

THE GOTHIC ENTERPRISE

A Guide to Understanding the Medieval Cathedral

ROBERT A. SCOTT

WITH A NEW PREFACE

"Easily the best book I have seen on why
the great cathedrals were built."

—KEN FOLLETT

The Gothic Enterprise A Guide To Understanding The Medieval Cathedral

Joseph A. Amato

The Gothic Enterprise A Guide To Understanding The Medieval Cathedral:

The Gothic Enterprise Robert A. Scott, 2003 Robert A Scott explores why medieval people built Gothic cathedrals how they built them what conception of the divine lay behind their creation and the social and political uses made of cathedrals by religious and secular leaders

The Gothic Enterprise Robert A. Scott, 2011-06-28 The great Gothic cathedrals of Europe are among the most astonishing achievements of Western culture Evoking feelings of awe and humility they make us want to understand what inspired the people who had the audacity to build them This engrossing book surveys an era that has fired the historical imagination for centuries In it Robert A Scott explores why medieval people built Gothic cathedrals how they built them what conception of the divine lay behind their creation and how religious and secular leaders used cathedrals for social and political purposes As a traveler s companion or a rich source of knowledge for the armchair enthusiast *The Gothic Enterprise* helps us understand how ordinary people managed such tremendous feats of physical and creative energy at a time when technology was rudimentary famine and disease were rampant the climate was often harsh and communal life was unstable and incessantly violent While most books about Gothic cathedrals focus on a particular building or on the cathedrals of a specific region *The Gothic Enterprise* considers the idea of the cathedral as a humanly created space Scott discusses why an impoverished people would commit so many social and personal resources to building something so physically stupendous and what this says about their ideas of the sacred especially the vital role they ascribed to the divine as a protector against the dangers of everyday life Scott s narrative offers a wealth of fascinating details concerning daily life during medieval times The author describes the difficulties master builders faced in scheduling construction that wouldn t be completed during their own lifetimes how they managed without adequate numeric systems or paper on which to make detailed drawings and how climate natural disasters wars variations in the hours of daylight throughout the year and the celebration of holy days affected the pace and timing of work Scott also explains such things as the role of relics the quarrying and transporting of stone and the incessant conflict cathedral building projects caused within their communities Finally by drawing comparisons between Gothic cathedrals and other monumental building projects such as Stonehenge Scott expands our understanding of the human impulses that shape our landscape

The Gothic Enterprise Robert A. Scott, 2011-06-28 Scott explores why medieval people built Gothic cathedrals how they built them what conception of the divine lay behind their creation and how religious and secular leaders used cathedrals for social and political purposes Considering the idea of the cathedral as a humanly created space Scott discusses why an impoverished people would commit so many social and personal resources to building something so physically stupendous and what this says about their ideas of the sacred especially the vital role they ascribed to the divine as a protector against the dangers of everyday life The author describes the difficulties master builders faced in scheduling construction that wouldn t be completed during their own lifetimes how they managed without adequate numeric systems or paper on which to make detailed drawings and how climate natural disasters wars variations in the hours

of daylight throughout the year and the celebration of holy days affected the pace and timing of work Scott also explains such things as the role of relics the quarrying and transporting of stone and the incessant conflict cathedral building projects caused within their communities Finally by drawing comparisons between Gothic cathedrals and other monumental building projects such as Stonehenge Scott expands our understanding of the human impulses that shape our landscape From publisher description

Buildings and Landmarks of Medieval Europe James B. Tschen-Emmons, 2016-11-14 Through the use of images diagrams and detailed descriptions this book enables readers to appreciate how the construction design and function of famous structures inform our understanding of societies of the past Buildings and Landmarks of Medieval Europe The Middle Ages Revealed makes use of significant buildings as representative structures to provide insight into specific cultures historical periods or topics of the Middle Ages The explanations of these buildings construction original intended use and change over time and design elements allow readers to better comprehend what life in European societies of the past was like covering social political economic and intellectual perspectives Readers will be able to apply what they learn from the discussions of the structures to improve their understanding of the historical period as well as their skills of observation and assessment needed to analyze these landmark structures and draw meaningful conclusions about their context and significance The book s supporting features a chronology biographical appendix glossary and subject index help researchers in successfully completing their papers or projects

