The Hidden Law The Poetry Of W. H. Auden

Eric L. Haralson

The Hidden Law The Poetry Of W H Auden:

The Hidden Law Anthony Hecht, 1993 In this study the fruit of a lifelong critical and imaginative engagement with W H Auden's works Anthony Hecht identifies and traces consistent habits of thought and belief within the poet's extensive and varied writings and through his celebrated conversions and repudiations literary and otherwise Hecht acknowledges that Auden's poems both invite the intrusive scrutiny of the cryptographer and deny him access Yet the readings he offers of poems from every phase of Auden's career along with dramatic works and critical essays manage to explicate and illuminate Auden's rich and often cryptic allusiveness without murdering to dissect Among the themes that connect Auden's works are his deep interest in the workings of language his notion of the ultimate frivolity of art his interest in the nature of heroism his understanding of the relation of public to private life the development of his religious thought and what Auden called the hidden law that governs human existence a strict and retaliatory force something like poetic justice that gives form to our best literature and shapes our personal fates Hecht identifies these preoccupations in Auden's work and shows how they cut across the many genres in which he wrote without losing sight of each poem's individual history and context As one of Auden's most distinguished poetic heirs Anthony Hecht is uniquely qualified to illuminate both the reading and the writing of these essential works of twentieth century literature

W.H. Auden's Poetry R. Victoria Arana, 2009 W H Auden is perhaps the most important English language poet of the 20th century He produced marvelous poems even in his last days However critics and reviewers not only have not recognized the aesthetics of the poetry Auden wrote after 1965 but they have ignored or made prejudiced and disparaging remarks about it thus diverting subsequent critical and popular attention from its remarkable virtues The aim of W H Auden's *Poetry Mythos Theory and Practice* is to clarify Auden's career long interest in poetic theory and above all to show how his changing thoughts about poetry impelled him towards the production of the last three volumes of his verse Because it links the poet's *biographia literaria* and his aesthetic vision this book will appeal to poets as well as to students of writing particularly those interested in the creative process and its correlation to artistic forms Students of 20th century American and British literature will find in these pages a comprehensive survey of Auden's thoughts about his art and the poetry of his predecessors as well as of his contemporaries Teachers of Auden's works will appreciate the strong light such a survey casts on Auden's poetic practice Engineers and architects physicists and biologists cultural critics social scientists philosophers and especially Gestalt psychologists might well enjoy reading about the ways their fields have intersected and influenced the thinking of one of the twentieth century's most brilliant and courageous poets

Auden's Syllabic Verse Richard Hillyer, 2019-12-12 Much of the poetry written by W H Auden between 1939 and the time of his death consists of syllabic verse or lines arranged in accordance with a predetermined syllable count but no fixed number or distribution of stresses This book presents a comprehensive in depth analysis of his many and widely varied syllabics grouping them primarily by the formal sub categories to which they belong as measured by line length stanza type

or some other aspect of their overall design With this approach the book clarifies the dynamic range and technical inventiveness of Auden's syllabics It also shows how his work compares with that of Robert Bridges and Marianne Moore two pioneers in the writing of English syllabic verse he was familiar with Literary Community-Making Roger D. Sell, 2012 The writing and reading of so-called literary texts can be seen as processes which are genuinely communicational They lead that is to say to the growth of communities within which individuals acknowledge not only each other's similarities but differences as well In this new book Roger D Sell and his colleagues apply the communicational perspective to the past four centuries of literary activity in English Paying detailed attention to texts both canonical and non-canonical by Amelia Lanyer Thomas Coryate John Boyle Pope Coleridge Arnold Kipling William Plomer Auden Walter Macken Robert Kroetsch Rudy Wiebe and Lyn Hejinian the book shows how the communicational issues of addressivity commonality dialogicality and ethics have arisen in widely different historical contexts At a metascholarly level it suggests that the communicational criticism of literary texts has significant cultural social and political roles to play in the post-postmodern era of rampant globalization **The Spanish Civil War** Anindya Raychaudhuri, 2013-02-15 This book features cutting-edge interdisciplinary research on the legacy of the Spanish Civil War by established and new scholars from across the world

