

The Song Of Pan

*Mad with love and laden
With immortal pain,
Pan pursued a maiden--
Pan, the god--in vain.*

*For when Pan had nearly
Touched her, wild to plead,
She was gone--and clearly
In her place a reed!*

*Long the god, unwitting,
Through the valley strayed;
Then at last, submitting,
Cut the reed, and made,*

*Deftly fashioned, seven
Pipes, and poured his pain
Unto earth and heaven
In a piercing strain.*

*So with god and poet;
Beauty lures them on,
Flies, and ere they know it
Like a wraith is gone.*

*Then they seek to borrow
Pleasure still from wrong,
And with smiling sorrow
Turn it to a song.*

Harper,2024-11-01 This title was first published in 2003 The secular song of the 17th century represents a relatively neglected area of German culture In this book Anthony J Harper first studies the songs of the two great models of the time Martin Opitz and Paul Fleming following this with an analysis of the song books and collections from three regions the North East Central Germany and the North The procedure is thus both historical and geographical The texts of these songs are examined in relation to structural principles thematic range and stylistic treatment Harper establishes common features and regional variations of this genre which involves love poetry songs of manners with colourful portrayals of everyday life and comic songs in a lower stylistic register Particular attention is paid to the work of Albert and Dach in Konigsberg Finckelthaus Schirmer Krieger and Schoch in Leipzig and Dresden and Rist Voigtlander Zesen Grefflinger and Stieler in the Hamburg region Where appropriate the book assesses the role of musical settings while not seeking to offer technical insights into musical matters Of value to scholars of German literature this study should also be of interest to musicologists working on the Renaissance and Baroque periods

S. Eliot: Volume I** T. S. Eliot,2018-12-04 The first volume of the first paperback edition of *The Poems of T S Eliot* This two volume critical edition of T S Eliot s poems establishes a new text of the *Collected Poems* 1909 1962 rectifying

accidental omissions and errors that have crept in during the century since Eliot's astonishing debut *The Love Song of J. Alfred Prufrock*. In addition to the masterpieces *The Poems of T. S. Eliot* contains the poems of Eliot's youth which were rediscovered only decades later, poems that circulated privately during his lifetime and love poems from his final years written for his wife Valerie. Calling upon Eliot's critical writings as well as his drafts, letters and other original materials, Christopher Ricks and Jim McCue have provided a commentary that illuminates the imaginative life of each poem. This first volume respects Eliot's decisions by opening with his *Collected Poems 1909-1962* as he arranged and issued it shortly before his death. This is followed by poems uncollected but either written for or suitable for publication and by a new reading text of the drafts of *The Waste Land*. The second volume opens with the two books of verse of other kinds that Eliot issued: *Old Possum's Book of Practical Cats* and *Anabasis*, his translation of St. John Perse's *Anabase*. Each of these sections is accompanied by its own commentary. Finally, pertaining to the entire edition, there is a comprehensive textual history that contains not only variants from all known drafts and the many printings but also extended passages amounting to hundreds of lines of compelling verse.

Poetry and the Thought of Song in Nineteenth-Century Britain Elizabeth K. Helsinger, 2015-09-09. In arguing for the crucial importance of song for poets in the long nineteenth century, Elizabeth Helsinger focuses on both the effects of song on lyric forms and the mythopoetics through which poets explored the affinities of poetry with song. Looking in particular at individual poets and poems, Helsinger puts extensive close readings into productive conversation with nineteenth-century German philosophic and British scientific aesthetics. While she considers poets long described as musical: Alfred Lord Tennyson, Gerard Manly Hopkins, Emily Brontë and Algernon Charles Swinburne, Helsinger also examines the more surprising importance of song for those poets who rethought poetry through the medium of visual art: Dante Gabriel Rossetti, William Morris and Christina Rossetti. In imitating song's forms and sound textures through lyric's rhythm, rhyme and repetition, these poets were pursuing song's thought in a double sense. They not only asked readers to think of particular kinds of song as musical sound in social performance: ballads, national airs, political songs, plainchant, but also invited readers to think like song: to listen to the sounds of a poem as it moves minds in a different way from philosophy or science. By attending to the formal practices of these poets, the music to which the poets were listening and the stories and myths out of which each forged a poetics that aspired to the condition of music, Helsinger suggests new ways to think about the nature and form of the lyric in the nineteenth century.
