cases when ten or more resources are listed on a single web page the author has assigned the web page a three digit code. The code is used to identify this web page as a major resource within the main text while any needed instructions for use of the site are cross referenced separately in the final chapter. In adopting this concise method the author was able to add hundreds of additional or updated web resources a surprising number of which can be downloaded onto a hard drive for immediate and continued use. *Library Journal*, 2002
