The Single Homemaker and Material Culture in the Long Eighteenth Century David Hussey,Margaret Ponsonby,2016-03-03 The Single Homemaker and Material Culture in the Long Eighteenth Century represents a new synthesis of gender history and material culture studies It seeks to analyse the lives and cultural expression of single men and women from 1650 to 1850 within the main focus of domestic activity the home Whilst there is much scholarly interest in singleness and a raft of literature on the construction and apprehension of the home no other book has sought to bring these discrete studies together Similarly scholarly work has been limited in evaluating gendered consumption practices during the long eighteenth century because of an emphasis on the homes of families Analysing the practices of single people emphasises the differences but also amplifies the similarities in their strategies of domestic life
