The South American Year Book and Directory, 1915 **America's Other War** Doug Stokes, 2008-02-29 This controversial book maintains that in Colombia the US has long supported a pervasive campaign of state violence directed against both armed insurgents and a wide range of unarmed progressive social forces While the context may change from one decade to the next the basic policies remain the same maintain the pro US Colombian state protect US economic interests and preserve strategic access to oil Colombia is now the third largest recipient of US military aid in the world and the largest by far in Latin America Using extensive declassified documents this book shows that the so called war on drugs and now the new war on terror in Colombia are actually part of a long term Colombian war of state terror that predates the end of the Cold War with US policy contributing directly to the human rights situation in Colombia today Born of War in Colombia Tatiana Sanchez Parra, 2024-04-12 Born of War in Colombia addresses why people born of conflict related sexual

violence remain unseen within transitional justice agendas In Colombia there are generations of children born of conflict related sexual violence across the country Whispers of their presence have traveled outside their communities They also exist within the country's domestic reparations program which entitles them to reparations Drawing on an immersive feminist ethnography with a community that endured a paramilitary confinement the book reveals how a past oriented and harm centered model of transitional justice has converged with a restricted notion of gendered victimhood and the patriarchal politics of reproduction to render the bodies and experiences of people born of conflict related sexual violence unintelligible to those seeking to understand and address the consequences of war in Colombia Agrarian Capitalism, War and Peace in Colombia Jacobo Grajales, 2021-06-16 Based on extensive research conducted in Colombia since 2009 this book addresses the connection between land grabbing and agrarian capitalism as well as the unfulfilled promises of peace and justice While land remains a key resource at the core of many contemporary civil wars the impact of high intensity armed violence on the formation of agrarian capitalism is seldom discussed Drawing on nearly 200 interviews archival research and geographical data this book examines land grabbing and the role of violence in capital with a particular focus on one key actor in the Colombian civil war paramilitary militias This book demonstrates how the intricate ties between armed conflict and economy formation are obscured by the widespread belief that violence is a radical form of action breaking with the normal course of society and disconnected from the legal economy Under this view dispossession is perceived as diametrically opposed to capitalist accumulation This belief is enormously influential in precisely those bureaucratic agencies that are in charge of peacebuilding both domestically and internationally However this narrow view of the relationship between armed violence and capitalism belies the close ties between plunder and lawful profit and obscures the continuity between violent dispossession and the free market By the same token it legitimizes post war inequality in the name of capitalist development The book concludes by arguing that the promotion of radical democracy in the government of land and rural development emerges as the only reasonable path for pacifying a violent polity The book is essential reading for students scholars and development aid practitioners interested in land and resource grabbing agrarian capitalism civil wars and conflict resolution

Selective Security in the War on Drugs Alke Jenss,2023-01-09 Paramilitaries crime and tens of thousands of disappeared persons the so called war on drugs has perpetuated violence in Latin America at times precisely in regions of economic growth Legal and illegal economy are difficult to distinguish A failure of state institutions to provide security for its citizens does not sufficiently explain this Selective Security in the War on Drugs analyzes authoritarian neoliberalism in the war on drugs in Colombia and Mexico It interprets the security projects of the 2000s when the security provided by the state became ever more selective as embedded in processes of land appropriation transformed property relations and global capital accumulation By zooming in on security practices in Colombia and Mexico in that decade and juxtaposing the two contexts

this book offers a detailed analysis of the role of the state in violence To what extent and for whom do states produce order and disorder Which social forces support and drive such state practices Expanding the literature on authoritarian neoliberalism and the coloniality of state power thus linking political economy to postcolonial approaches the book builds a theoretical lens to study state security practices Different social groups enjoying differentiated access to the state influenced the state discourse on crime to very different extents Security practices which oscillated between dispersed organization by a multiplicity of actors and institutionalization with the military materialized as horrific insecurity for social groups thought of as disposable In tendency putting security centerstage disabled dissent The security projects exacerbated contradictions driven by a particular economic model and simultaneously criminalized precisely those that this model had already radically disadvantaged

Least of These--in Colombia Maude Newell Williams, 1918 **Colonize This!** Daisy Hernández, Bushra Rehman, 2019-07-16 Newly revised and updated this landmark anthology offers gripping portraits of American life as seen through the eyes of young women of color It has been decades since women of color first turned feminism upside down exposing the feminist movement as exclusive white and unaware of the concerns and issues of women of color from around the globe Since then key social movements have risen including Black Lives Matter transgender rights and the activism of young undocumented students Social media has also changed how feminism reaches young women of color generating connections in all corners of the country And yet we remain a country divided by race and gender Now a new generation of outspoken women of color offer a much needed fresh dimension to the shape of feminism of the future In *Colonize This* Daisy Hernández and Bushra Rehman have collected a diverse lively group of emerging writers who speak to the strength of community and the influence of color to borders and divisions and to the critical issues that need to be addressed to finally reach an era of racial freedom With prescient and intimate writing *Colonize This* will reach the hearts and minds of readers who care about the experience of being a woman of color and about establishing a culture that fosters freedom and agency for women of all races
