The Hydra's Tale R. Rawdon Wilson, 2002-05 Imagine a disgusting experience Now think about your response What was it about the moment that made you turn your head that led your lip to curl and nose to wrinkle Disgust has many triggers some obvious others less so What disgusts us is never irrevocably fixed and certain It changes from culture to culture and even at times within a culture This fluidity makes the term disgust at once deadly simple and extremely complex In The Hydra s Tale Robert Rawdon Wilson treats the experience of disgust not from the perspective of the disgusting object in the world but from its representation Disgust marks either a slip over the border of the socially sanctioned or a struggle to keep someone or something from crossing that border Working through the spectrum of human response culture and art Wilson teases out the assumptions that underpin the disgust response

exclusive umbrella on its platform Netflix and Hasbro current rights holder of the Power Rangers brand also announced in late 2021 the development of a Power Rangers TV and film universe spearheaded by Jonathan Entwistle whose dramedy series *The End of the F***ing World* won a Peabody Award and British Academy Television Award for Best Drama Series Power Rangers it seems is trying to grow up In Morphenomenal journalist and lifelong Power Rangers fan Joshua Moore will deliver readers a deeply researched narrative history of Power Rangers from its inception to the present day and offer comprehensive retellings and analysis of milestone moments for the brand and show as well as insights into its still thriving toy line and an adult fandom that yearns for its favorite spandex wearing superheroes to share a bigger piece of the spotlight with the likes of Batman and Wonder Woman Moore will tell this story through a combination of original interviews and existing news coverage academic research and recorded audio and video appearances by cast and crew members from throughout the show's 30 year run

Violence on Television Barrie Gunter, Jackie Harrison, Maggie Wykes, 2003-01-30 Concern about violence on television has been publicly debated for the past 50 years TV violence has repeatedly been identified as a significant causal agent in relation to the prevalence of crime and violence in society Critics have accused the medium of presenting excessive quantities of violence to the point where it is virtually impossible for viewers to avoid it This book presents the findings of the largest British study of violence on TV ever undertaken funded by the broadcasting industry The study was carried out at the same time as similar industry sponsored research was being conducted in the United States and one chapter compares findings from Britain and the U S A The book concludes that it is misleading to accuse all broadcasters of presenting excessive quantities of violence in their schedules This does not deny that problematic portrayals were found But the most gory horrific and graphic scenes of violence were generally contained within broadcasts available on a subscription basis or in programs shown at times when few children were expected to be watching This factual analysis proves that broadcasters were meeting their obligations under their national regulatory codes of practice
