Kgatle,2019-11-27 This book critically examines contemporary Pentecostalism in South Africa and its influence on some of the countries that surround it Pentecostalism plays a significant role in the religious life of this region and so evaluating its impact is key to understanding how religion functions in Twenty First Century Africa Beginning with an overview of the roots of Pentecostalism in Southern Africa the book moves on to identify a current fourth wave of this form of Christianity It sets out the factors that have given rise to this movement and then offers the first academic evaluation of its theology and practice Positive aspects as well as extreme or negative practices are all identified in order to give a balanced and nuanced assessment of this religious group and allow the reader to gain valuable insight into how it interacts with wider African society This book is cutting edge look at an emerging form of one of the fastest growing religions in the world It will therefore be of great use to scholars working in Pentecostalism Theology Religious Studies and African Religion as well as African Studies more generally      *CCDA Theological Journal, 2012 Edition* Chris Jehle,2013-08-28 The Theological Journal is designed to enable our practitioners to capably integrate theological concepts into their practice The articles are written by CCDA members and will challenge us to go deeper theologically while giving us language that will allow us to dialogue

Lettres After a century during which Confucianism was viewed by academics as a relic of the imperial past or at best a philosophical resource its striking comeback in Chinese society today raises a number of questions about the role that this ancient tradition might play in a contemporary context The Sage and the People is the first comprehensive enquiry into the Confucian revival that began in China during the 2000s Based on extensive anthropological fieldwork carried out over eight years in various parts of the country it explores the re appropriation and reinvention of popular practices in fields as diverse as education self cultivation religion ritual and politics The book analyzes the complexity of the Confucian revival within the broader context of emerging challenges to such categories as religion philosophy and science that prevailed in modernization narratives throughout the last century Exploring state cults both in Mainland China and Taiwan authors S bastien Billioud and Jo l Thoraval compare the interplay between politics and religion on the two shores of the Taiwan strait and attempt to shed light on possible future developments of Confucianism in Chinese society      God, Just Tell Me What to Do Michael

Youssef,2014-08-01 The epistle of James is unusual in tone and content among the New Testament letters containing many moral precepts and challenging readers to seek godly wisdom on such topics as poverty and richestrals and

temptation hearing and obeying the Word of God faith versus work stamming the tongue friendship with the world versus friendship with God patience in suffering The wisdom of this letter speaks to us across the ages as every issue James addresses is as urgent and timely today as when he first wrote it For the person who wants to be wise time spent soaking up the wisdom of James the half brother of Jesus is time wisely spent      **Federation Bulletin** ,1927      **Get a Grip** Douglas Weiss,2006 In this no nonsense relevant book Weiss helps readers identify and discern the sources of their worst behaviors Using stories case studies personal experience Scripture and anecdotes he makes strong points about emotional and psychological roots and the need for change      Elements of African Traditional Religion Elia Shabani Mligo,2013-08-02 African Traditional religion ATR is one of the world religions with a great people and a great past It is embraced by Africans within and outside the continent despite the various ethnic religious practices and beliefs This book highlights and discusses the common elements which introduce African Traditional Religion as one unified religion and not a collection of religions The major focus of the book is discussing the need for studying ATR in twenty first century Africa whereby globalization and multi culture are prominent phenomena Why should we study the religion of the African natives in this age In response to this question the book argues that since ATR is part of the African people s culture there is a need to understand this cultural background in order to contextualize Christian theology Using some illustrations from Nyumbanitu worship shrine located at Njombe in Tanzania the book purports that there is a need to understand African people s worldview their understanding of God their religious values symbols and rituals in order to enhance meaningful dialogue between Christianity and African people s current worldview In this case the book is important for students of comparative religion in universities and colleges who strive to understand the various religions and their practices      **Daily Bread of Life** Sheri DeLoach,2017-08-15 Personal insights of how to enhance scripture into our daily life      *Églises et santé dans le Tiers Monde.