Everyday Life Joseph A. Amato, 2016-08-15 Most of the stories we tell are about great feats dangerous journeys or daring confrontations exceptional moments in our existence But what about how we live every single day In *Everyday Life* Joseph A Amato offers an account of daily existence that reminds us how important the quotidian is Ranging across social economic and cultural history as well as anthropology folklore and technology he explores how and why the pattern of our lives has changed and developed over time Amato examines the common facts and occurrences in lives from all spheres whether of a pauper or a noble a criminal or state official or a lunatic or a philosopher Such facts include basic aspects of human existence such as play work conflict and healing as well the logistics of survival such as housing clothing cleaning cooking animals plants and machines Tracing core historical developments like efficiency of production and greater mobility Amato shows how we became modern in everyday ways He explores how paradoxically commerce technology design industrialization nationalism and democratization which have so undercut traditional culture and have homogenized centralized and secularized masses of people have also profoundly transformed daily life affording citizens with materially improved lives individual rights and productive and rewarding expectations A wide ranging account of lives throughout history this book gives us new insights into our own condition showing us how extraordinary the ordinary can be

Seen and Unseen K. Flanagan, 2004-09-21 This lively and highly original study explores the link between visual culture and religion in terms of tales memory and character It draws out the sociological implications of handling the virtual and virtue in ways of seeing Using Simmel s approach to religiosity in his third study of sociology in theology Flanagan

explores how spectacle is to be understood in ways that yield trust The study will be invaluable for undergraduate and postgraduate courses on visual culture sociology of religion and theology **Monumental London** Richard Barras,2023-10-26 This book presents an original interpretation of the building history of London in terms of its evolving political economy Each of the seven ages of the city from the Roman to the modern are portrayed through their monumental buildings concentrating in particular on their symbolic purpose as expressions of the status and authority of those who built them The concluding synthesis explores how these successive layers of building can be seen to be a product of the evolving class structure the changing distribution of wealth and the shifting struggle for political power within the city and the nation Although the focus is on London the analysis is applicable to any urbanized economy at any stage of development This book offers unique insight into London as a landscape of power and as a city that has assumed a succession of identities over the last two millennia It will be relevant to students and researchers interested in urban economy economic history and the political economy **Journeys and Destinations** Alex Norman,2013-07-16 Journeys and Destinations Studies in Travel Identity and Meaning brings together scholarship from diverse fields all focused on either practices of journeying or destinations to which such journeys lead Common across the contributions herein are threads that indicate travel as a core component as a concept or a practice of the fabric of identity and meaning **Places of Light** Gernot Candolini,2019-12-10 A pilgrimage through the great cathedrals of the world Candolini invites readers to experience some of the exemplary cathedrals of Europe and North America with beautiful images and poetic descriptive texts that inspire and inform He offers glimpses into the spiritual visionary and artistic beauty and mastery of these spaces inspired by God and built by human hands Read the powerful stories connected to these sacred spaces like the reconciliation crusade of Vezelay the destruction of Cluny and the origins of Sagrada Familia Explore the architectural and artistic elements that make these churches what they are like the power of light the smiling stones the crypt the music and more *Gothic Romanticism* T. Duggett,2010-05-24 Gothic Romanticism winner of the 2010 MLA Prize for Independent Scholars is a study of the relationship between British Romanticism and the Gothic Revival Reading a wide range of canonical and rare texts and spanning the Romantic discourses of architecture politics and literary form the book recovers the collaborative project of Wordsworth Coleridge and Southey for a purified Gothic poetry and a second Gothic culture
