The Gorbachev Phenomenon An Historical Interpretation

Kathryn Stoner, Michael McFaul

The Gorbachev Phenomenon An Historical Interpretation:

The Gorbachev Phenomenon Moshe Lewin, 1991-04-16 The Gorbachev phenomenon is seen as the product of complex developments during the last seventy years developments that changed the Soviet Union from a primarily agrarian society into an urban industrial one Here for the first time a noted authority on Soviet society identifies the crucial historical events and social forces that explain Glasnost and political and economic life in the Soviet Union today **Politics, Paradigms, and Intelligence Failures** Ofira Seliktar, 2015-05-20 Washington's failure to foresee the collapse of its superpower rival ranks high in the pantheon of predictive failures The question of who got what right or wrong has been intertwined with the deeper issue of who won the Cold War Like the disputes over who lost China and Iran this debate has been fought out along ideological and partisan lines with conservatives claiming credit for the Evil Empire's demise and liberals arguing that the causes were internal to the Soviet Union The intelligence community has come in for harsh criticism for overestimating Soviet strength and overlooking the symptoms of crisis the discipline of Sovietology has dissolved into acrimonious irrelevance Drawing on declassified documents interviews and careful analysis of contemporaneous literature this book offers the first systematic analysis of this predictive failure at the paradigmatic foreign policy and intelligence levels

Although it is focused on the Soviet case it offers lessons that are both timely and necessary **The Soviet Colossus** Michael G. Kort, 2019-04-17 The Soviet Colossus revisits the turning points in Russia's modern history from the fall of the tsarist regime to the establishment of the Bolshevik dictatorship and Stalinist totalitarianism the reforms and counter reforms of Khrushchev and Brezhnev to the reform program of Mikhail Gorbachev and the resultant collapse of the Soviet Union and from the effort to build a democratic and free market Russia under Boris Yeltsin to the political authoritarianism and the establishment of a state capitalist economy under Vladimir Putin This eighth edition has been revised and updated to cover the latest developments from the Putin administration These revisions include added emphasis on the increasing authoritarian nature of Russia's political system the serious challenges posed by the country's unsolved economic and social problems and the growing tensions between Russia on the one hand and the United States and the European Union on the other as a result of Moscow's aggression against Ukraine Kort combines this updated account with a broad exploration of Russia's political history examining how the Soviet past has been woven into the fabric of the modern Russian state a state which plays such a major assertive role in global affairs but which simultaneously remains an allusive secretive entity With Russia's increasing influence on the global stage and the controversies that often accompany this The Soviet Colossus is an invaluable resource for students of history politics and international relations *Eastern Europe in the Postwar World* NA

NA, 2016-04-30 **Transitions to Democracy** Kathryn Stoner, Michael McFaul, 2013-04-15 What issues and consequences surround the fall of a government what type of regime replaces it and to what extent are these efforts successful This title provides a collection of writings by scholars and practitioners that are organized into three parts successful transitions

incremental transitions and failed transitions **Politics Russia** Catherine Danks, 2014-01-14 Politics Russia provides the most comprehensive accessible and up to date introduction to all aspects of the political development of Russia in the post communist era Writing with the undergraduate student specifically in mind Danks fluent style and masterly grasp of complex material will make this an indispensable guide for many years to come Divided into five sections Politics Russia maps a clear path towards an understanding of Russia and its politics in the twenty first century In Part One the emergence of contemporary Russia is put into context by a consideration of the end of the USSR and the move towards democratization under Gorbachev Part Two provides a clear sighted and stimulating overview of the nature of the executive and the legislature in contemporary Russia Part Three examines civil society the role of the media and the representative process Part Four is focussed on the policy process from foreign and defence policies to the development of domestic social policies from the provision of healthcare to education Part Five the final provides an overall consideration the contemporary state of Russia examining the development from Yeltsin to Putin to Medvedev and considers the possible futures of the region The book is supported by a host of pedagogical features including Annotated further reading lists Definitions of key political terms Short biographies of key figures **Reshaping Regional Relations** Ramesh Thakur, Carlyle A. Thayer, 2019-07-11 Reshaping Regional Relations summarizes the cause and consequences of changes in Asia Pacific region It introduces the lead player in regional change and outlines strategic military political and economical issues that constitute the regional agenda in the 1990s **Brezhnev Reconsidered** E. Bacon, M. Sandle, 2002-10-11 Leonid Brezhnev was leader of the Soviet Union for almost two decades when it was at the height of its powers This book is a long overdue reappraisal of Brezhnev the man and the system over which he ruled By incorporating much of the new material available in Russian it challenges the received wisdom about the Brezhnev years and provides a fascinating insight into the life and times of one of the twentieth century s most neglected political leaders Russia in the Twentieth Century David R. Marples, 2014-01-14 The history of Russia as the natural successor to the Soviet Union is of crucial importance to understanding why communism ultimately lost out to Western democracy and the free market system David Marples presents a balanced overview of 20th century Russian history and shows that although contemporary Russia has retained many of the practices and memories of the Soviet period it is not about to revert back to the Soviet example Moscow Graffiti John Bushnell, 2024-11-01 First Published in 1990 Moscow Graffiti is a unique and unprecedented look at the graffiti that began to appear for the first time on the walls of Moscow and other Soviet cities in the late 1970s John Bushnell first traces the social and cultural changes that fostered the emergence of a multifaceted Soviet subculture and the appearance of graffiti He explains the common graffiti argot of Russian slang English and pictographs and then examines the disparate groups that produced it adolescent gangs heavy metal fans pacifists punks hippies and even the fans of a popular Soviet novel Mikhail Bulgakov s The Master and Margarita Through graffiti these conflicting and alienated groups produce an explicit cultural alternative to the official culture they

disdain Fully illustrated with over eighty drawings and photos Moscow Graffiti is a unique look at an underexplored area of Soviet society The book will prove fascinating reading to all those interested in Soviet society history and popular culture

This is likewise one of the factors by obtaining the soft documents of this **The Gorbachev Phenomenon An Historical Interpretation** by online. You might not require more times to spend to go to the book commencement as competently as search for them.
