*Evidence-Based Group Work in Community Settings* David E. Pollio, Mark J. Macgowan, 2013-09-13 There has been a strong recent trend towards incorporating evidence into Social Work practice in general and into group work in particular This trend has focused on the education of students in the use of evidence development of evidence based interventions and discussion of how evidence can be used to improve practice A limitation of most of this literature is that it has been written by researchers for the consumption of practitioners limiting the ability of evidence based practices to be incorporated into unique community settings and with specific populations In spite of this difficulty implementation of evidence based practices continues quietly in practice settings This book describes efforts to integrate evidence into community settings which have two foci The first part details group models developed through collaborations between researchers and community agencies Each chapter details efforts to implement research or review programs in community settings The second part deals with issues around instruction and dissemination of evidence based group work into practice settings The volume makes a significant contribution to the discussion about evidence based group work This book was published as a special issue of *Social Work with Groups*

Casmir, 2013-10-16 Concern with various matters related to humans as they communicate has led to an increase in both research and theorizing during the second half of the 20th century As a matter of fact so many scholars and so many disciplines have become involved in this process that it is virtually impossible to understand and appreciate all that has been accomplished so far This book focuses on one important aspect of human sense making theory building and strives to clarify the thesis that theories do not develop in some sort of social intellectual or cultural vacuum They are necessarily the products of specific times insights and mindsets Theories dealing with the process of communication or communicating are tied to socio cultural value systems and historic factors that influence individuals in ways often inadequately understood by those who use them The process orientation of this book inevitably leads to an emphasis on the perceptions of human beings Thus the focus shifts from the subject or area called communication to the act of communicating Finally this volume offers insight into how the process of human sense making has evolved in those academic fields commonly identified as communication rhetoric speech communication or speech within specific socio cultural settings **Soul Works** Linda Greyman, Soul Works is your wake up call and your personal guide meant to illuminate your soul tap into your intuition and improve your mental and emotional well being Developed by The Minds Journal Soul Works is a collection of hand picked articles written by mental health experts life coaches and authors from around the world It also features some of the best thoughts from The Minds Journal Community of awake and inspired individuals from all walks of life In these pages you ll discover How to listen to what your soul is telling you How to find your
