

SPATIAL POEM

The series of SPATIAL POEM which was started in 1965 and done by now up to No. 3 will be continued under a new project.

This series consists of nine events which include the similar character of space.

And when all of the events are finished, whole reports from the participant will be edited and published in a book, though we just made a map for each of the POEM No. 1, 2, 3.

I hope you would keep participating in this series and your performances over the world would present a poetic panorama.

Spatial Relations Poems:

Spatial Relations Leonora Smith, 2001 Readable and inviting *Spatial Relations* reminds us of the power in everyday places and objects and the mysterious space between them Like the fold up shapes in old junior high school aptitude tests they are both concrete and bewildering The characters and personae in these poems including mythologized versions of Smith's parents yearn for big emotions for high living for what they have tasted and touched loved and lost This is a book that will invite you to remember imagine and laugh more often than you might expect The poems in this collection have a rueful lively sense of humor an underlying impatience with social inequity and a willingness to imagine that things might be playing themselves out differently in some parallel universe Like anyone who has narrowly escaped a life of domestic confinement these poems have a wild streak

The Poem, the Garden, and the World Jim Ellis, 2023-02-15 How an early modern understanding of place and movement are embedded in a performative theory of literature How is a garden like a poem Early modern writers frequently compared the two and as Jim Ellis shows the metaphor gained strength with the arrival of a spectacular new art form the Renaissance pleasure garden which immersed visitors in a political allegory to be read by their bodies movements The Poem the Garden and the World traces the Renaissance era relationship of place and movement from garden to poetry to a confluence of both Starting with the Earl of Leicester s pleasure garden for Queen Elizabeth s 1575 progress visit Ellis explores the political function of the entertainment landscape that plunged visitors into a fully realized golden world a mythical new form to represent the nation Next he turns to one of that garden s visitors Philip Sidney who would later contend that literature s golden worlds work to move us as we move through them reorienting readers toward a belief in English empire This idea would later be illustrated by Edmund Spenser s Faerie Queen as with the pleasure garden both characters and readers are refashioned as they traverse the poem s dreamlike space Exploring the artistic creations of three of the era s major figures Ellis argues for a performative understanding of literature in which readers are transformed as they navigate poetic worlds

Representing Modernist Texts George Bornstein,1991 Literary scholars explore the significant yet largely ignored field of textual and editorial scholarship in the work of modern authors **A Companion to Twentieth-Century Poetry** Neil Roberts,2008-06-09 In the twentieth century more people spoke English and more people wrote poetry than in the whole of previous history and this Companion strives to make sense of this crowded poetical era The original contributions by leading international scholars and practising poets were written as the contributors adjusted to the idea that the possibilities of twentieth century poetry were exhausted and finite However the volume also looks forward to the poetry and readings that the new century will bring The Companion embraces the extraordinary development of poetry over the century in twenty English speaking countries a century which began with a bipolar transatlantic connection in modernism and ended with the decentred heterogeneity of post colonialism Representation of the canonical and the marginal is therefore balanced including the full integration of women poets and feminist approaches and the in depth treatment of post colonial poets from various national traditions Discussion of context intertextualities and formal approaches illustrates the increasing self consciousness and self reflexivity of the period whilst a Readings section offers new readings of key selected texts The volume as a whole offers critical and contextual coverage of the full range of English language poetry in the last century A Poem Containing History Lawrence S. Rainey,1997 A suggestive survey of new approaches to a twentieth century classic **The Pursuit of Harmony** Gustav Heldt,2010-02-28 The Heian court of the late ninth and early tenth centuries represents one of the most innovative and influential periods in the history of Japanese poetry It witnessed the creation of entirely new forms of verse in poetry matches screen poems and officially sponsored anthologies none of which had a precedent in earlier times At the apex of these phenomena lay compilation of the Kokin wakashu Collection of Poems Ancient and Modern whose status as the first imperial anthology of native poetry would make it integral to Japanese court culture for centuries afterward Despite the enormous historical significance of these new forms of poetry and the marked interest displayed by powerful individuals in patronizing them however little sustained attention has been paid to the ties between the practices of producing and performing verse and processes of economic ideological political and social change in this period This book is intended to address such issues through an investigation of the ways in which different members of the court community deployed poems in the pursuit of power
