The Paradigm Trilogy Gerry Burney, 2003-08 *The Monopsony Game* Jerry L. Rhoads, 2014-12-27 America is number one in health care cost per capita and 38th in quality care Statistically Americans spend more money on their health care than anything else but food But the consumption of the health care dollar is predominately not paid for by the consumer The middlemen so to speak make the forces of free enterprise moot Consumers are bystanders in the relationship between purchase and quality because they do not directly pay for the service or products This phenomenon is called Monopsony The consumer is not the buyer But the buyer is almost singly dominant This is the reverse of Monopoly where the seller has the last say This is not Microsoft at work It is the Federal and State Medicare and Medicaid programs that buy upwards of 75% of all health care service products Under the Obama Nation Government will be the purchaser of last resort for all Americans Due to the onslaught of the baby boomers both the Government run health care and the insurance industry will bankrupt America unless they learn how to Win the Monopsony Game This book defines the problems and proposes common sense solutions *A Film-Philosophy of Ecology and Enlightenment* Rupert Read, 2018-10-17 Inspired by the philosophy of Wittgenstein and his idea that the purpose of real philosophical thinking is not to discover something new but to show in a strikingly different light what is already there this book provides philosophical readings of a number of arthouse and Hollywood films Each chapter contains a discussion of two films one explored in greater detail and the other analyzed as a minor key which reveals the possibility for the book's ideas to be applied across different films registers and genres The readings are not only interpretive but they offer a way of thinking and feeling about with and through films which is genuinely transformative Rupert Read's main contention is that certain films can bring about a change in how we see the world He advocates an ecological approach to film philosophy analysis arguing that film can re shape the viewer's relationship to the environment and other living beings The transformative wake up call of these films is enlightenment in its true sense The result is a book that ambitiously aims to change though film how we think of ourselves and our place in the world at a time when such change is more needed than ever before **Cinema and Sacrifice** Costica Bradatan, Camil Ungureanu, 2017-10-02 Cinema has a long history of engaging with the theme of sacrifice Given its capacity to stimulate the imagination and resonate across a wide spectrum of human experiences sacrifice has always attracted filmmakers It is on screen that the new grand narratives are sketched the new myths rehearsed and the old ones recycled Sacrifice can provide stories of loss and mourning betrayal and redemption death and renewal destruction and re creation apocalypses and the birth of new worlds The contributors to this volume are not just scholars of film but also students of religion and literature philosophers ethicists and political scientists thus offering a comprehensive and interdisciplinary approach to the relationship between cinema and sacrifice They explore how cinema engages with sacrifice in its many forms and under different guises and examine how the filmic constructions reconstructions and misconstructions of sacrifice affect society
