Jacques Maritain

St Thomas And Philosophy:

The Christian Philosophy of St. Thomas Aquinas Etienne Gilson, 1994-03-31 In this final edition of his classic study of St Thomas Aquinas Etienne Gilson presents the sweeping range and organic unity of Thomistic philosophical thought The philosophical thinking of Aquinas is the result of reason being challenged to relate to many theological conceptions of the Christian tradition Gilson carefully reviews how Aquinas grapples with the relation itself of faith and reason and continuing through the existence and nature of God and His creation the world and its creatures especially human beings with their power of intellect will and moral life He concludes this study by discussing the life of people in society along with their purpose and final destiny Gilson demonstrates that Aquinas drew from a wide spectrum of sources in the development of his thought from the speculations of the ancient Greeks such as Aristotle to the Arabic and Jewish philosophers of his time as well as from Christian writers and scripture The Christian Philosophy of St Thomas Aquinas offers students of philosophy and medieval studies an insightful introduction to the thought of Aquinas and the Scholastic philosophy of the Middle Ages insights that are still relevant for today

St. Thomas Aquinas' Philosophy Battista Mondin, 2012-12-06 *Introduction to the Philosophy of St. Thomas Aquinas, Volume 3* H. D. Gardeil, 2009-11-01 Indispensable to a technical knowledge of the workings of God in the soul is a scientific grasp of human nature In an admirably clear and concise form such an exposition of psychology has been provided for us by Father Gardeil Writing his book around a judicious selection of texts from all the works of St Thomas and following the order of the De Anima of Aristotle Father Gardeil supplies us with a volume which fits as easily into the hands of the natural scientist as into the hands of the theologian Cross and Crown Briefly this volume is an excellent contribution to a modern field of intellectual thought which direly needs the illumination and guidance of the Doctor Communis Beyond a doubt this volume is a must for all Catholic philosophy teachers Dominicanana

The Philosophy of Saint Thomas Aquinas Stephen L. Brock, 2015-09-23 If Saint Thomas Aquinas was a great theologian it is in no small part because he was a great philosopher And he was a great philosopher because he was a great metaphysician In the twentieth century metaphysics was not much in vogue among either theologians or even philosophers but now it is making a comeback and once the contours of Thomas's metaphysical vision are glimpsed it looks like anything but a museum piece It only needs some dusting off Many are studying Thomas now for the answers that he might be able to give to current questions but he is perhaps even more interesting for the questions that he can raise regarding current answers about the physical world about human life and knowledge and needless to say about God This book is aimed at helping those who are not experts in medieval thought to begin to enter into Thomas's philosophical point of view Along the way it brings out some aspects of his thought that are not often emphasized in the current literature and it offers a reading of his teaching on the divine nature that goes rather against the drift of some prominent recent interpretations

[Saint Thomas and the Problem of Evil](#) Jacques Maritain, 1942

Summa of the Summa Peter Kreeft, 2011-03-01 Saint Thomas Aquinas is universally

recognized as one of the greatest philosophers who ever lived His writings combine the two fundamental ideals of philosophical writing clarity and profundity He is a master of metaphysics and technical terminology yet so full of both theoretical and practical wisdom He is the master of common sense His major work the Summa Theologica is timeless but particularly important today because of his synthesis of faith and reason revelation and philosophy and the Biblical and the classical Greco Roman heritages This unique book combines selected essential philosophical passages from Thomas Summa with footnotes and explanations by Kreeft a popular Thomist teacher and writer Kreeft selected those passages from Thomas that are intrinsically important non technical enough to be intelligible to modern readers and most likely to be used in a class or by independent readers who want to study the Summa on their own Kreeft s detailed footnotes explain difficult or technical passages and call attention to points of particular significance for the modern reader This book is the most intelligent clear and useful access to Saint Thomas in print Includes a glossary and an index This book differs from all other books on Saint Thomas because it gives the words of Thomas himself not a modern summary but pared down to essentials and with footnotes which do what a professor in a class would do Peter Kreeft *The Philosophy of St. Thomas Aquinas* Étienne Gilson,1971 **The Philosophy of St. Thomas Aquinas** Hans Meyer,1948 **St. Thomas Aquinas** Ralph McInerny,1982 St Thomas Aquinas enables the reader to appreciate both Thomas s continuity with earlier thought and his creative independence After a useful account of the life and work of St Thomas McInerny shows how the thoughts of Aristotle Boethius and Augustine and Pseudo Dionysius were assimilated into the personal wisdom of St Thomas He also offers a helpful study of the distinctive features of Aquinas s Christian theology *The Political Ideas of St. Thomas Aquinas* Thomas Aquinas,1997-10-01 Originally published in The Hafner Library of Classics in 1953 The Political Ideas of St Thomas Aquinas provides important insights into the human side of one of the most influential medieval philosophers St Thomas Aquinas c 1226 1274 is recognized for having synthesized Christian theology with Aristotelian metaphysics and for his spirited philosophical defense of Christianity that was addressed to the non Christian reader In this collection editor Dino Bigongiari has selected Aquinas s key writings on politics justice social problems and forms of government including the philosopher s main works Regimine Principis On Kinship and The Summa Theologica In an authoritative discussion of the historical background and evolution of St Thomas Aquinas s political ideas Dr Bigongiari s commentary explains this philosopher s enduring influence and legacy Accompanying explanatory notes and a helpful glossary of unusual terms and familiar words help to make this practical volume an ideal text for students and general readers alike
