Sparsa Collecta:

A critical and exegetical commentary on the second epistle to the Corinthians. 1. Introduction and commentary on II Corinthians I - VII Margaret E. Thrall, 2000-11-21 Whether the Second Epistle of Paul to the Corinthians is a single document or a compilation of two or more and the question of Paul's relations with the Corinthian church between the despatch of the First and the composition of the Second letter or letters have been matters of debate since the eighteenth century Margaret Thrall's commentary engages with these and all the other issues associated with 2 Corinthians There follows a detailed verse by verse exegesis of chapters 1-7 which attempts to understand the viewpoint of the original readers of the text as well as Paul's own This volume covers many of Paul's writings which have evoked considerable scholarly interest in recent years This is an exemplary addition to the ICC series

Reading Luke-Acts in Its Mediterranean Milieu Charles H. Talbert, 2003-01-01 This book begins by offering a reading of the theological views of Luke Acts in terms of Peter J Rabinowitz's authorial audience and closes with reflections on how one might assess the historical value of Acts

Departure and Consolation George Lewis Parsenios, 2005-02-01 In contrast to the common opinion that the Johannine Farewell Discourses represent solely the Jewish genre of the Testament George Parsenios argues that features of the discourses are misread or missed completely apart from Greco-Roman literature Evidence from classical drama for instance assists in reading Jesus' return to the Father as a dramatic exit and further accounts for the puzzling delay of Jesus at 14:31 without recourse to redaction theories Consolation literature and the literary symposium emphasize Jesus' continuing and consoling presence with particular attention to the Paraclete's role as *doppelgänger* The thread that binds the various chapters into a coherent whole therefore is the utility of classical literature in clarifying Jesus' consoling presence even after his departure to the Father

Canonical Texts Rein Fernhout, 1994 This book introduces a new approach to the comparative study of sacred texts here the Christian Bible the Islamic Koran the Hindu Veda and the Buddhist Tipiaka The author demonstrates that in spite of their great differences these works show a fundamental analogy Considered as canonical within their own religious context each text possesses absolute authority in comparison with other authoritative texts from their respective religious traditions This fundamental analogy allows one to describe the growth and history of these canons step by step as a process that takes place in analogous phases that are clearly distinguishable The author follows a strictly phenomenological method he tries to understand the development of these canons in terms of a potential that lies within the phenomena themselves i.e. the texts while refraining in any way from assessing their claim to absolute authority In part I the author describes the development from the revelation of the texts to a climax with respect to reflection on the canons This climax has been reached in all four cases Part II investigates the crisis that these canons are currently undergoing as a consequence of the modern intellectual climate Can we expect that this crisis will be overcome by the canons And if so will they be in a position of mutual exclusion or will they form a sort of unity such as for example the Old and New Testament in the Christian Bible Finally the author

traces what the religions themselves have postulated about the future of their respective canons The result is surprising the current crisis is only faint reflection of what according to age old predictions awaits the canons in the future *Peoples and Places* Matthew Hirt,2022-05-27 Jesus s final command to his disciples was to make disciples of all nations But who are the nations How do we know we are being obedient to the task Do our current lists of ethnolinguistic people groups sufficiently answer the question For the last fifty years missiologists and missionaries have discussed this topic but much of the conversation has been focused on definitions that give little attention to biblical theology When we explore how the Bible describes the nations we find some other categories that have been overlooked forgotten or set aside in the development of missions strategy Geography is one of these categories However this is not simply bringing current geo political entities back into our missions strategy Instead Matthew Hirt is calling on missiologists missions researchers and missionaries on the field to discover how people groups identify their own geographies and in turn how that geography contributes to a people group s identity

The Acts of Thomas Klijn,2003-07-01 This is the second edition of a book published as long ago as 1962 The at that time relatively young Dr A F J Klijn was brought up in the school of W C van Unnik and G Quispel both in Utrecht In his book about the Acts of Thomas he tried to demonstrate that this work cannot be reckoned among the Gnostic writings but belongs to the early Syriac or rather Eastern Christian tradition In the last decades much has been written about Syriac Christianity which made it necessary to rewrite the original introduction of this book The commentary has mainly been left as it was although many additions have been made to its great number of valuable references *Paul and Philodemus* Clarence E. Glad,2014-04-09 As Paul guides and educates his converts he functions as a psychagogue leader of souls adapting his leadership style as required in each individual case Pauline psychagogy resembles Epicurean psychagogy in the way persons enjoying a superior moral status and spiritual aptitude help to nurture and correct others guiding their souls in moral and religious re formation This study relates Epicurean psychagogy of late Republican times to early Christian psychagogy on the basis of an investigation which places the practice in the wider socio cultural perspective contextualising it in Greco Roman literature treating friendship and flattery and the importance of adaptability in moral guidance Pauline studies are advanced by the introduction of new material into the discussion of the Corinthian correspondence which throws light on Paul s debate with his recalcitrant critics

