## **The Great Awakening In Virginia 1740 179:**

The Pentecostal Holiness Church, 1898-1948 Joseph E. Campbell, 2016-03-21 Dr Joseph E Campbell b 1903 author world evangelist professor held the first earned doctoral degree in The Pentecostal Holiness Church An active evangelist revivalist and pastor he held a longtime interest in missions He founded the Laymen s Missionary Foundation He traveled to Hong Kong where he established a school college and church His books include *What to Believe and Why Can a Man Live above Sin* and *A Whole Gospel for the Whole Man* *Religion in the American South* Beth Barton Schweiger, Donald G. Mathews, 2004 This collection of essays examines religion in the American South across three centuries from the beginning of the eighteenth century to the civil rights movement of the 1960s The first collection published on the subject in fifteen years Religion i

**British North America in the Seventeenth and Eighteenth Centuries** Stephen Foster, 2016-11-10 Until relatively recently the connection between British imperial history and the history of early America was taken for granted In recent times however early American historiography has begun to suffer from a loss of coherent definition as competing manifestos demand various reorderings of the subject in order to combine time periods and geographical areas in ways that would have previously seemed anomalous It has also become common place to announce that the history of America is best accounted for in America itself in a three way melee between settlers the indigenous populations and the forcibly transported African slaves and their creole descendants The contributions to *British North America in the Seventeenth and Eighteenth Centuries* acknowledge the value of the historiographic work done under this new dispensation in the last two decades and incorporate its insights However the volume advocates a pluralistic approach to the subject generally and attempts to demonstrate that the metropolitan power was of more than secondary importance to America in the seventeenth and eighteenth centuries The central theme of this volume is the question to what extent did it make a difference to those living in the colonies that made up British North America in the seventeenth and eighteenth centuries that they were part of an empire and that the empire in question was British The contributors some of the leading scholars in their respective fields strive to answer this question in various social political religious and historical contexts *The First Emancipator* Andrew Levy, 2007-01-09 Andrew Levy brings a literary sensibility to the study of history and has written a richly complex book one that transcends Carter s story to consider larger questions of individual morality and national memory The New York Times Book Review In 1791 Robert Carter III a pillar of Virginia s Colonial aristocracy broke with his peers by arranging the freedom of his nearly five hundred slaves It would be the largest single act of liberation in the history of American slavery before the Emancipation Proclamation Despite this courageous move or perhaps because of it Carter s name has all but vanished from the annals of American history In this haunting brilliantly original work Andrew Levy explores the confluence of circumstance conviction war and emotion that led to Carter s extraordinary act As Levy points out Carter was not the only humane master nor the sole partisan of emancipation in that freedom loving age So why did he dare to do what other

visionary slave owners only dreamed of In answering this question Levy reveals the unspoken passions that divided Carter from others of his class and the religious conversion that enabled him to see his black slaves in a new light Drawing on years of painstaking research and written with grace and fire *The First Emancipator* is an astonishing challenging and ultimately inspiring book A vivid narrative of the future emancipator s evolution *The Washington Post Book World* Highly recommended a truly remarkable story about an eccentric American hero and visionary should be standard reading for anyone with an interest in American history *Library Journal* starred review Absorbing Well researched and thoroughly fascinating this forgotten history will appeal to readers interested in the complexities of American slavery *Booklist* starred review *From Jamestown to Jefferson* Paul Rasor, Richard E. Bond, 2011-03-15 *From Jamestown to Jefferson* sheds new light on the contexts surrounding Thomas Jefferson s Statute for Religious Freedom and on the emergence of the American understanding of religious freedom by examining its deep roots in colonial Virginia s remarkable religious diversity Challenging traditional assumptions about life in early Virginia the essays in this volume show that the colony was more religious more diverse and more tolerant than commonly supposed The presence of groups as disparate as Quakers African and African American slaves and Presbyterians alongside the established Anglicans generated a dynamic tension between religious diversity and attempts at hegemonic authority that was apparent from Virginia s earliest days The contributors all renowned scholars of Virginia history treat in detail the complex interactions among Virginia s varied religious groups both in and out of power as well as the seismic changes unleashed by the Statute s adoption in 1786 *From Jamestown to Jefferson* suggests that the daily religious practices and struggles that took place in the town halls backwoods settlements plantation houses and slave quarters that dotted the colonial Virginia landscape helped create a social and political space within which a new understanding of religious freedom represented by Jefferson s Statute could emerge Contributors Edward L Bond Alabama A M University Richard E Bond Virginia Wesleyan College Thomas E Buckley Jesuit School of Theology of Santa Clara University Graduate Theological Union Daniel L Dreisbach American University School of Public Affairs Philip D Morgan Johns Hopkins University Monica Najar Lehigh University Paul Rasor Virginia Wesleyan College Brent Tarter Library of Virginia *The People with No Name* Patrick Griffin, 2012-01-06 More than 100 000 Ulster Presbyterians of Scottish origin migrated to the American colonies in the six decades prior to the American Revolution the largest movement of any group from the British Isles to British North America in the eighteenth century Drawing on a vast store of archival materials *The People with No Name* is the first book to tell this fascinating story in its full transatlantic context It explores how these people whom one visitor to their Pennsylvania enclaves referred to as a spurious race of mortals known by the appellation Scotch Irish drew upon both Old and New World experiences to adapt to staggering religious economic and cultural change In remarkably crisp lucid prose Patrick Griffin uncovers the ways in which migrants from Ulster and thousands like them forged new identities and how they conceived the wider transatlantic community The book moves from a vivid depiction of

