Performing Wales Lisa Lewis, 2018-05-15 This book uses ideas from performance studies to examine Welsh culture as performance Focusing on three aspects central to the investigation notions of people memory and place all of which are central to definitions of Welsh cultural performance the book explores these aspects in relation to specific case studies taken from the museum from heritage festival and theatre *Staging Loss* Michael Pinchbeck, Andrew Westerside, 2018-11-11 This book locates and critically theorises an emerging field of twenty first century theatre practice concerned either thematically methodologically or formally with acts of commemoration and the commemorative With notions of memorial celebration temporality and remembrance at its heart and as a timely topic for debate this book asks how theatre and performance intersects with commemorative acts or rituals in contemporary theatre and performance practice It considers the re performance of history commemoration as a form of or performance of ritual performance as memorial performance as eulogy and eulogy as performance It asks where personal acts of remembrance merge with public or political acts of remembrance where the boundary between the commemorative and the performative might lie and how it might be blurred broken or questioned It explores how we might remake the past in the present to consider not just how performance commemorates but how commemoration performs **Heritage, Nostalgia and Modern British Theatre** Benjamin Poore, 2011-11-15 The stage portrayal of the Victorians in recent times is a key reference point in understanding notions of Britishness and the profound politicisation of that debate over the last four decades This book throws new light on works by canonical playwrights like Bond Edgar and Churchill linking theatre to the wider culture at large **Twentieth-Century British Theatre** Claire Cochrane, 2011-10-27 In this book Claire Cochrane maps the experience of theatre across the British Isles during the twentieth century through the social and economic factors which shaped it Three topographies for 1900 1950 and 2000 survey the complex plurality of theatre within the nation state which at the beginning of the century was at the hub of world wide imperial interests and after one hundred years had seen unprecedented demographic economic and industrial change Cochrane analyses the dominance of London theatre but redresses the balance in favour of the hitherto marginalised majority experience in the English regions and the other component nations of the British political construct Developments arising from demographic change are outlined especially those relating to the rapid expansion of migrant communities representing multiple ethnicities Presenting fresh historiographic perspectives on twentieth century British theatre the book breaks down the traditionally accepted binary oppositions between different sectors showing a broader spectrum of theatre practice Contemporary Theatre Education and Creative Learning Mark Crossley, 2021-05-31 This

book considers the state of contemporary theatre education in Great Britain is in two parts The first half considers the national identities of each of the three mainland nations of England Scotland and Wales to understand how these differing identities are reflected and refracted through culture theatre education and creative learning The second half attends to 21st century theatre education proposing a more explicit correlation between contemporary theatre and theatre education It considers how theatre education in the country has arrived at its current state and why it is often marginalised in national discourse Attention is given to some of the most significant developments in contemporary theatre education across the three nations reflecting on how such practice is informed by and offers a challenge to conceptions of place and nation Drawing upon the latest research and strategic thinking in culture and the arts and providing over thirty interviews and practitioner case studies this book is infused with a rigorous and detailed analysis of theatre education and illuminated by the voices and perspectives of innovative theatre practitioners

Communication Breakdowns Ruth Shade, 2004 Using an examination of theatrical and musical performance in a small Valleys town as a focus this work puts forward an argued discussion of contemporary Welsh theatre in its cultural context The text uses the south Wales valleys as a means of locating and exploring certain key issues those connected to coercive ideas about what ideal theatre is the relationship between politics and performance the conundrum of community theatre the role of theatre practice in marginalized regions and the significance of class to theatre and the problem of a system of arts subsidy which foists inappropriate external theatre product on indigenous audiences

Screening the Operatic Stage Christopher Morris, 2024-03-29 An ambitious study of the ways opera has sought to ensure its popularity by keeping pace with changes in media technology From the early days of television broadcasts to today's live streams opera houses have embraced technology as a way to reach new audiences But how do these new forms of remediated opera extend amplify or undermine production values and what does the audience gain or lose in the process In Screening the Operatic Stage Christopher Morris critically examines the cultural implications of opera's engagement with screen media Foregrounding the potential for a playful exchange and self awareness between stage and screen Morris uses the conceptual tools of media theory to understand the historical and contemporary screen cultures that have transmitted the opera house into living rooms onto desktops and portable devices and across networks of movie theaters If these screen cultures reveal how inherently technological opera is as a medium they also highlight a deep suspicion among opera producers and audiences toward the intervention of media technology Ultimately Screening the Operatic Stage shows how the conventions of televisual representation employed in opera have masked the mediating effects of technology in the name of fidelity to live performance
