in mind the chapter on entrepreneurship provides a sharp point of emphasis To create or extract value economically is the essence of entrepreneurship According to this definition entrepreneurs are those who seek out new opportunities and are willing to take risks beyond those typically associated with launching a firm An entrepreneur is someone who takes on the primary responsibility for starting up and running a firm as well as the majority of the financial risk Entrepreneurship refers to the actions taken to establish a company The entrepreneur is often credited with introducing novel products services and methods to the market Entrepreneurship has been defined in more limited ways as the capacity and willingness to develop organize and manage a business venture along with any of its risks to make a profit or as the process of designing launching and running a new business which is often similar to a small business Entrepreneurs are the folks who come up with these company ideas In spite of the fact that most definitions of entrepreneurship center on the creation and management of new firms many new ventures fail due to lack of money poor business choices government regulations an economic crisis a lack of market demand or a combination of all of these