Ulster and its Presbyterian community in and after the Glorious Revolution to a brilliant account of religion and identity in early modern Ireland Griffin then deftly weaves together religion and economics in the origins of the transatlantic migration and examines how this traumatic and enlivening experience shaped patterns of settlement and adaptation in colonial America In the American side of his story he breaks new critical ground for our understanding of colonial identity formation and of the place of the frontier in a larger empire The People with No Name will be indispensable reading for anyone interested in transatlantic history American Colonial history and the history of Irish and British migration

**Print Technology in Scotland and America, 1740-1800** Louis Kirk McAuley, 2013-11-07 In Print Technology in Scotland and America Louis Kirk McAuley investigates the mediation of popular political culture in Scotland and America from the transatlantic religious revivals known as the Great Awakening to the U S presidential election of 1800 By focusing on Scotland and America and in particular the tension between unity and fragmentation that characterizes eighteenth century Scottish and American literature and culture Print Technology aims to increase our understanding of how tensions within these corresponding political and cultural arenas altered the meaning of print as an instrument of empire and nation building McAuley reveals how seemingly disparate events including journalism and literary forgery were instrumental and innovative deployments of print not as a liberation technology as Habermas's analysis of print's structural transformation of the public sphere suggests but as a mediator of political tensions

**The Force of Fantasy** Ernest G. Bormann, 2001 In this book first published in 1985 Ernest G Bormann explores mass persuasion in America from 1620 to 1860 examining closely four rhetorical communities the revivals of 1739 1740 the hot gospel of the postrevolutionary period the evangelical revival and reform of the 1830s and the Free Soil and Republican parties Each community varies greatly but Bormann asserts that each succeeding community shares a rhetorical vision of restoring the American Dream that is essentially a modification of the previous visions Thus they form a family of rhetorical visions that constitutes a rhetorical tradition of importance in nineteenth century American popular culture

*The Great Awakening* J. M. Bumsted, 1970 In the following pages the reader will find a number of representative documents illustrative of the Great Awakening in colonial America The documents I have selected represent my own assessment of importance and interest and the reader should keep this fact firmly in mind In general I have attempted to choose documents which illustrate what I consider to be the major themes of the Awakening Because the majority of readers are probably most familiar with the revival in literary and intellectual terms scholarly study of it has been biased in this way I have consciously emphasized an institutional and social context and employed readings taken to a large extent from sources other than the sermons of those contemporaries so commonly associated with the event I have provided only minimal editorial comment attempting to indicate in brief introductions why I included a given document and where it fits into the larger picture

**New Directions in American Religious History** Harry S. Stout, D. G. Hart, 1998-01-01 The eighteen essays collected in this book had their origin in a conference of the same title held at the

Wingspread Conference Center in October of 1993 Some of the most distinguished scholars in the field were invited to reflect on their specialities in American religious history in ways that summarized where the field is and where it ought to move in the decades to come Organized according to four general ways of looking at religious history places and regions universal themes transformative events and marginal groups and ethno cultural outsiders the essays address a wide range of topics including Puritanism religion and the Civil War Protestantism and economic behavior gender and sexuality in American Protestantism and the contemporary de Christianization of American culture Featuring contributions from David D Hall Donald G Matthews Allen C Guelzo Gordon S Wood Daniel Walker Howe Robert Wuthnow Jon Butler David A Hollinger and others this thought provoking and up to date collection will interest anyone involved in the study of American religion and history
