 Arvey Foundation Book Award Association for Latin American Art 2018 Many Latin American artists and critics in the 1920s drew on the values of modernism to question the cultural authority of Europe Modernism gave them a tool for coping with the mobility of their circumstances as well as the inspiration for works that questioned the very concepts of the artist and the artwork and opened the realm of art to untrained and self taught artists artisans and women Writing about the modernist works in newspapers and magazines critics provided a new vocabulary with which to interpret and assign value to the expanding sets of abstracted forms produced by these artists whose lives were shaped by mobility The Mobility of Modernism examines modernist artworks and criticism that circulated among a network of cities including Buenos Aires Mexico City Havana and Lima Harper Montgomery maps the dialogues and relationships among critics who published in avant gardist magazines such as Amauta and Revista de Avance and artists such as Carlos M rida Xul Solar and Emilio Pettoruti among others who championed esoteric forms of abstraction She makes a convincing case that for these artists and critics modernism became an anticolonial stance which raised issues that are still vital today the tensions between the local and the global the ability of artists to speak for blighted or unincorporated people and above all how advanced art and its champions can enact a politics of opposition Art and Revolution in Latin America, 1910-1990 David Craven, 2006-01-01 In this uniquely wide ranging book David Craven investigates the extraordinary impact of three Latin American revolutions on the visual arts and on cultural policy The three great upheavals in Mexico 1910 40 in Cuba 1959 89 and in Nicaragua 1979 90 were defining moments in twentieth century life in the Americas Craven discusses the structural logic of each movement s artistic project by whom how and for whom artworks were produced and assesses their legacies In each case he demonstrates how the consequences of the revolution reverberated in the arts and cultures far beyond national borders The book not only examines specific artworks originating from each revolution s attempt to deal with the challenge of socializing the arts but also the engagement of the working classes in Mexico Cuba and Nicaragua with a tradition of the fine arts made newly accessible through social transformation Craven considers how each revolution dealt with the pressing problem of creating a dialogical art one that reconfigures the existing artistic resource rather than one that just reproduces a populist art to keep things as they were In addition the author charts the impact on the revolutionary processes of theories of art and education articulated by such thinkers as John Dewey and Paulo Freire The book provides a fascinating new view of the Latin American revolutionaries from artists to political leaders who defined art as a fundamental force for the transformation of society and who bequeathed new ways of thinking about the relations among art ideology and class within a revolutionary process **Leopoldo Méndez** Deborah Caplow, 2007-12-01 Monografie over leven en werk van de Mexicaanse
