Spartan Audio Cass:

The Spartan Lady in Red Steve Spencer, 2025-04-11 This is a story of a modern day Spartan Though not a biography it is biographical in the form of anecdotal tales inspired by a life well lived The life and work of Debby House Spencer positively affected folks and communities throughout Appalachia and the mid southern part of the USA Through dogged determination and her mantra of we make things happen she completed hundreds of projects by getting folks to work together Her mental and physical toughness were epic yet simple and stoic thus the Spartan analogy In her honor this book is a celebration of her life not about grieving and her death My method of dealing with her loss has been to write about Debby s anecdotal history and cherished memories from our 42 years together The anecdotes about my best friend lover wife and partner are blended with entries from my journal posted as a blog in the year following her death As a critic and unofficial editor she helped with my earlier book writing efforts She knew that specific truth involving my storytelling was semi twisted As Mark Twain stated A writer should never let the truth stand in the way of a good tale With that said do not assume that this is a work of fiction All the tales happened There are no lies and no fabrications However my memory may be somewhat fogged with age and the numerous blows to my head through the years This book is the result of encouragement by a wide range of folks Some had also lost spouses some only desired to read my tales but many were friends who thought I had some talent Though I question the talent thing writing is how I manage the grieving process from her loss And notice the tense in the previous sentence because memories last a lifetime and grief never ends Understanding that grief will never end does not mean I spend considerable time depressed Rather it is a recognition that life goes on albeit with significant changes *Compute* ,1986

Twenty Years in South Africa Michael J. Lowis,2017-03-28 This book narrates the story of a young family that in the year 1975 made the bold decision to leave the United Kingdom and seek a new life in South Africa Although intending to stay for just a few years they only returned some twenty years later Whilst there they took the opportunity to visit virtually every town and game park and five of the neighboring countries However this was not just an extended holiday but an opportunity to study different cultures and customs Their time there spanned the darkest days of apartheid through the first signs of change sparked by the Soweto Riots to the release of Nelson Mandela the first democratic elections and beyond Thus in addition to this book being partly a travelogue and memoire it is also an eye witness commentary on the highs and lows the good the bad the dangers and the changes that occurred during an eventful time in that unique country It should thus appeal not only the general reader who enjoys a yarn about far away places but also to those interested in social and cultural history
