Sisters And Strangers Women In The Shanghai Cotton Mills 1919 1949:

Sisters and Strangers Emily Honig, 1992-03-01 In Shanghai China's largest industrial center prior to 1949 cotton was king and the majority of mill workers were women This book presents rich information on all aspects of the life of this group of urban workers Book jacket *Childbirth in Republican China* Tina Phillips Johnson, 2011-09-16 *Childbirth in Republican China* Delivering Modernity 1911 1949 is the study of a pivotal period in which traditional midwifery marked by private unregulated old style midwives was transformed into modern midwifery through the adoption of a highly medicalized and state sponsored birth model that is standard in urban China today In the twentieth century biomedical technologies altered the process of childbirth on virtually every level What had been a matter of private interest focusing on the family and lineage became a national priority a symbol of the new citizen who would participate in the creation of a revitalized nation This transformation of reproduction coalesces with the broader story of China's twentieth century revolutions marked by an emphasis on science and modernity The roles of the state and of western medical personnel were paramount in affecting these changes but equally important are the intense social and cultural shifts that occurred simultaneously The dominant themes of reproduction in twentieth century China are characterized by expanding state involvement shifting gender roles escalating consumption patterns accompanying the commercialization of private lives and the increasing medicalization of the birth process **Women and Gender in Twentieth-Century China** Paul J. Bailey, 2012-08-29 Paul J Bailey provides

the first analytical study in English of Chinese women's experiences during China's turbulent twentieth century Incorporating the very latest specialized research and drawing upon Chinese cinema and autobiographical memoirs this fascinating narrative account Explores the impact of political social and cultural change on women's lives and how Chinese women responded to such developments Charts the evolution of gender discourses during this period Illuminates both change and continuity in gender discourse and practice Approachable and authoritative this is an essential overview for students teachers and scholars of gender history and anyone with an interest in modern Chinese history Republican Beijing Madeleine Yue Dong, 2003-08-04 Old Beijing has become a subject of growing fascination in contemporary China since the 1980s While physical remnants from the past are being bulldozed every day to make space for glass walled skyscrapers and towering apartment buildings nostalgia for the old city is booming Madeleine Yue Dong offers the first comprehensive history of Republican Beijing examining how the capital acquired its identity as a consummately traditional Chinese city For residents of Beijing the heart of the city lay in the labor intensive activities of recycling a primary mode of material and cultural production and circulation that came to characterize Republican Beijing An omnipresent process of recycling and re use unified Beijing's fragmented and stratified markets into one circulation system These material practices evoked an air of nostalgia that permeated daily life Paradoxically the old Beijing toward which this nostalgia was directed was not the imperial capital of the past but the living Republican city Such nostalgia toward the present the author argues

was not an empty sentiment but an essential characteristic of Chinese modernity *Beyond Citizenship: Literacy and Personhood in Everyday China, 1900-1945* Di Luo,2022-09-19 *Beyond Citizenship* focuses on the role of literacy in building a modern nation state by examining the government provision of adult literacy training in early twentieth century China Based on untapped archives and diaries Di Luo uncovers people s strategic use of literacy and illiteracy in social interactions and explores the impact of daily experiences on the expansion of state power Highlighting interpersonal and intergroup relations *Beyond Citizenship* suggests a new methodology of studying literacy which foregrounds the agentive role of historical actors and so moves away from a more traditional approach that treats literacy itself as the key factor enabling social change

Reilly,2020-09-18 While Protestant Christians made up only a small percentage of China s overall population during the Republican period they were heavily represented among the urban elite Protestant influence was exercised through churches hospitals and schools and reached beyond these institutions into organizations such as the YMCA Young Men s Christian Association and YWCA Young Women s Christian Association The YMCA s city associations drew their membership from the urban elite and were especially influential within the modern sectors of urban society Chinese Protestant leaders adapted the social message and practice of Christianity to the conditions of the republican era Key to this effort was their belief that Christianity could save China that is that Christianity could be more than a religion focused on saving individuals but could also save a people a society and a nation *Saving the Nation* recounts the history of the Protestant elite beginning with their participation in social reform campaigns in the early twentieth century continuing through their contribution to the resistance against Japanese imperialism and ending with Protestant support for a social revolution The story Thomas Reilly tells is one about the Chinese Protestant elite and the faith they adopted and adapted Social Christianity But it is also a broader story about the Chinese people and their struggle to strengthen and renew their nation to build a New China *The Columbia Guide to Modern Chinese History* R. Keith Schoppa,2000-08-05 China the world s oldest and most populous state remains an enigma to most people in the West even at a time when that country is playing an increasingly prominent role on the international stage At the heart of modern Chinese history have been the efforts of the Chinese people to transform their polity into a modern nation state the Confucian orthodoxy into an ideology that can help direct that process and an agrarian economy into an industrial one These efforts are ongoing and of great importance This book is both an introduction to the major features of modern Chinese history and a resource for researchers interested in virtually any topic relating to the Chinese experience of the last 220 years This valuable reference contains a historical narrative providing a comprehensive overview of five core aspects of Chinese history domestic politics society the economy the world of culture and thought and

Britain in China Robert Bickers, 2017-03-01 This is a study of Britain's presence in China both at its peak and during its inter war dissolution in the face of assertive Chinese nationalism and declining British diplomatic support Using archival materials from China and records in Britain and the United States the author paints a portrait of the traders missionaries businessmen diplomats and settlers who constituted Britain in China challenging our understanding of British imperialism there Bickers argues that the British presence in China was dominated by urban settlers whose primary allegiance lay not with any grand imperial design but with their own communities and precarious livelihoods This brought them into conflict not only with the Chinese population but with the British imperial government The book also analyzes the formation and maintenance of settler identities and then investigates how the British state and its allies brought an end to the reign of freelance settler

Workers at War Joshua H. Howard,2004-09-29 This book focuses on the lives struggles and contrasting perspectives of the 60 000 workers military administrators and technical staff employed in the largest most strategic industry of the Nationalist government the armaments industry based in the wartime capital Chongqing The author argues that China's arsenal workers participated in three interlocked conflicts between 1937 and 1953 a war of national liberation a civil war and a class war The work adds to the scholarship on the Chinese revolution which has previously focused primarily on rural China showing how workers alienation from the military officers directing the arsenals eroded the legitimacy of the Nationalist regime and how the Communists mobilized working class support in Chongqing Moreover in emphasizing the urban working class and nationalist components of the 1949 revolution the author demonstrates the multiple sources of workers identities and thus challenges previous studies that have exclusively stressed workers particularistic or regional identities