The Best American Poetry 2001 Robert Hass, 2001 A collection of poetry that offers 2001's finest poems *Encyclopedia of American Poetry: The Twentieth Century* Eric L. Haralson, 2014-01-21 The Encyclopedia of American Poetry The Twentieth Century contains over 400 entries that treat a broad range of individual poets and poems along with many articles devoted to topics schools or periods of American verse in the century Entries fall into three main categories poet entries which provide biographical and cultural contexts for the author's career entries on individual works which offer closer explication of the most resonant poems in the 20th-century canon and topical entries which offer analyses of a given period of literary production school thematically constructed category or other verse tradition that historically has been in dialogue with the poetry of the United States **Shakespeare and the Modern Poet** Neil Corcoran, 2010-04-01 Shakespeare is a major influence on poets writing in English but the dynamics of that influence in the twentieth century have never been as closely analysed as they are in this important study More than an account of the ways in which Shakespeare is figured in both the poetry and the critical prose of modern poets this book presents a provocative new view of poetic interrelationship Focusing on W B Yeats T S Eliot W H Auden Ted Hughes and Sylvia Plath Neil Corcoran uncovers the relationships combative as well as sympathetic between these poets themselves as they are intertwined in their engagements with Shakespeare Corcoran offers many enlightening close readings fully alert to contemporary theoretical debates This original study of influence and reception beautifully displays the nature of poetic influence both of Shakespeare on the twentieth century and among modern poets as they respond to Shakespeare **Selected Poems of Anthony Hecht** Anthony Hecht, 2011-03-22 Alongside Wallace Stevens James Merrill and other pillars of twentieth-century poetry Anthony Hecht joins the Borzoi Poetry series

Hecht whose writing rings with the cadences of the King James Bible and who as an infantryman at the end of World War II participated in the liberation of the concentration camps lived and experienced the best and worst of the twentieth century Readers of this volume the first selected poems to be made from Hecht's seven individual volumes will be captivated by Hecht's dark music and allusions to the literature of the past As J D McClatchy explains in his introduction Hecht was a poet for whom formal elegance was inextricably bound up with the dramatic force thematic ambition and powerful emotions in each poem The rules of his art which he both honored and transformed are moral principles meant finally to reveal the structure of human dilemmas and sympathies This elevated sense of what poetry can accomplish defines our experience of reading Hecht and will ensure his place in the canon for years to come Adam and Eve knew such perfection once God's finger in the cloud and on the ground Nothing but springtime nothing else at all But in our fallen state where the blood hunts For blood and rises at the hunting sound What do we know of lasting since the fall Who has not in the oil and heat of youth Thought of the flourishing of the almond tree The grasshopper and the failing of desire And thought his tongue might pierce the secrecy Of the six pointed starlight and might choir A secret voweled unutterable truth from A Poem for Julia The Cambridge History of American Literature: Volume 8, Poetry and Criticism, 1940-1995 Sacvan Bercovitch, Cyrus R. K.

Patell, 1994 Multi volume history of American literature **International Who's Who in Poetry 2005** Europa Publications, 2004 Provides up to date profiles on the careers of leading and emerging poets **Against Coercion** Eleanor Cook, 1998 This book looks at how poems work showing how they speak to historical ethical and aesthetic questions It also demonstrates how to read poetry how to go beyond an elementary approach to recover the sheer pleasure of good poems

Collected Poems of Anthony Hecht Anthony Hecht, 2023-11-07 The New York Times Book Review Editors Choice In his centenary year this volume of the Pulitzer Prize winner and former poet laureate's poems celebrates the indispensable artistry of a writer who faced the history of his era with a clear eyed mercy toward human weakness The New York Times Book Review and was hailed in his day as the best poet writing in English Joseph Brodsky This volume brings together for the first time all of the poems that appeared in Anthony Hecht's seven trade collections from A Summoning of Stones of 1954 through to The Darkness and the Light of 2001 it adds the remarkable work contained in his posthumously issued Interior Skies Late Poems from Liguria of 2011 and it rounds this out with the best of the many poems which were left uncollected at the time of his death in 2004 the earliest dating from 1950 and the latest from 2001 Including the woodcuts by Leonard Baskin that accompanied some of his pieces through the years Collected Poems brings us the full sweep of the experience and artistry of Anthony Hecht who as an infantryman in World War II bore witness to the shaping events of his time which continue to shape our own As the editor Philip Hoy states in his introduction Anthony Hecht once wrote that poems can allow us to contemplate our sweetest triumphs and our deepest desolations and by employing the manifold devices of art to recover for us what he memorably called the inexhaustible plenitude of the world The work gathered together here amply attests to

