Stamford An Illustrated History:

Stamford Estelle F. Feinstein, Joyce S. Pendery, 1984 In the early 1600s a handful of restless inhabitants of the Massachusetts Bay Colony left Boston for Wethersfield Connecticut later continuing on to the site then known as Rippowam Rippowam became known as Stamford a sleepy New England village But as New York began emerging as the preeminent city in America Stamford less than 40 miles away was pulled into a new sphere Even in the dawn of its own industrial prosperity in the 19th century Stamford was the home of New York commuters It was also the home of an increasingly diverse population After eras of subsistence then surplus farming in the 17th and 18th centuries industrial enterprise and trade in the 19th and the postindustrial slump Stamford today with sweet irony is the site of a large cluster of Fortune 500 companies who left New York behind *Stamford Sports* Stamford Historical Society, 2013 At the turn of the 20th century Stamford was fast becoming an industrial powerhouse quickly earning its nickname of The City That Works As manufacturing boomed and drew thousands of immigrants to the city sports clubs formed at an equally rapid pace Stamford s large and thriving industrial league provided a means for those working six day weeks to let off steam productively and enjoyably Stamford Sports covers the history of sports in Stamford from its earliest baseball and basketball teams in the 1890s through the burgeoning of sports of all types for everyone brought on by the passage of Title IX in the 1970s **Centennial**

The Oxford Illustrated History of the Vikings P. H. Sawyer, 2001 Were the Vikings as contemporary description had it a valiant wrathful foreign purely pagan people who swept in from the sea to plunder and slaughter Or in the words of a Manx folksong were wolves keen in hungry quest who lived and died by the sea and the sword Or were they unusually successful merchants extortionists and pioneer explorers This book by leading international scholars considers the latest research and presents a compelling picture of the Vikings and their age Excavations as far apart as Dublin and Newfoundland York and Kiev provide fascinating archaeological evidence expertly interpreted in this extensively illustrated book **The Oxford**

Illustrated History of Britain Kenneth O. Morgan, 2000 Examines political economic social and culture changes in Great Britain from Roman times to the present **Long Island Sound** James S. Latimer, Mark A. Tedesco, R. Lawrence

Swanson, Charles Yarish, Paul E. Stacey, Corey Garza, 2013-11-22 The U S Ocean Commission Report identified the need for regional ecosystem assessments to support coastal and ocean management These assessments must provide greater understanding of physical and biological dynamics than assessments at global and national scales can provide but transcend state and local interests This need and timeliness is apparent for Long Island Sound where a multi state regional restoration program is underway for America s most urbanized estuary Synthesis of the Long Island Sound ecosystem is needed to integrate knowledge across disciplines and provide insight into understanding and managing pressing issues such as non point sources of pollution coastal development global climatic change and invasive species Currently there is a need for a

comprehensive volume that summarizes the ecological and environmental dynamics and status of Long Island Sound and its myriad ecosystems It has been 30 years since a comprehensive summary of Long Island Sound was prepared and 50 years since the pioneering work of Gordon Riley Major advances in estuarine science are providing new insights into these systems and yet the condition of many estuaries is in decline in the face of continuing coastal development There is an opportunity to lay a foundation for integrative coastal observing systems that truly provide the foundation for improved decision making This book will provide a key reference of our scientific understanding for work performed over the past three decades and guide future research and monitoring in a dynamic urbanized estuary