Divine Initiative and the Christology of the Damascus Road Encounter Timothy W. R. Churchill,2010-04-28 The Damascus road encounter between Jesus and Paul is foundational to understanding the early development of Christology and indeed Christianity since it is the first appearance of the post ascension Jesus contained in the earliest Christian literature This study examines the encounter as it is described in Paul s epistles and the book of Acts Since Paul interprets his experience within the Jewish tradition this study begins with a survey of epiphany texts in the Old Testament and other ancient Jewish literature This reveals two new categories for appearances of God angels and other heavenly beings Divine Initiative and Divine Response This survey also finds two distinct patterns of characterization for God and other heavenly beings These findings are then applied to Paul s accounts of his Damascus road encounter Paul depicts the encounter as a Divine Initiative epiphany This conclusion is significant since it argues against the current view that the encounter was a merkabah vision Paul s Christology in the Damascus road encounter is also significant since Jesus is characterized as divine Such divine characterization is not typical for heavenly beings in first century CE epiphany texts Thus a high Pauline Christology appears to be present at a very early point The three accounts of the Damascus road encounter in Acts also fit the pattern of Divine Initiative not merkabah and exhibit the high Christology of Paul s accounts In fact the three accounts in Acts are shown to form an intentionally increasing sequence culminating in the revelation that Paul was called to be an apostle by Jesus himself on the Damascus road **New Readings in John** Johannes Nissen,Sigfred Pedersen,2004-10-27 This collection offers new studies on classical and modern problems in relation to the Fourth Gospel There are essays on John and the Synoptics and on John and the Qumran Scrolls Other essays present new literary approaches such as the question of the implied reader biblical imagery and irony and sectarianism Central theological issues are discussed including the problem of anti Judaism the interpretation of the death of Jesus the concept of mission the relation between community and ethics and the understanding of God in the Johannine writings **Acts 1-9:42, Volume 37A** The Rev. Acts and the Isaianic New Exodus David W. Pao, 2016-06-06 For an eye opening understanding of Acts readers discover clues to its structure and meaning hidden in Isaiah and the new Exodus message The Character and Purpose of Luke's Christology Douglas Buckwalter, 1996-08-28 Luke's christology is carefully designed Luke portrays the exalted Jesus as God's co-equal by the kinds of things he does and says from heaven Through the Holy Spirit the divine name and personal manifestations Jesus behaves toward people in Luke Acts as does Yahweh in the Old Testament His power and knowledge are supreme Jesus sovereignly reigns over Israel the church the powers of darkness and the world Luke deepens this portrait by depicting Jesus as deity who by nature behaves as servant the earthly Jesus acted among his people as one who serves the exalted Jesus continues serving his people by strengthening and encouraging them in their witness of him to the world That the believers in Acts resemble the way Jesus behaved in the Gospel means that they too are now imaging some of his servant-like character in their witness of him *One Lord, One People: The Unity of the Church in Acts in Its Literary Setting* Alan Thompson, 2008-12-01 This book examines the Lukan themes of unity and disunity against ancient Greco-Roman and Jewish social and political discourses on concord and discord to better understand the context in which Luke highlights the themes of unity and disunity The themes of unity and disunity are particularly prominent in ancient discussions of the reigns of rulers evaluations of laws constitutions forms of government and descriptions of the contrasting effects of unity and disunity in the destruction and preservation of peoples and cities These themes are grouped under the broad categories of kingship and law and the preservation and destruction of cities The book contends that in the context of its literary setting the theme of the unity of the church under one Lord in Acts contributes to Lukan Christological claims that Christ is the true king and Lukan ecclesiological claims that the Christian community is the true people of God Pauline Christianity Christopher

Mount,2002 Pauline Christianity examines the reception of Acts and the Pauline Luke by Irenaeus the compositional intentions behind the construction of Pauline Christianity in Acts and the relation of the literary Paulinism of the author to the Paulinism of his sources *Light from the Gentiles: Hellenistic Philosophy and Early Christianity* Abraham J. Malherbe,2013-10-10 Rather than viewing the Graeco Roman world as the background against which early Christian texts should be read Abraham J Malherbe saw the ancient Mediterranean world as a rich ecology of diverse intellectual traditions that interacted within specific social contexts These essays spanning over fifty years illustrate Malherbe s appreciation of the complexities of this ecology and what is required to explore philological and conceptual connections between early Christian writers especially Paul and Athenagoras and their literary counterparts who participated in the religious and philosophical discourse of the wider culture Malherbe s essays laid the groundwork for his magisterial commentary on the Thessalonian correspondence and launched the contemporary study of Hellenistic moral philosophy and early Christianity *Rhetorical Adaptation in the Greek Historians, Josephus, and Acts vol.I* John M. Duncan,2022-10-24 Greco Roman rhetorical theorists insist that speakers must adapt their speeches to their audiences in order to maximize persuasiveness and minimize alienation Ancient historians adorn their narratives with accounts of attempts at such rhetorical adaptation the outcomes of which decisively impact the subsequent course of events These depictions of speaker audience interactions moreover convey crucial didactic persuasive insights to the historians own audiences This monograph presents a detailed comparative analysis of the intra and extra textual functions of speeches and audience responses in Greek historiography Josephus and Acts with special emphasis on Luke s distinctive depiction of the apostles as adaptable yet frequently alienating orators This is volume I of a set of two volumes **The Trial of St. Paul** Harry W. Tajra,2010-12-01
