(not land masses!)

If the Great Commission is about people, why do we represent it with geographic maps?

Geographic maps show our perception of the task. Maps unpopulated areas look like a priority, while geographically small regions with huge populations like Bangladesh and India are minimized, and the diverse populations of single but large countries like India and China are under-represented. This world map is a cartogram based on 2020 population estimates - every pixel represents 100,000 people, shaded by percentage Evangelical.
