The Grammar Of Faith:

The Grammar of Faith Paul L. Holmer, 1978 One of the steady voices in today's cacophonous theological world here proposes that there is a logical and a grammar of faith the rules of which theologians must adhere to our risk being unworthy of the name The Grammar of Faith discloses that theology is not a succession of rival intellectual positions or new knowledge unavailable to the ordinary believer but a way to organize and understand faith itself Many of today's theologies the author points out attempt to state the meaning of faith But the meaning of faith is ever elusive not statable in other schemes of language It has to be earned and achieved in its original forms What then is theology's central task According to Dr Holmer theology must stand in Vigilance against faddism It must never allow the needs of the eternal To speculate on the meaning of faith is to vitiate its language But in the New Testament Christian liturgy and the ways of obeying God and being faithful to him are the very means by which the language of faith regains its essence and vitality This is or should be theology's natural home Far from dubiously examining the centuries have held dear theologians must give dignity to the ordinary believer's doubts and beliefs Theology has no privileged access to either doubt or faith The state of all of us is to wrestle with the same mighty matters and the grammar that is theology is the grammar of our lives The Grammar of Faith calls for a grasp that does not substitute for piety or belief does not foreshorten understanding or grace but gives one access to them It offers a way to discern among the many voices of theological inquiry clamoring for our attention And it reaffirms the very foundation of theology itself the overwhelming vision of God's power intersecting and forever transforming the life of the individual believer

A Grammar of Christian Faith Joe R. Jones, 2002-06-03 A Grammar of Christian Faith is a two volume set that aims to confront the widespread disarray in the language and practices of Christian faith today As a grammar it explains how Christian faith provides special ways of speaking and acting that make sense of human life by giving it meaning practicality and hope It advances the thesis that learning how to speak Christian language in worship and life is crucial to learning how to be a Christian Rather than supposing that Christian language and theology need continual updating in order to be relevant to the world Jones urges the church to recover anew how Christian concepts and understanding are intended to form Christian life in all its rich depths Construing theology as confessional theology in the context of the church Jones understands the church as that liberative and redemptive community called into being by the Gospel of Jesus Christ to witness in word and deed the triune God for the benefit of the world The full range of doctrinal themes that are deemed essential to the witness of the church are explored including clear explanations of why they are essential and how they are to be understood In pursuit of a truthful and beneficial witness of the church the work centers on a trinitarian understanding of God in which God freely and lovingly interacts with the world as Creator Reconciler and Redeemer The work throughout affirms the belief that the gracious triune God is the Ultimate Companion who will redeem all creation

Foundationalism D. Z. Phillips, 2018-02-02 Such is the clarity of its exposition and interest of its argument that it can be recommended to those seeking an introduction to recent work in epistemology The interest of the book however is greater than that For the discussion of foundationalism and of recent reactions to it is subtly interwoven into a discussion of recent and not so recent philosophy of religion Colin Lyas Philosophy **Malum** Ingolf U. Dalferth, 2022-05-31 The incursion of evil has always caused people to turn to the divine to gods or to a god in order to reorientate their life Ingolf U Dalferth studies the complexity of this procedure in three thought processes that deal with the central concepts in the Christian understanding of malum as privation a lack of good as evil doing and as a lack of faith In doing so he provides a detailed discussion of theories of theodicy the argument from freedom and the religious turn to God in which the author explores the traces of the discovery of God s goodness justness and love in connection with the malum experiences in ancient mythology and biblical traditions *Eccentricity in Anthropology* Stephen R. Milford, 2019-06-07 *Eccentricity in Anthropology* brings into conversation a constructive critical interpretation of David Kelsey s *Eccentric Existence* with a central yet often overlooked debate in theological anthropology the substantive relational imago Dei Milford s work explores new insights into human identity and dignity In particular he demonstrates the value of an alternate constructive of humanity in the image of God This construction utilizes an interpretation of Kelsey s anthropological formula so as to describe human identity as part of the created order in terms of its myriad features which are externally rooted *Eccentricity in Anthropology* demonstrates that an alternate approach to this debate is possible and that one can combine important aspects of both substantive and relational thinking As such Milford s work is an important contribution to studies in the doctrine of the imago Dei Taking *Eccentric Existence* s invitation to act as a springboard for further debate seriously it presents one possible fruitful use of Kelsey s work to address theological anthropological questions In a very real sense this book is both a discussion in systematic theology and at the same time a work in contemporary historical theology *The Christian Faith* Michael Horton, 2011-01-04 Theology the study of God is a concern for every believer not just theologians or those in ministry It s the goal of good theology to humble us before the triune God of majesty as we come to understand him better This is a book of and about good theology Award winning author theologian and professor Michael Horton wrote *The Christian Faith* as a book of systematic theology and doctrine that can be preached experienced and lived as well as understood clarified and articulated It s written for a growing cast of pilgrims in ministry and laity who are interested in learning about Christ as a way of living as a Christian Who understand that knowing doctrine and walking in practical Christianity are not competing interests *The Christian Faith* is divided into six parts five of which each focus on an aspect of God while the first part sets up an understanding and appreciation for the task of theology itself addressing topics like The source of theology where the idea

