The Great Hill Stations Of Asia:

The Great Hill Stations Of Asia Barbara Crossette, 1998-03-26 They called the refuges they created little European towns carved from rocky mountainsides or nestled in the meadows of high plateaus hill stations Colonialism came and went but the hill stations remain They are no longer European but most have not lost their unique appeal After all the plains still fry in the sun and the cities of Asia have only grown larger noisier and more polluted New generations of Asians are rediscovering hill stations and turning them into tourist resorts with luxury hotels and courses Hill stations still cling to their history and the story they tell reveals a lot about how colonial life was lived They also have a future if environmental damage and overpopulation do not destroy the forested hills and mountains that give them their spectacular settings and pleasant climates

Governor of the Cordillera Shelton Woods, 2023-07-15 Governor of the Cordillera tells the story of an American colonial official in the Philippines who took the unpopular position of defending the rights of the Igorots was fired in disgrace and made a triumphal return During the first fifteen years of colonial rule 1898 1913 a small group of Americans controlled the headhunting tribes who were wards of the nascent colonial government These officials ignored laws carved out fiefdoms and brutalized or killed those who challenged their rule John Early was cut from a different cloth Battling colleagues and supervisors over their treatment of the mountain people Early also had run ins with lowland Filipino leaders like Manuel Quezon Early's return as governor of the entire Cordillera was celebrated by all the tribes In Governor of the Cordillera Shelton Woods combines biography with colonial history He includes a discussion on the exhibition of the Igorots at the various fairs in the US and Europe which Early tried to stop The life of John Early is a testament to navigating political and racial divides with integrity

Artistic and Cultural Exchanges between Europe and Asia, 1400-1900 Michael North, 2016-12-05 The European expansion to Asia was driven by the desire for spices and Asian luxury products Its results however exceeded the mere exchange of commodities and precious metals The meeting of Asia and Europe signaled not only the beginnings of a global market but also a change in taste and lifestyle that influences our lives even today Manifold kinds of cultural transfers evolved within a market framework that was not just confined to intercontinental and intra Asiatic trade In Europe and Asia markets for specific cultural products emerged and the transfers of objects affected domestic arts and

craft production Traditionally relations between Europe and Asia have been studied in a hegemonic perspective with Europe as the dominant political and economic centre Even with respect to cultural exchange the model of diffusion regarded Europe as the centre and Asia the recipient whereby Asian objects in Europe became exotica in the Kunst und Wunderkammern Conceptions of Europe and Asia as two monolithic regions emerged in this context However with the current process of globalization these constructions and the underlying models of cultural exchange have come under scrutiny For this reason the book focuses on cultural exchange between different European and Asian civilizations whereby the reciprocal complexities of cultural transfers are at the centre of observation By investigating art markets workshops and collections in Europe and Asia the contributors exemplify the varieties of cultural exchange The book examines the changing roles of Asian objects in European material culture and collections and puts a special emphasis on the reception of European visual arts in colonial settlements in Asia as well as in different Asian societies

Youth and Empire David M. Pomfret, 2015-12-16 This is the first study of its kind to provide such a broadly comparative and in depth analysis of children and empire Youth and Empire brings to light new research and new interpretations on two relatively neglected fields of study the history of imperialism in East and South East Asia and more pointedly the influence of childhood and children s voices on modern empires By utilizing a diverse range of unpublished source materials drawn from three different continents David M Pomfret examines the emergence of children and childhood as a central historical force in the global history of empire in the late nineteenth and twentieth centuries This book is unusual in its scope extending across the two empires of Britain and France and to points of intense impact in tropical places where indigenous immigrant and foreign cultures mixed Hong Kong Singapore Saigon and Hanoi It thereby shows how childhood was crucial to definitions of race and thus European authority in these parts of the world By examining the various contradictory and overlapping meanings of childhood in colonial Asia Pomfret is able to provide new and often surprising readings of a set of problems that continue to trouble our contemporary world

Food Culture in Colonial Asia Cecilia Leong-Salobir, 2011-05-03 Presenting a social history of colonial food practices in India Malaysia and Singapore this book discusses the contribution that Asian domestic servants made towards the development of this cuisine between 1858 and 1963 Domestic cookbooks household management manuals memoirs diaries and travelogues are used to investigate the culinary practices in the colonial household as well as in clubs hill stations hotels and restaurants Challenging accepted ideas about colonial cuisine the book argues that a distinctive cuisine emerged as a result of negotiation and collaboration between the expatriate British and local people and included dishes such as curries mulligatawny kedgeree country captain and pish pash The cuisine evolved over time with the indigenous servants preparing both local and European foods The book highlights both the role and representation of domestic servants in the colonies It is an important contribution for students and scholars of food history and colonial history as well as Asian Studies

Imperial Heights Eric T. Jennings, 2011 The French built the city of Dalat in the alpine hills of southern Vietnam as a

reminder of home This book uncovers the strange 100 year history of a colonial city that was conceived as a centre of power and has now become a kitsch tourist destination *Challenges to Asian Urbanization in the 21st Century* Ashok K. Dutt, A.G. Noble, G. Venugopal, S. Subbiah, 2006-04-11 This book is unique in that it brings forth the nature and characteristics of 21st century Asian urbanization It provides a basic framework particularly as it relates to the patterns characteristics and problems associated with urbanization Urban structural models are discussed in relation to their applicability and non applicability It is of relevance to researchers and students working in the fields of social geography Asian studies urban economies urban and regional planning and social issues Traveling India in the Age of Gandhi Jeffrey N.

Dupée, 2008-04-15 *Traveling India in the Age of Gandhi* is a study of armchair travel writers who journeyed to India during what has often been termed the Age of Gandhi placed between 1914 1948 Most of the travel writers surveyed understood this era to be a unique time in world history in India and elsewhere on the globe The lingering trauma of World War I the rise of radical state ideologies in Russia Italy Japan and Germany world wide depression in the 1930s along with a host of other unsettling political cultural and technological realities revealed a world of bewildering complexity and uncertainty For many of the travel writers surveyed in this work India was the main drama in a shifting global landscape Moreover many viewed it as the ultimate travel experience a journey that tested one s capacity to fully engage the earth s most compelling forms of human diversity and suffering Although a few notable figures are included most of the authors in the study constitute a breed of largely forgotten travel writers This work is an attempt to extract the core of their observations impressions and conclusions concerning what they saw and experienced particularly concerning Indian aspirations for independence and India as the world s most exotic human landscape **Images of the Tropics** Susie Protschky, 2011-01-01 *Images of the Tropics* critically examines Dutch colonial culture in the Netherlands Indies through the prism of landscape art Susie Protschky contends that visual representations of nature and landscape were core elements of how Europeans understood the tropics justified their territorial claims in the region and understood their place both in imperial Europe and in colonized Asia during the nineteenth and early twentieth centuries Her book thus makes a significant contribution to studies of empire art and environment as well as to histories of Indonesia and Europe Surveying a rich visual culture developed over a period of some 350 years of Dutch colonial engagement with Indonesia Susie Protschky demonstrates how views of the archipelago s environment were far from simple topographical souvenirs Rather this book reveals how images of the tropics visually articulated colonial attempts to legitimize and historicize what were in fact continually changing and contested claims to Dutch territorial sovereignty in the Indies Further colonial images of nature were routinely inflected with diverse cultural preoccupations among them the constitution of gender class and racial boundaries in Indies society the tenor of sexual mores in the tropics and the political role of religion in the archipelago Landscape art thus indexed colonial views on a range of pressing social and political concerns
