying pleasure travel and scientific discovery In eloquent and engaging prose Tyler unveils a fascinating cast of characters including the little known German Russian artist Louis Choris who served as a draftsman on the second Russian circumnavigation of the globe the exacting and precise Swiss artist Karl Bodmer who accompanied Prince Maximilian of Wied on his sojourn up the Missouri River and the young American Alfred Jacob Miller whose seemingly frivolous and romantic depictions of western mountain men and American Indians remained largely unknown until the mid twentieth century Other artists showcased in this volume are John James Audubon George Caleb Bingham Alfred E Mathews and finally Frederic Remington who famously sought to capture the last glimmers of the old frontier A common thread throughout *Western Art Western History* is the important role that technology especially the development of lithography played in the dissemination of images As the author emphasizes many works by western artists are valuable not only as illustrations but as scientific documents imbued with cultural meaning By placing works of western art within these broader contexts Tyler enhances our understanding of their history and significance

**Personal Narrative**

**of a Journey to the Equinoctial Regions of the New Continent** Alexander Humboldt, 2006-05-25 One of the greatest nineteenth century scientist explorers Alexander von Humboldt traversed the tropical Spanish Americas between 1799 and 1804 By the time of his death in 1859 he had won international fame for his scientific discoveries his observations of Native American peoples and his detailed descriptions of the flora and fauna of the new continent The first to draw and speculate on Aztec art to observe reverse polarity in magnetism and to discover why America is called America his writings profoundly influenced the course of Victorian culture causing Darwin to reflect He alone gives any notion of the feelings which are raised in the mind on first entering the Tropics *Science Still Born* Rodrigo Fernos, 2003 The Pan American Scientific Congresses ushered a new scientific era in Latin America Bringing together scientists engineers and medical researchers from both South and North America they facilitated the exchange of ideas between the two regions at the beginning of the twentieth century Nobel Prize thinkers such as Albert Michelson and others such as Franz Boas and Elmer Sperry were some of the participants The study describes the latest scientific advancements being diffused in these congresses as well as the factors affecting the adoption of such advancements Rodrigo Fernos teaches at the University of Puerto Rico Rio Piedras

*Bárbaros* David J. Weber, 2008-10-01 Two centuries after Cortés and Pizarro seized the Aztec and Inca empires Spain's conquest of America remained unfinished Indians retained control over most of the lands in Spain's American empire Mounted on horseback savvy about European ways and often possessing firearms independent Indians continued to find new ways to resist subjugation by Spanish soldiers and conversion by Spanish missionaries In this panoramic study David J Weber explains how late eighteenth century Spanish administrators tried to fashion a more enlightened policy toward the people they called bárbaros or savages Even Spain's most powerful monarchs failed however to enforce a consistent well reasoned policy toward Indians At one extreme powerful independent Indians forced Spaniards to seek peace acknowledge autonomous tribal governments and recognize the existence of tribal lands fulfilling the Crown's oft stated wish to use gentle means in dealing with Indians At the other extreme the Crown abandoned its principles authorizing bloody wars on Indians when Spanish officers believed they could defeat them Power says Weber more than the power of ideas determined how Spaniards treated savages in the Age of Enlightenment **Global Scientific Practice in an Age of Revolutions,**

**1750-1850** Patrick Manning, Daniel Rood, 2016-09-27 The century from 1750 to 1850 was a period of dramatic transformations in world history fostering several types of revolutionary change beyond the political landscape Independence movements in Europe the Americas and other parts of the world were catalysts for radical economic social and cultural reform And it was during this age of revolutions an era of rapidly expanding scientific investigation that profound changes in scientific knowledge and practice also took place In this volume an esteemed group of international historians examines key elements of science in societies across Spanish America Europe West Africa India and Asia as they overlapped each other increasingly Chapters focus on the range of participants in eighteenth and nineteenth century science their concentrated

effort in description and taxonomy and advances in techniques for sharing knowledge Together contributors highlight the role of scientific change and development in tightening global and imperial connections encouraging a deeper conversation among historians of science and world historians and shedding new light on a pivotal moment in history for both fields

**Naturalists at Sea** Glyn Williams, 2013-10-22 DIV On the great Pacific discovery expeditions of the long eighteenth century naturalists for the first time were commonly found aboard ships sailing forth from European ports Lured by intoxicating opportunities to discover exotic and perhaps lucrative flora and fauna unknown at home these men set out eagerly to collect and catalogue study and document an uncharted natural world div DIV div DIV This enthralling book is the first to describe the adventures and misadventures discoveries and dangers of this devoted and sometimes eccentric band of explorer scholars Their individual experiences are uniquely their own but together their stories offer a new perspective on the extraordinary era of Pacific exploration and the achievements of an audacious generation of naturalists Historian Glyn Williams illuminates the naturalist s lot aboard ship where danger alternated with boredom and quarrels with the ship s commander were the norm Nor did the naturalist s difficulties end upon returning home where recognition for years of work often proved elusive Peopled with wonderful characters and major figures of Enlightenment science among them Louis Antoine de Bougainville Joseph Banks John Reinhold Forster Captain Cook and Charles Darwin this book is a gripping account of a small group of scientific travelers whose voyages of discovery were to change perceptions of the natural world div

Forest, Field, and Fallow Antoinette M.G.A. Barnett, Caedmon Liburd, 2016-06-01 Saluting an era of adventure and knowledge seeking fifteen original essays consider the motivations of European explorers of the Pacific the science and technology of 18th century exploration and the significance of Spanish French and British voyages Among the topics discussed are the quest by enlightenment scientists for new species of plant and animal life and their fascination with Native cultures advances in shipbuilding navigation medicine and diet that made extended voyages possible and the lasting significance of the explorers collections artworks and journals

The Top Books of the Year Spanish Scientists In The New World The Eighteenth Century Expeditions The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the engaging narratives that have enthralled audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens' "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
