Making the Grand Figure Toby Christopher Barnard, Fellow and Tutor in Modern History T C Barnard, 2004-01-01 Through such everyday articles as linen shirts wigs silver teaspoons pottery plates and engravings Barnard evokes a striking variety of lives and attitudes Possessions he shows even horses and dogs highlighted and widened divisions not only between rich and poor women and men but also between Irish Catholics and the Protestant settlers Displaying fresh evidence and unexpected perspectives the book throws new light on Ireland during a formative period Its discoveries set within the context of the consumer revolution gripping Europe and North America allow Ireland for the first time to be integrated into discussions of the pleasures and pains of consumerism **BOOK JACKET**

The Jacobites and the Grand Tour J  r  my Filet, 2025-04-22 In the first monograph to fully examine the intersecting networks of Jacobites and travellers to the continent Filet considers how small states used official diplomacy and deployed soft power embodied by educational academies to achieve foreign policy goals This work uses little known archival materials to explain how and why certain small states secretly supported the Jacobite cause during the crucial years surrounding the 1715 rising while others stayed out of Jacobite affairs At the same time the book demonstrates how early modern small states sought to cultivate good relations with Britain by attracting travellers as part of a wider trend of ensuring connections with future diplomats or politicians in case a Stuart restoration never came This publication therefore brings together a study of Britain small states Jacobitism and educational travel in its nexus at continental academies

Italy and the Grand Tour Jeremy Black, 2003-01-01 For members of the social elite in 18th century England extended travel for pleasure came to be considered part of an ideal education as well as an important symbol of social status Italy and especially Rome a fashionable exciting and comfortable city became the focus of such early tourists interest In this book historian Jeremy Black recreates the actual tourist experiences of those who travelled to Italy on a Grand Tour Relying on the private diaries and personal letters of travellers rather than on the self conscious accounts of literary travellers who wrote for wider audiences the book presents an authentic picture of how British tourists experienced Italy its landscapes women food music Catholicism and more illustrations the book highlights the discrepancy between the idealised view of the Grand Tour and its reality what people were meant to do was not necessarily what they did what the guide books described as splendid was not always so perceived Black quotes British visitors as they reflect on their trips and he discusses what their Italian experiences meant to

them And he considers the intriguing effects of tourism on British culture during this most exciting of centuries **Ireland**