the truth of that claim and makes it clear that Hecht was one of the finest poets not just of his generation but of the twentieth century *English Writers* B. A. Sheen, 2004 *English Writers A Bibliography with Vignettes* *Romantic Presences in the Twentieth Century* Mark Sandy, 2016-04-08 Concerned with the intermingled thematic and formal preoccupations of Romantic thought and literary practice in works by twentieth century British Irish and American artists this collection examines the complicated legacy of Romanticism in twentieth century novels poetry and film Even as key twentieth century cultural movements have tried to subvert or debunk Romantic narratives of redemptive nature individualism perfectibility and the transcendence of art the forms and modes of feeling associated with the Romantic period continue to exert a signal influence on the modern moment both as a source of tension and as creative stimulus As the essays here show the exact meaning of the Romantic bequest may be bitterly contested but it has been difficult to leave behind The contributors take up a wide range of authors including Virginia Woolf F Scott Fitzgerald W H Auden Doris Lessing Seamus Heaney Hart Crane William Faulkner Don DeLillo and Jonathan Franzen What emerges from this lively volume is a fuller picture of the persistence and variety of the Romantic period s influence on the twentieth century **Staging the Lyric** Sarah Berry, 2024-11-14 Verse drama is not a dead form but very much alive on the contemporary stage Drawing on plays from throughout the English speaking world including the United States United Kingdom Ireland and the Caribbean Staging the Lyric seeks to explain the 21st century resurgence of Anglophone verse drama tracing it back to an experimental impulse that is present in the modernist verse drama of a century ago Covering major writers including Derek Walcott Seamus Heaney Sylvia Plath Samuel Beckett Dorothy Sayers Djuna Barnes and Ntozake Shange it also encompasses lesser known and more recent poets and playwrights This modern verse drama differs from its ancient and Elizabethan antecedents as it is understood not as a genre in its own right but as a hybrid of the lyric and the dramatic Both modernist and contemporary writers take advantage of this hybridity as fertile ground for experimentation While they differ in their ideology and form this book contends that they are united by exploring the relationship between lyric and dramatic elements on stage and what these two different modes afford To demonstrate this continuity it traces a genealogy from contemporary plays by Joanna Laurens Joyelle McSweeney and David Grieg back to W B Yeats Gertrude Stein T S Eliot and W H Auden to reveal that the tensions that animate verse drama have stayed the same even as the strategies for staging them have evolved The book is divided into three sections Voice Words and Time each treating one feature that has been used to define the lyric Within these sections the chapters compare contemporary plays with modernist ones that experiment with the same point of tension between the lyric and the dramatic Great Shakespeareans Set III Adrian Poole, Peter Holland, 2014-09-11 *Great Shakespeareans* presents a systematic account of those figures who have had the greatest influence on the interpretation understanding and cultural reception of Shakespeare both nationally and internationally This major project offers an unprecedented scholarly analysis of the contribution made by the most important Shakespearean critics editors actors and

directors as well as novelists poets composers and thinkers from the seventeenth to the twentieth century An essential resource for students and scholars in Shakespeare studies

Collected Later Poems of Anthony Hecht Anthony Hecht, 2009-03-04 Anthony Hecht now in his eightieth year has earned a place alongside such poets as W H Auden Robert Frost and Elizabeth Bishop Here under one cover are his three most recent collections *The Transparent Man* *Flight Among the Tombs* and *The Darkness and the Light* The perfect companion to his *Collected Earlier Poems* continuously in print since 1990 this book brings the eloquent sound of Hecht's music to bear on a wide variety of human dramas from a young woman dying of leukemia to the tangled love affairs of *A Midsummer Night's Dream* from Death as the director of Hollywood films to the unexpected image of Marcel Proust as a figure skater He glides with a gaining confidence inscribes Tentative passages thinks again backtracks Comes to a minute point Then wheels about in widening sweeps and lobes Large Palmer cursives and smooth entrelacs Preoccupied intent On a subtle long drawn style and pliant script Incised with twin steel blades and qualified Perfectly to express With arms flung wide or gloved hands firmly gripped Behind his back attentively clear eyed A glancing happiness

Yeats as Precursor S. Matthews, 2000-01-27 As both a late Romantic and a modern W B Yeats has proved to be perhaps the most influential poet of the early twentieth century In this original study Steven Matthews traces through close readings of significant poems the flow of Yeatsian influence across time and cultural space By engaging with the formalist criticism of Harold Bloom and Paul de Man in their dialogues with Jacques Derrida he also considers Yeats's significance as the founding presence within the major poetry criticism of the century

Brodsky in English Zakhar Ishov, 2023-08-15 A deeply researched account of Joseph Brodsky's evolution in English as a self translator and a poet in translation Joseph Brodsky's translations of his own Russian language poems into English new originals have been criticized for their un-Englishness an appraisal based on a narrow understanding of translation itself With this radical reassessment of the Nobel Prize winner's self translations Zakhar Ishov proposes a fresh approach to poetry translation and challenges the assumption that poetic form is untranslatable Brodsky in English draws on previously unexamined archival materials including drafts and correspondence with translators and publishers to trace the arc of Brodsky's experience with the English language Ishov shows how Brodsky's belief in the intellectual continuity between his former life in the Soviet Union and his new career in the United States including as Poet Laureate anchored his insistence on maintaining the formal architecture of his poems in translation locating the transmission of poetic meaning in the rhythms of language itself This book highlights Brodsky's place within the long history of the compromises translation must make between linguistic material and poetic process
