Stalin Breaker Of Nations:

Stalin Robert Conquest, 2000-11-23 Robert Conquest is the foremost authority on the Stalinist period of Soviet history The culmination of a lifetime's work this book is a masterly portrait of a man who perhaps more than any other determined the course of the twentieth century Conquest focuses on Stalin's terrifying character perhaps the closest to a monster that humankind has ever produced Stalin emerges as a man unnatural and unreal who gave his personal authority to the slaughter of millions but whose vanity demanded their adulation Most surprisingly Conquest demonstrates that Stalin's astounding power was not the reward of ability it was the creation of a man whose mind was of profound mediocrity melded with superhuman willpower There is no one better qualified to write Stalin's life than Robert Conquest who in his many books about the Stalinist era has told the story with such intimacy expertise and passion Conquest tells the tale with an informed hatred for his subject and a fine sense of irony which makes this book indispensable reading A N Wilson Evening Standard *Stalin* Robert Conquest, 1991

Stalin's Empire of Memory Serhy Yekelchuk, 2015-01-15 Based on declassified materials from eight Ukrainian and Russian archives Stalin's Empire of Memory offers a complex and vivid analysis of the politics of memory under Stalinism Using the Ukrainian republic as a case study Serhy Yekelchuk elucidates the intricate interaction between the Kremlin non-Russian intellectuals and their audiences Yekelchuk posits that contemporary representations of the past reflected the USSR's evolution into an empire with a complex hierarchy among its nations In reality he argues the authorities never quite managed to control popular historical imagination or fully reconcile Russia's glorious past with national mythologies of the non-Russian nationalities Combining archival research with an innovative methodology that links scholarly and political texts with the literary works and artistic images Stalin's Empire of Memory presents a lucid readable text that will become a must have for students academics and anyone interested in Russian history **Russian Leaders** Alexander Dragomiroff, 2002 Russian Leaders A Bibliography With Indexes

Redeemer Nation Orrin Schwab, 2004 In this book Dr Orrin Schwab develops the concept of the modern technocratic state as part of a global technocratic culture and civilization The author argues that technocratic cultural and institutional forms were and are part of a collective script for Western culture The American script combined the scientific commercial and technological aspects of the Enlightenment with the radical 17th century Protestant belief in America as a new Zion In the twentieth century the synthesis of mission along with global technocratic knowledge and institutions created the Wilsonian liberal technocratic order As the principal agent and protector of the modern capitalist international system America the self-defined Redeemer Nation has moved through the controlled anarchy of international relations from one war and crisis to the next confirmed in its self-defined role and mission **Stalin's Folly** Konstantin Pleshakov, 2006 Reassessing the Soviet response to the Nazi invasion of Russia the author portrays Stalin as an ineffective military leader who allowed hundreds of thousands of his soldiers to be slaughtered in the first ten days of the invasion *Empire of Nations* Francine

Hirsch,2014-11-15 When the Bolsheviks seized power in 1917 they set themselves the task of building socialism in the vast landscape of the former Russian Empire a territory populated by hundreds of different peoples belonging to a multitude of linguistic religious and ethnic groups Before 1917 the Bolsheviks had called for the national self determination of all peoples and had condemned all forms of colonization as exploitative After attaining power however they began to express concern that it would not be possible for Soviet Russia to survive without the cotton of Turkestan and the oil of the Caucasus In an effort to reconcile their anti imperialist position with their desire to hold on to as much territory as possible the Bolsheviks integrated the national idea into the administrative territorial structure of the new Soviet state In *Empire of Nations* Francine Hirsch examines the ways in which former imperial ethnographers and local elites provided the Bolsheviks with ethnographic knowledge that shaped the very formation of the new Soviet Union The ethnographers who drew inspiration from the Western European colonial context produced all union censuses assisted government commissions charged with delimiting the USSR s internal borders led expeditions to study the human being as a productive force and created ethnographic exhibits about the Peoples of the USSR In the 1930s they would lead the Soviet campaign against Nazi race theories Hirsch illuminates the pervasive tension between the colonial economic and ethnographic definitions of Soviet territory this tension informed Soviet social economic and administrative structures A major contribution to the history of Russia and the Soviet Union *Empire of Nations* also offers new insights into the connection between ethnography and empire *Stalin's Other War* Albert L. Weeks,2003-04-16 On June 22 1941 just less than two years after signing the Nazi Soviet Agreements Adolf Hitler s German army invaded the Soviet Union The attack hardly came as a surprise to Josef Stalin in fact history has long held that Stalin spent the two intervening years building up his defenses against a Nazi attack With the gradual declassifying of former Soviet documents though historians are learning more and more about Stalin s grand plan during the years 1939 1941 Longtime Soviet expert Albert L Weeks has studied the newly released information and come to a different conclusion about the Soviet Union s pre war buildup it was not precaution against German invasion at all In fact Weeks argues the evidence now suggests Soviet mobilization was aimed at an eventual invasion of Nazi Germany The Soviets were quietly biding their time between 1939 and 1941 allowing the capitalist powers to destroy one another all the while preparing for their own Westward march Stalin Weeks shows wasn t waiting for a Nazi attack Hitler simply beat him to the punch

Stalin's Secret War Robert W. Stephan,2004 An animated adaptation of the story of the same title by Maurice Sendak in which a small boy makes a visit to the land of the wild things Tells how he tames the creatures and returns home For primary grades [Stalin, Mao, Communism, and their 21st-Century Aftermath in Russia and China](#) Miguel A.
