Sir Richard Westmacott Sculptor:

Sir Richard Westmacott, Sculptor Marie Busco, 1994 The first full length study of the nineteenth century sculptor Sir Richard Westmacott The Sculptor Sir Richard Westmacott (1775-1856) Marie F. Busco, 1990 **Library of the Late Sir Richard Westmacott, R.A., and Professor of Sculpture** Sotheby's (Firm), 1857 **Public Sculpture of Staffordshire and the Black Country** George Thomas Noszlopy, Fiona Waterhouse, 2005-01-01 The Black Country is an area historically known as the cradle of the Industrial Revolution a thriving regioin built around deep coal seams conjuring up images of fiery red furnaces by night and black sooty citadels by day Yet today the resource rich region also features many striking public sculptures This volume provides a comprehensive catalog to all of the historic sculptures and public monuments in Staffordshire and the Black Country George Noszlopy and Fiona Waterhouse catalog each individual sculpture in detail including information about the sculptor the sculpture s historical and artistic significance the commissioning agent and the date of installation The volume also features 350 black and white photographs that document the diverse and rich beauty of the region s public monuments The ninth volume in the widely acclaimed award winning Public Sculpture of Britain series Public Sculpture of Staffordshire and the Black Country is an invaluable resource for British historians art scholars and travelers alike British Sculpture and the Company Raj Barbara S. Groseclose, 1995 The British Raj a Sanskrit based word meaning dominion or empire which has taken on a wholly Victorian flavor as a result of popular films and books actually began in piecemeal fashion when the East India Company developed settlements in Madras Calcutta and Bombay during the seventeenth century As these small enclaves grew into cities the British tried hard to give them the look and feel of the country they had left behind Barbara Groseclose examines British public statuary and church monuments in India from the standpoint of its function in regard to the British themselves Arguing that doubts and anxieties as well as assumptions about their own place in Indian life bear strongly on the roles and achievements for which the British sought or received commemoration she analyzes the British self characterizations of victor administrator scholar and benefactor in sculptural imagery Her close scrutiny of these largely forgotten works of art reveals the crucial part they played in helping the British to explain and justify empire to themselves But the author s sense of the inherently ambivalent nature of the colonizer colonized relationship prevents this book from becoming simply a platform for the indictment of imperialists or for an insistence on the wholesale victimization of their subjects Rather Groseclose discerns in this art some of the complicated emotional undertones simultaneously shaping and destabilizing the attempted economic and intellectual domination of India
