Stabilization Of Local Government Volume :

Local Government Budget Stabilization Yilin Hou, 2015-05-28 This book is the first comprehensive full scale treatment of the politics law and economics with regard to the policies and policy instruments for budget stabilization at the local level It examines budget stabilization in the United States from the 1910s to 2010 from adoption of public budgeting in this country through the Great Recession In addition it provides details on the methods and results of empirical tests of the effects of budget stabilization instruments on government operations key basic services provision and some other aspects of social and economic life at the local level including full purpose governments county metro city municipality township and village as well as special single purpose governments like school districts and transportation districts This book dissects an important and pressing issue in public financial administration analyzes a lesson that has been in the learning process especially in the United States and identifies theoretical threads for scholarly refinement which will be put into specific contexts of policy design and implementation This book will be of interest to scholars in political science economics public choice and in public administration where it will also appeal to policy makers Measuring Regional Authority Liesbet Hooghe, Gary Marks, Arjan H. Schakel, Sandra Chapman Osterkatz, Sara Niedzwiecki, Sarah Shair-Rosenfield, 2016-01-28 This is the first of five ambitious volumes theorizing the structure of governance above and below the central state This book is written for those interested in the character causes and consequences of governance within the state and for social scientists who take measurement seriously The book sets out a measure of regional authority for 81 countries in North America Europe Latin America Asia and the Pacific from 1950 to 2010 Subnational authority is exercised by individual regions and this measure is the first that takes individual regions as the unit of analysis On the premise that transparency is a fundamental virtue in measurement the authors chart a new path in laying out their theoretical conceptual and scoring decisions before the reader The book also provides summaries of regional governance in 81 countries for scholars and students alike Transformations in Governance is a major new academic book series from Oxford University Press It is designed to accommodate the impressive growth of research in comparative politics international relations public policy federalism environmental and urban studies concerned with the dispersion of authority from central states up to supranational institutions down to subnational governments and side ways to public private networks It brings together work that significantly advances our understanding of the organization causes and consequences of multilevel and complex governance The series is selective containing annually a small number of books of exceptionally high quality by leading and emerging scholars The series targets mainly single authored or co authored work but it is pluralistic in terms of disciplinary specialization research design method and geographical scope Case studies as well as comparative studies historical as well as contemporary studies and studies with a national regional or international focus are all central to its aims Authors use qualitative quantitative formal modeling or mixed methods A trade mark of the books is that they combine scholarly rigour

with readable prose and an attractive production style The series is edited by Liesbet Hooghe and Gary Marks of the University of North Carolina Chapel Hill and the VU Amsterdam and Walter Mattli of the University of Oxford **Advances in Energy, Environment and Chemical Engineering Volume 1** Ahmad Zuhairi Abdullah,Azlin Fazlina Osman,2022-12-21 Advances in Energy Environment and Chemical Engineering collects papers resulting from the conference on Energy Environment and Chemical Engineering AEECE 2022 Dali China 24 26 June 2022 The primary goal is to promote research and developmental activities in energy technology environment engineering and chemical engineering Moreover it aims to promote scientific information interchange between scholars from the top universities business associations research centers and high tech enterprises working all around the world The conference conducts in depth exchanges and discussions on relevant topics such as energy engineering environment technology and advanced chemical technology aiming to provide an academic and technical communication platform for scholars and engineers engaged in scientific research and engineering practice in the field of saving technologies environmental chemistry clean production and so on By sharing the research status of scientific research achievements and cutting edge technologies it helps scholars and engineers all over the world comprehend the academic development trend and broaden research ideas So as to strengthen international academic research academic topics exchange and discussion and promote the industrialization cooperation of academic achievements
