Mallory, 1985      Spanish Still Life in the Golden Age, 1600-1650 William Jordan, 1986-09-01      The Spirit of Secular Art Robert Nelson, 2007 THE SPIRIT OF SECULAR ART explains the spiritual prestige of art Various theorists have discussed how art has an aura or indefinable magic This book explains how when and why it gained its spiritual properties The idea that all art is somehow spiritual even though not religious is often assumed this book while narrating the historical trajectory of art in the most accessible language reveals how the mysteries of religious practice are abstracted and saved through all stages of secularisation in European culture THE SPIRIT OF SECULAR ART presents a coherent theory defining the sacred basis of Western aesthetics It evocatively describes the afterlife of the holy from Ancient Greece to the present and outlines how the mysterious institution of art can be explained in material terms Unlike other books in the genre THE SPIRIT OF SECULAR ART radically deconstructs traditional art history in terms of prestige and the value of the non material The book functions as an alternative critical history of art integrated with the histories of literature and belief a philosophical essay on the fundamental values of art and religion and a critique of the spiritual conceits of contemporary aesthetics and art appreciation      *Art And The Committed Eye* Richard Leppert, 2019-04-05 In *Art and the Committed Eye* Richard Leppert examines Western European and American art from the fifteenth to the twentieth century He studies the complex relation between the look of images and the variety of social and cultural uses to which they are put and demonstrates that the meaning of any image is significantly determined by its function which changes over time In particular he emphasizes the ways in which visual culture is called on to mediate social differences defined by gender class and race In Leppert addresses the nature and task of representation discussing how meaning accrues to images and what role vision and visibility play in the history of modernity Here he explains imagery's power to attract our gaze by triggering desire and focuses on the long history of the use of representation to enact a deception whether in painting or advertising explores art's relation to the material world to the ways in which images mark our various physical and psychic ties to objects The author analyzes still life paintings whose subject matter is both extraordinarily diverse and deeply paradoxical from flower bouquets to grotesque formal arrangements of human body parts Leppert demonstrates that even in innocent still lifes formal design and technical execution are imbued with cultural conflict and social power is devoted to the representation of the human body as subject to obsessive gazing and as an object of display spectacle and transgression The variety of body representation is enormous pleased or tortured gorgeous or monstrous modest or lascivious powerful or weak in the bloom of life or under the anatomist's knife clothed or naked But it is the sexual body Leppert shows that has provided the West with its richest most complex contradictory conflicted and paradoxical accounts of human identity in relation to social ideals      **SPANISH STILL LIFE IN THE GOLDEN AGE**