of theology comes from and what its limits are The origin of the canon how the modern Bible came about and why we can trust it The character of theology is the nature of theology practical theoretical or can it be both In a manner equally as welcoming to professors pastors students and armchair theologians Horton has organized this volume in a readable fashion that includes a variety of learning features A brief synopsis of biblical passages that inform certain doctrines Surveys of past and current theologies with contemporary emphasis on exegetical philosophical practical and theological questions Substantial interaction with various Christian movements within the Protestant Catholic and Orthodoxy traditions as well as the hermeneutical issues raised by postmodernity Charts sidebars questions for discussion and an extensive bibliography divided into different entry levels and topics At the heart of this book is a deep love for and curiosity about God Its basic argument is that a personal relationship with God goes hand in hand with the pursuit of theology It isn't possible to know God without studying him

Faith, Reason, and History Robert Campbell Roberts, 1986

Postliberal Theology: A Guide for the Perplexed Ronald T. Michener, 2013-02-14 Postliberal theology is a movement in contemporary theology that rejects both the Enlightenment appeal to a universal rationality and the liberal assumption of an immediate religious experience common to all humanity The movement initially began in the 1980s with its association to Yale Divinity School Theologians such as Hans Frei Paul Holmer David Kelsey and George Lindbeck were influential and were significantly influenced by theologians such as Karl Barth Clifford Geertz and Ludwig Wittgenstein Postliberalism uses a narrative approach to theology such as developed by Hans Frei and argues that all thought and experience is historically and socially mediated Michener provide the reader with an accessible introductory overview of the origins current thought potential problems and future possibilities of postliberal theology The basic philosophical and theological background are briefly discussed along with the seminal and predominant theologians identified with the movement Michener shows how postliberalism emerges from the context of the postmodern critique of Enlightenment rationalism and empiricism Postliberal theology is extremely critical of classical liberal theology rather than an advancement of its agenda

Thinking with Kierkegaard and Wittgenstein Richard Griffith Rollefson, 2014-10-20 Paul L Holmer influenced the development of the so called Yale School and several generations of students by seeing common logical and ethico religious themes in the works of Soren Kierkegaard and Ludwig Wittgenstein Holmer is perhaps the preeminent interpreter of Kierkegaard with his analysis of the logic of Kierkegaard's truth as subjectivity and the morphology of the life of Christian belief In his polemical and constructive work *The Grammar of Faith* Holmer explored the significance of the later philosophy of Ludwig Wittgenstein for theology and proposed a critical alternative to contemporary academic theology In his *C. S. Lewis: The Shape of His Life and Thought Making Christian Sense* and various essays now compiled in *The Paul L Holmer papers* Holmer's reassessment of the traditional concepts of virtues and vices his recognition of the importance of Christian praxis in providing the context for theological and ethical reflection together with his emphasis on the role of emotions and passions in the life of faith portray how the Christian faith forms

character and helps one make sense with one's life
