

The Government Of Modern Britain

Norman Lowe

The Government Of Modern Britain:

Modern Britain Sean Glynn, Alan Booth, 2020-08-17 *Modern Britain* focuses on two major periods of British history the interwar period and postwar Britain The authors compare and contrast developments in the two periods dealing with the themes of growth and welfare industry labour social policy the economy Combining a narrative with a conceptual and analytic approach *Modern Britain* provides an end of century review of progress and decline and an essential background to current polemics and major issues of concern Clearly structured and written this is an invaluable textbook for students of twentieth century British history *The Government of Modern Britain* Frank Stacey, 1968 *The Government of Modern Britain* Frank A. Stacey, 1968 Project report for Diploma of Applied Science Nautical Science **The Ten Legal Cases That Made Modern Britain** Inigo Bing, 2022-07-12 LIFE SEX RACE POWER FREE SPEECH PROTEST PRIVACY DEMOCRACY SOVEREIGNTY DEATH Society shapes law and law shapes society We like to imagine that progress comes about when Parliament spots a looming groundswell in public opinion and responds by changing the laws that govern our daily lives This is not always true In this fascinating book Inigo Bing unravels ten legal cases in which the decisions of judges or a jury either heralded a shift in outlook or forced Parliament to respond to simmering social change Some of these cases demonstrate the role judges have in defending our civil liberties against overweening executive power articulating inherent unwritten rights Parliament would prefer to keep quiet about Others explore what happens when rapid technological or social change outpaces government placing urgent ethical dilemmas in the lap of the court All of them have had a lasting impact on the society we inhabit Taken together these stories provide a powerful insight into eighty years of British social political and cultural history illustrating why legal cases are just as important to making our world as laws written by Parliament or grassroots changes within society *The Oxford Handbook of Modern British Political History, 1800-2000* David Brown, Robert Crowcroft, Gordon Pentland, 2018-03-29 The two centuries after 1800 witnessed a series of sweeping changes in the way in which Britain was governed the duties of the state and its role in the wider world Powerful processes from the development of democracy the changing nature of the social contract war and economic dislocation have challenged and at times threatened to overwhelm both governors and governed Such shifts have also presented challenges to the historians who have researched and written about Britain's past politics This Handbook shows the ways in which political historians have responded to these challenges providing a snapshot of a field which has long been at the forefront of conceptual and methodological innovation within historical studies It comprises thirty three thematic essays by leading and emerging scholars in the field Collectively these essays assess and rethink the nature of modern British political history itself and suggest avenues and questions for future research The Oxford Handbook of Modern British Political History thus provides a unique resource for those who wish to understand Britain's political past and a thought provoking long view for those interested in current political challenges **Mastering Modern British History** Norman Lowe, 2017-09-16 The new

edition of this best selling text includes a new section on the final years of the Labour government after Blair's resignation and a new chapter on the subsequent Coalition and Conservative governments. It is the ideal companion for students taking a first level course in modern British History as well as for undergraduates in history.

Church and State in Modern Britain 1700-1850 Richard Brown, 2002-01-04 In this the second part of his history of the Industrial Revolution Richard Brown examines the political and religious developments which took place in Britain between the 1780s and 1840s in terms of the aristocratic elite and through the expression of alternative radical ideologies. Opening with a discussion of the nature of history and of Britain in 1700 it goes on to consider Britain's foreign policy, the emergence of the modern state and the mid-century crisis of the 1840s. Unlike many previous works it emphasises British not just English history. It is this diversity of experience and the focus on continuity as well as change, women as well as men that makes this a distinctive text. Students will also find the theoretical foundations of historical narrative and analysis clearly explained.

Longman Handbook to Modern British History 1714 - 2001 Chris Cook, John Stevenson, 2014-07-10 This compact and accessible reference work provides all the essential facts and figures about major aspects of modern British history from the death of Queen Anne to the end of the 1990s. The Longman Handbook of Modern British History has been extended to include a fully revised bibliography reflecting the wealth of newly published material in recent years, the new statistics on social and economic history and an expanded glossary of terms. The political chronologies have been revised to include the electoral defeat of John Major and the record of New Labour in office. Designed for the student and general reader, this highly successful handbook provides a wealth of varied data within the confines of a single volume.

Sources and Debates in Modern British History Ellis Wasson, 2011-11-17 Designed to complement the author's *A History of Modern Britain*, this collection of primary sources illuminates and augments the study of modern Britain with coverage of political, imperial and economic history as well as class and cultural issues. Features a broad range of documents in a well structured and easy to use format including important well known documents and lesser known excerpts from memoirs and private correspondence. Provides up to date balanced coverage of political, imperial, social, economic and cultural history with over 180 documents. Offers a thorough rendering of social class and national identity including coverage of changes in British society over the last 20 years. Includes discussion questions for each document as well as lists of historical debates and extensive bibliographies of both on line and traditional sources for students further research.

Politicians, Diplomacy and War in Modern British History Keith Robbins, 1994-07-01 The aspirations of democracy and the requirements of diplomacy have always coexisted uneasily. The politicians discussed in this book, in particular the appreciation of the careers of John Bright and James Bryce, reflect obliquely or directly on the problems of politicians who seek the high moral ground either in domestic or international politics. There is also a discussion of the relationship between politicians and the press as well as of the difficult link between cultural and political assumptions on the one hand and the facts of economic performance on the other.
