Godden, 1964 Lists over 4000 British ceramic marks It is arranged in alphabetical order of potters names Includes pictorial index **Ceramic Makers' Marks** Erica Gibson, 2016-06-16 This book provides a catalogue of ceramic makers marks of British French German and American origin found in North American archaeological sites Consisting of nearly 350 marks from 112 different manufacturers from the mid 19th through early 20th century this catalog provides full information on the history of a mark and its variants as well as details about the manufacturer The indexes allow for searches by city country state graphic element mark type word and maker *Encyclopaedia of British Pottery and Porcelain Marks* Geoffrey Arthur Godden, 1968 **The Oxford Handbook of Industrial Archaeology** Eleanor Casella, Michael Nevell, Hanna Steyne, 2022 Through international and multi period chapters this volume explores the origins and development of industrialization from its emergence in 18th century Europe to its contemporary ubiquity It interrogates the widespread exploitation of natural resources that forged industrialization and its environmental and social legacy in our globalized world *Reader's Guide to Great Britain*, 1977 **Design History** Hazel Conway, 2006-08-21 Hazel Conway introduces the student new to the subject to different areas of design history and shows some of the ways in which it can be studied and some of its delights and difficulties No background knowledge of design history art or architecture is assumed Ceramics and Globalization Neil Ewins, 2017-05-04 Neil Ewins study of the Staffordshire potteries in a period of great global change traces how ceramics production has been affected by globalisation in both familiar and unexpected ways Although many manufacturers such as Wedgwood initially moved production to cheaper labour markets in East Asia others remained in or returned to England once it became clear that outsourcing manufacturing was affecting the brand value and customer perception of their products Neil Ewins explores the complex behaviour of the UK ceramics industry using a combination of evidence from the press trade

journals ceramic objects and primary interview evidence of manufacturers retailers and a ceramic designer Ewins suggests that although the surface designs of UK ceramics invariably reflect diverse cultural and stylistic influences a notion of authenticity often still resides in the place and context in which the ceramic product was originally made Overall the book argues that UK ceramics remain culturally complex because of issues of supply and demand and ties to heritage imagined or otherwise Within a context of globalization the book highlights compelling issues which have huge ramifications on UK manufacturing futures
